Six years and 75,000 miles ago I bought a Harley and re-entered the world of

motorcycles at the age of 55, and I have been having a blast ever since! I also have made every beginner mistake in the book. Wait a minute, what book? There is no beginner mistake book. Well, there is now and I wish I would have had it six years go. I wrote this book so you can cash in on my experiences and save yourself time, money and hassle. Crammed with beginner mistakes, tips, how-to's and resources, it has what every new or re-entry rider needs to know about riding and gear. It's got all of the stuff they didn't tell you about selecting a starter bike, minimizing risk, riding safety, using the `friction zone', going where you look, buying the right gear the first time and many more basic rider topics. It is easy to read, well organized and laced with a little off-beat humor to make it fun. The single best thing I did when I started riding was to go through the MSF Basic Rider course. The next best thing I could have done would have been buying this book. Reading this book can minimize your learning curve and enable you to start really enjoying your motorcycle today.

Speaking is the new competitive advantage and Knockout Presentations gives speakers tools and techniques,

templates, and resources to improve their skills.

### **The Legend of Briggs & Stratton**

Giorgio Manganelli (1922-1990), one of Italy's most radical and original writers, went further than most in exploring the creative possibilities of hybrid genres and open forms. Ostentation, theatricality, and a love of drapery and verbal excess are defining features of his body of work, which ranges from prose fiction, literary criticism, and drama to travel writing, treatises, commentaries, and imaginary interviews. This study examines the wealth of Manganelli's imagination - his grotesque animals, speaking corpses, and melancholy spectres - and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models. Following Manganelli's lead, the author addresses issues such as the boundaries of meaningful language, the relationship between literary and visual texts, fantasy and realism, and the power of literature to express the apprehensions and intimations of human consciousness.
