□ It is now time to break down the ideology of exceptionalism in the United States and other Anglo-American nations if we are to develop reforms that will truly inspire our teachers to improve learning for all our students—especially those who struggle the most. In that essential quest, Pasi Sahlberg is undoubtedly one of the very best teachers of all. □ From the Foreword by Andy Hargreaves, Lynch School of Education, Boston College Finnish Lessons is a first-hand, comprehensive account of how Finland built a world-class education system during the past three decades. The author traces the evolution of education policies in Finland and highlights how they differ from the United States and other industrialized countries. He shows how rather than relying on competition, choice, and external testing of students, education reforms in Finland focus on professionalizing teachers' work, developing instructional leadership in schools, and enhancing trust in teachers and schools. This book details the complexity of educational change and encourages educators and policymakers to develop effective solutions for their own districts and schools.

Maya Angelou, one of the best-loved authors of our time shares the wisdom of a remarkable life in this bestselling spiritual classic. This is Maya Angelou talking from the heart, down to earth and real, but also inspiring. This is a book to be treasured, a book about being in all ways a woman, about living well, about the power of the word, and about the power of spirituality to move and shape your life. Passionate, lively, and lyrical, Maya Angelou's latest unforgettable work offers a gem of truth on every page. Maya Angelou speaks out . . . On Faith: "I'm taken aback when people walk up to me and tell me they are Christians. My first response is the question 'Already?' It seems to me a lifelong endeavor to try to live the life of a Christian. It is in the search itself that one finds ecstasy." On Racism: "It is time for parents to teach young people early on that in diversity there is beauty and there is strength. We all should know that diversity makes for a rich tapestry, and we must understand that all the threads of the tapestry are equal in value no matter their color." On Taking Time for Ourselves: "Each person deserves a day away in which no problems are confronted, no solutions searched for. Each of us needs to withdraw from the cares which will not withdraw from us. A day away acts as a spring tonic. It can dispel rancor, transform indecision, and renew the spirit." On Death and Grieving: "When I sense myself filling with rage at the absence of a beloved, I try as soon as possible to remember that my concerns should be focused on what I can learn from my departed love. What legacy was left which can help me in the art of living a good life?" On Style: "Style is as unique and nontransferable and perfectly personal as a fingerprint. It is wise to take the time to develop one's own way of being, increasing those things one does well and eliminating the elements in one's character which can hinder and diminish the

good personality.”

Science of the Heart - Exploring the Role of the Heart in Human Performance

Achievement goal theory has emerged as one of the preeminent approaches to motivation. Goals, Goal Structures, and Patterns of Adaptive Learning presents the findings of a large scale, longitudinal study that use goal theory as the lens through which to examine the relation among achievement goals, the learning context, and students' and teachers' patterns of cognition, affect, and behavior. These results are integrated within the larger literature on goal theory, providing an overview of the research that has been conducted, as well as suggestions that

goal theory researchers might want to consider. Written by scholars who are well-known in the field, this book: *provides a comprehensive summary of research related to achievement goal theory--one of the preeminent approaches to motivation today; *presents a detailed overview of research conducted in conjunction with the Patterns of Adaptive Learning Study--a decade-long multi-faceted study employing both quantitative and qualitative methods. A description of the development, reliability, and validity of the Patterns of Adaptive Learning Scales is included. These scales are being used by many researchers using achievement goal theory in this country and internationally; *includes important information about the relevancy of achievement goal theory for an understanding of avoidance behaviors in schools; *describes the relevancy of achievement goal theory for children who are disaffected from school and schooling; and *points to the gaps in research on achievement goal theory, and provides guidance for future research in the field.
