### **Melanie's Treasure**

Once upon a time I was a complete idiot—too damn young and inexperienced and cocky to boot. And because of that, I messed up my chances with the woman I've always loved. Unrequited love is never easy, but it's a whole hell of a lot harder when it includes a successful business and a lifelong friendship. Even years after I blew my chance, I just can't let go of the feeling that Andi is the only one for me. I never want to see Andi hurt again, so when she comes down with a mysterious winter-related illness, all my protective instincts come creeping in. I've already lost this woman once, and I'll be damned if it happens again. Now I just need to make her see that we're worth a second chance—and if I need to let a little Christmas magic run its course to make that happen...well then, who am I to say that miracles don't exist?

"In an increasingly globalized world, offshore manufacturing is often favored over domestic manufacturing for its ability to meet greater demands for goods that can be manufactured at lower costs, ultimately saving both companies and consumers money. However, a number of concerns also arise when examining offshoring's impact on a domestic and international scale. Some argue that offshoring results in the exploitation of workers from lower-income countries, while others express concern over the potential loss of domestic jobs that can result from it. This volume examines the benefits and drawbacks of domestic and offshore manufacturing through numerous points of contention"--

Clay O'Neill lives in the old light keeper's house, a home he shares with his sister, Lacey. When Lacey invites her to stay with them, Gina eagerly accepts. Cindy Bentley: Spirit of a Champion celebrates the life of one of Wisconsin's most inspirational leaders and activists. Born with an intellectual disability as the result of fetal alcohol syndrome, Cindy Bentley spent much of her childhood at the Southern Wisconsin Center for the Developmentally Disabled. No one expected her to learn the skills necessary to live on her own. To everyone's surprise, including her own, she did that and much more. With the encouragement of a teacher at Southern Center, Cindy realized she had a deep passion for sports, and the discipline to train and compete. She began participating in Special Olympics, and gained confidence as she worked with teammates to earn medals in tennis, track and field, and even snowshoeing. Chosen as a Global Messenger for the Special Olympics International in 2000, Cindy has had dinner at the White House with two different American presidents, traveled around the world, and given speeches in front of thousands of people. In these pages, young readers will learn what gives Cindy her champion spirit, and why she gave away some of her gold medals. Today, Cindy is still competing in Special Olympics. She also continues to advocate for people with disabilities, and helped to start People First, a statewide organization that encourages those with disabilities to speak up for their rights.

Several years ago, two of us published a full-length textbook entitled Nutrition and Immunology: Principles and Practice. The book was academically successful and well received by our peers. Our colleagues commented that while the book was eminently suitable for a library, there was still an intellectual need for a more concise volume on nutrition and immunology for health care providers and scientists working at the interface of delivering therapeutic and/or preventive health care. We agreed and decided that a book focused on issues relevant to laboratory workers and to developing countries would be valuable. We invited well-known experts in their fields to contribute a chapter each and asked that they err on the short rather than the long side and update cited review articles rather than original papers wherever possible. The Handbook of Nutrition and Immunity is the culmination of that process. Our intention is that the book will grow over time and new editions will fill identified voids that meet the changing needs of health care providers and scientists interested in the practical aspects related to evaluating nutrition and immunology in the field. The Handbook of Nutrition and Immunity is for those people working in both adult and child nutrition throughout the world. It is

also of relevance to those in the pharmaceutical and the food industry who are interested in developing ways to evaluate both the efficacy and effective ness of their products.

seemed destined for great things. Then tragedy struck: her husband, Louis Harvey, drowned, and Cordelia found herself widowed and alone. Like Louis had, Cordelia cared deeply about the Wisconsin soldiers fighting in the Civil War, and she jumped at a job offer from the new governor: working as the sanitary agent for Wisconsin. In this position, Cordelia could fight for the well-being of the state's men and boys wounded in battle. Young readers will follow Cordelia on her travels up and down the Mississippi to visit Wisconsin soldiers in military hospitals. In her efforts to make sure soldiers were well cared for, Cordelia wrote to the governor about their need for wholesome food, clean supplies, and fresh air. Eventually, she would travel to Washington to plead with President Lincoln for a Soldier's Home hospital in Wisconsin. When Cordelia returned home after the war, she continued her humanitarian work by starting an orphanage for the children of fallen Civil War soldiers. Cordelia Harvey: Civil War Angel includes sidebars on medical care, early nursing, and military prisons. A timeline, glossary of terms, and suggestions for activities and discussion round out this spirited narrative.
