A Fellowship of Men and Women expertly reveals the depth, variability and scope of alcoholism and recovery. Not a self-help book, it concentrates on understanding the complexities and pain of the disease and the struggle for recovery and a healthy life. A Fellowship of Men and Women speaks poignantly to the ways alcoholism affects lives and relationships, while bringing a new understanding for lives have been bruised by alcoholics. A window into Alcoholics Anonymous, this must-read will keep you

engaged until the end. "In A Fellowship of Men and Women, Thomson explores the lives of a group of recovering alcoholics-and some who will never recover. The interlocking stories give the reader a wonderful insiders view" -Kit Reed Catholic Girls, Weird Women, Wired Women, Seven for the Apocalypse.

Molecular models are as vital a tool for the study of chemistry as calculators are for the study of mathematics. Molecular Visions models may be assembled in infinite combinations enabling the user to construct not only familiar configurations but also undiscovered possibilities. Models are intended to inspire the imagination, stimulate thought, and assist the visualization process. They present the user with a solid form of an abstract object that can otherwise only be visualized by the chemist. While chemistry

textbooks use letters and graphics to describe molecules, molecular models make them "real". MOLECULAR VISIONS Organic Kit #1 is in a green plastic box, 9"x4"x2"

Anaesthesia of Exotic Pets provides a unique and quick reference guide for all those working in veterinary practice. The book covers the common species seen and includes: the basic approach to the case, equipment required, drug doses, and anaesthetic induction and maintenance as well as anaesthetic monitoring techniques. Peri-anaesthetic nursing care, such as husbandry, fluid and nutritional support, is discussed for each species. Written by experienced practitioners, the book provides a common sense and practical approach to anaesthesia to enable a variety of techniques to be performed confidently. Covers practical information on anaesthesia for a successful outcome: how to assess and prepare the patient, lists of equipment required, how to perform the anaesthetic, husbandry, fluids and nutritional support Discusses commonly seen pathological conditions and their effect on the choice of anaesthetic and patient prognosis Provides an overview of the relevant anatomy and physiology in each species as this improves understanding of effects of anaesthesia and techniques used Describes both basic nursing and more advanced anaesthesia techniques, catering for all abilities and knowledge Contains tables of drug doses by species giving a

quick reference for the busy practitioner

## **Molecular Visions (Organic, Inorganic, Organometallic) Molecular Model Kit #1 by Darling Models to accompany Organic Chemistry**

The main objective of this book is to present the fundamentals and applications of drugs and equipment in anaesthetic practice to the undergraduate medical students, This book has been divided into two sections: the first section describes the drugs and the second section describes the equipment in common use.

'The big, era-defining questions and, at last, the subtle, tenable answers, teased out without cliché or compromise. A vital volume at a critical moment.' Dr Augustus Casely-Hayford, Director, Africa '05 'This book dispels the myth of a uniformly hopeless, hungry continent. It shows just how extraordinarily diverse Africa is and how much it has changed in the last 20 years. Full of fresh thinking on problems that face Africa and new African approaches to development.' Richard Dowden, Director, Royal African Society This ground-breaking book, with a foreword by former President of Ireland (1990-1997) and UN Human Rights Commissioner (1997-2002) Mary Robinson, uniquely distils the complex issues surrounding Africa at the beginning of the 21st century. African and Western

scholars provide a fascinating 'map' for the reader to navigate between issues such as urban and rural livelihoods, the potential of fresh water fishing, health, the HIV/AIDS crisis, conflict and efforts at peacemaking. Also included are critical assessments of Africa's role in the global economy, the growth of regional economic cooperation within Africa, the influence of ethnicity on the continent's politics, the evolution of its political institutions, and the impact of Africa's legal systems on its development. A substantial introductory essay by the editors measures the distance Africa has travelled and the lessons it has learned since *Africa in Crisis*, the classic Earthscan book, was published in 1985. Ben Wisner is visiting research fellow at DESTIN, London School of Economics and at Benfield Hazard Research Centre, University College London, and visiting professor of environmental studies, Oberlin College, USA. Camilla Toulmin is Director of the International Institute for Environment and Development. Rutendo Chitiga is a freelance writer and editor, and has a postgraduate degree in environment and development.

### **A Hedgehog Without Spikes**

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's

military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

### **Gifted II**

This is the digital version of the printed book (Copyright © 2008). Adrenaline junkies, dead fish, project sluts, true believers, Lewis and Clark, template zombies . . . Most developers, testers, and managers on IT projects are pretty good at recognizing patterns of behavior and gut-level hunches, as in, "I sense that this project is headed for disaster." But it has always been more difficult to transform these patterns and hunches into a usable form, something a team can

debate, refine, and use. Until now. In *Adrenaline Junkies* and *Template Zombies*, the six principal consultants of The Atlantic Systems Guild present the patterns of behavior they most often observe at the dozens of IT firms they transform each year, around the world. The result is a quick-read guide to identifying nearly ninety typical scenarios, drawing on a combined one-hundred-and-fifty years of project management experience. Project by project, you'll improve the accuracy of your hunches and your ability to act on them. The patterns are presented in an easy-reference format, with names designed to ease communication with your teammates. In just a few words, you can describe what's happening on your project. Citing the patterns of behavior can help you quickly move those above and below you to the next step on your project. You'll find classic patterns such as these: News Improvement Management by Mood Ring Piling On Rattle Yer Dags Natural Authority Food++ Fridge Door and more than eighty more! Not every pattern will be evident in your organization, and not every pattern is necessarily good or bad. However, you'll find many patterns that will apply to your current and future assignments, even in the most ambiguous circumstances. When you assess your situation and follow your next hunch, you'll have the collective wisdom of six world-class consultants at your side.

Leverage the WiFi chip to build exciting Quadcopters  
Key Features Learn to create a fully functional Drone

with Arduino and ESP8266 and their modified versions of hardware. Enhance your drone's functionalities by implementing smart features. A project-based guide that will get you developing next-level drones to help you monitor a particular area with mobile-like devices. Book Description With the use of drones, DIY projects have taken off. Programmers are rapidly moving from traditional application programming to developing exciting multi-utility projects. This book will teach you to build industry-level drones with Arduino and ESP8266 and their modified versions of hardware. With this book, you will explore techniques for leveraging the tiny WiFi chip to enhance your drone and control it over a mobile phone. This book will start with teaching you how to solve problems while building your own WiFi controlled Arduino based drone. You will also learn how to build a Quadcopter and a mission critical drone. Moving on you will learn how to build a prototype drone that will be given a mission to complete which it will do it itself. You will also learn to build various exciting projects such as gliding and racing drones. By the end of this book you will learn how to maintain and troubleshoot your drone. By the end of this book, you will have learned to build drones using ESP8266 and Arduino and leverage their functionalities to the fullest. What you will learn Includes a number of projects that utilize different ESP8266 and Arduino capabilities, while interfacing with external hardware Covers electrical engineering and programming concepts, interfacing with the World through analog and digital sensors, communicating with a computer and other devices, and internet connectivity Control and fly your quadcopter, taking into account weather conditions

Build a drone that can follow the user wherever he/she goes Build a mission-control drone and learn how to use it effectively Maintain your vehicle as much as possible and repair it whenever required Who this book is for If you are a programmer or a DIY enthusiast and keen to create a fully functional drone with Arduino and ESP8266, then this book is for you. Basic skills in electronics and programming would be beneficial. This book is not for the beginners as it includes lots of ideas not detailed how you can do that. If you are a beginner, then you might get lost here. The prerequisites of the book include a good knowledge of Arduino, electronics, programming in C or C++ and lots of interest in creating things out of nothing.

Black and White version. EFT is an Easy Type of Chinese Acupressure, Puncture without Needles or Hard Pressure. EFT is applied by 'TAPPING', activating energy points, meridians on/in the body with the fingertips. Tapping removes energy blocks, (stuck, stagnant energy), orients, 'polarizes', corrects, balances and strengthens the energy flow in the body, through the Meridians/Energy Pathways, Energy Points, Chakras, Nervous System. (Electric, Chi and other Energies, Physical and Spiritual.) Tai Chi, Qi Gong, Karate Energy Control Methods are related to EFT. EFT removes negative, destructive emotions, thoughts, feelings, stress from the mind/brain, system by correcting energy flow. The body's energies flow correct and strengthen. EFT balances and improves function of the left and right brain hemispheres. This produces good health, clear eyesight. Neck, chest, shoulder, eye muscle tension, stiff, infrequent eye

'shifting' movements, headaches, strain in the mind/brain, negative, unhappy past/present thoughts, emotions, experiences, blocked energy flow, lowered liver/kidney health, staring, squinting cause unclear eyesight. Negative, destructive thoughts, emotions, worry are a common cause of mental strain, back, chest, shoulder, neck, eye muscle tension and unclear eyesight. Lowered eyesight increases worry, mental strain, which then increases the body..., neck, eye muscle tension. Eye function is impaired. Light rays focus incorrect in the eye. Circulation to/in the eye lowers. Vision is more unclear. EFT, Nutrition, Natural Eyesight Improvement corrects these conditions; Blocked energy (experienced during a stressful event) happens first, before the negative emotions occur and locks them into the mind/body. Negative thoughts, emotions maintain blocked energy flow. Removing blocked energy first results in removal of the negative emotions, thoughts, feelings and often brings instant clear eyesight. As EFT Tapping removes energy blocks, corrects the energy flow, resulting in removal of negative emotions, thoughts, feelings; the person can then place positive, constructive thoughts into the mind, system; think, feel in a positive, constructive way about the past or present stressful event. Positive thoughts, emotions help to correct and strengthen the body's energy flow. Correct energy flow is now maintained. Mental and physical health improve, eye function returns to normal, eyesight is 20/20 and clearer at all distances, close and far. Health of body organs, systems improve as energy flows correct throughout the body. EFT improves the function of the brain, visual cortex, left and right brain hemisphere activation, integration. This improves

function of the brain with the eyes, retina, eye muscles and body. Eyesight and mental, physical health improve. Memory, imagination, math, science, speech, learning, creativity, art, music., skills - all functions of the brain, left and right hemispheres even the oldest, deep survival areas of the brain improve. This is a main treatment of Natural Eyesight Improvement. Having been exonerated for the assault that led to the death of his wife, David Seager and Alison wasted no time creating a new relationship together. But something still seems amiss, and Alison, along with Sam, her news reporter friend, explore a myriad of clues to discover who actually died. A coroner's office error leads them to believe David's wife might still be alive and has assumed the identity of the real victim. Alison cannot tell David about her suspicions fearing his reaction would crumble the foundation of their new relationship. To complicate the matter, David's ex-employee, Dillon, has inexplicably confessed to the assault leading to David's wife's death, a crime of which Alison knows he did not commit. Meanwhile, David and Alison continue to build their relationship completely unaware their lives are in mortal danger as they are being tracked from different angles. Will Alison finally disclose her suspicions to David and take him out of danger? Read to the end when all the secrets are revealed, and new secrets are disclosed.

This is the first edition of a unique new plastics industry resource: *Who's Who in Plastics & Polymers*. It is the only biographical directory of its kind and includes contact, affiliation and background information on more than 3300 individuals who are

active leaders in this industry and related organizations. The biographical directory is in alphabetical order by individual name. After each individual name, current affiliation and contact information is provided. This includes job title, full name of affiliation (e.g., business, university, association, research institute), business address, and electronic contacts-telephone, fax, e-mail and Web site. Home addresses and contacts are also provided for most of the entries. In the biographical summary section for each individual, the following information is provided: date and place of birth, education and educational achievements, work experience including company or other organization names, positions held and time periods. Also included in this section are the number of patents awarded, articles, and book chapters authored, and conference sessions chaired. Other information includes titles of books edited or written by the individual, listing of conferences where the person had a leadership position, and listing of memberships and positions held in professional organizations. Finally, professional and civic awards are listed. Indexes provide listings of individuals by company or other organization name, and also by geographical location. Who's Who in Plastics & Polymers is now published in a limited edition of 1,000 copies. This edition will not be reprinted. To be sure of receiving your copy, please act now. It is easy to envy others who own something we do not have and fall into the cycle of chasing the things we do not own. To the point of forgetting who we really are. Like the Hedgehog without spikes in the story. He tried to play a role which he was not suitable for and this nearly got him hurt. Fortunately he found himself before he lost who he really was.
