The last lecture on leadership by the NFL's greatest coach: Bill Walsh Bill Walsh is a towering figure in the history of the NFL. His advanced leadership transformed the San Francisco 49ers from the worst franchise in sports to a legendary dynasty. In the process, he changed the way football is played. Prior to his death, Walsh granted a series of exclusive interviews to bestselling author Steve Jamison. These became his ultimate lecture on leadership. Additional insights and perspective are provided by Hall of Fame quarterback Joe Montana and others. Bill Walsh taught that the requirements of successful leadership are the same whether you run an NFL franchise, a fortune 500 company, or a hardware store with 12 employees. These final words of 'wisdom by Walsh' will inspire, inform, and enlighten leaders in all professions.

A classic work on religion and the racial problems of modern America - now brought up to date. Since the early days of the Republic, Americans' exuberant, unchastened idealism, their commitment to the notion of a perfect society in the New World, has clashed with the reality of ugly American society, and religious groups have all too often accommodated themselves to these injustices. In *Race, Religion, and the Continuing American Dilemma*, C. Eric Lincoln reevaluates what Gunnar Myrdal called "the American dilemma" and studies particularly the influence of the black church. This revised edition takes into account the weakening of welfare and affirmative action, and argues that the black church must serve today as a vital moral authority to lead us in to the twenty-first century..

THE FRUITS OF HIS LABOR: The true story of Professor Edmond Jefferson Oliver, Principal of Fairfield Industrial High School, its staff, its students, community, state of Alabama, the Nation and the World!!! By John B. Davis, Class of 1951 Fruit results from planted seeds, when seeds grow, they bear fruit, Galatians 5:22, 23 We were taught that the fruit that you have to reach for is the sweetest!! The fruits of his labor are many: the world is blessed with Fairfield Industrial High School (F.I.H.S.) graduates eschewing their accomplishments through serving others!! As one of our graduates, Lois Macon, eloquently proclaimed, There was a place called FAIRFIELD INDUSTRIAL HIGH SCHOOL and a man named EDMOND JEFFERSON OLIVER and his vision was to educate the coloreds living in a colored community, children of colored parents who worked at colored jobs to send their colored children to a colored school. The visionary, Professor Oliver with head bloody, but unbowed still forged ahead. Each drop of blood in the sand, like living water produced living fruit, sprouting all around is evidence of his passion. He calls to the visionaries and awaits that army to understand that each child of mother F.I.H.S. also has a purpose; that each is, and that is will be is when he or she is! We, the graduates of Fairfield Industrial High School, are the fruits of his labor and some of our stories are unfolded in this book. Like a plant, Professor Olivers roots are showing. He grew good people in our small town with honesty, sincerity and dignity! Drop this book on the floor and where ever it opens, it will be excellent reading! This true story is dedicated to our BLACK Community (I choose to capitalize the word (BLACK),

because of all the hell we caught and are still catching in this country)!

## **Faculty Personnel**

Chronicling the emergence of deeply embedded notions of black people as a dangerous race of criminals by explicit contrast to working-class whites and European immigrants, this fascinating book reveals the influence such ideas have had on urban development and social policies.

In 1840s Alabama, Dr. George Barry is on the verge of a miraculous cure: treatment for fistulas, a common but painful complication of childbirth. To achieve his medical breakthrough, Dr. Barry performs experimental surgeries on a group of enslaved women afflicted with the condition. Based on the true story of Dr. J. Marion Sims, the “father of modern gynecology,” BEHIND THE SHEET remembers the forgotten women who made his achievement possible, and the pain they endured in the process.

The first African American fraternities and sororities were established at the turn of the twentieth century to encourage leadership, racial pride, and academic excellence among black college students confronting the legacy of slavery and the indignities of Jim Crow segregation. With a strong presence that endures on today's campuses, African American fraternities and sororities claim legendary artists, politicians, theologians, inventors, intellectuals, educators, civil rights leaders, and athletes in their ranks. In this second edition of *African American Fraternities and Sororities: The Legacy and the Vision*, editors Tamara L. Brown, Gregory S. Parks, and Clarenda M. Phillips have added new chapters that address issues such as the role of Christian values in black Greek-letter organizations and the persistence of hazing. Offering an overview of the historical, cultural, political, and social circumstances that have shaped these groups, *African American Fraternities and Sororities* explores the profound contributions that black Greek-letter organizations and their members have made to America. New in the second edition: Examination of the relationship between Christian values and organizational identity Investigation of hazing rituals Survey of academic performance in black Greek-letter organizations Discourse on notions of masculinity in black Greek-letter organizations Accounts of the professional lives of black Greek luminaries
