Sexy Alpha Heroes in a New Military Romance and Romantic Suspense Series Including: #1 Amazon Romantic Suspense Bestseller Top 100 Bestsellers list for Amazon Kindle, Barnes & Noble Nook, Kobo, iTunes, and All Romance
The Titan Series, books 1-5: Winters Heat, Garrison's Creed, Westin's Chase, Gambled, & Chased
WINTERS HEAT After putting her life on the line to protect classified intelligence, military psychologist Mia Kensington is on a cross-country road trip from hell with an intrusive save-the-day hero. She'd rather take her chances without the ruggedly handsome, cold-blooded operative who boasts an alpha complex and too many guns. Colby Winters, an elite member of The Titan Group, has a single objective on his black ops mission: recover a document important to national security. It was supposed to be an easy in-and-out operation. But now, by any means necessary becomes a survival mantra when he faces off with a stunning woman he can't leave behind. When Titan's safe houses are compromised, Colby stashes Mia at his home, exposing his secret--he's the adoptive father of an orphaned baby girl. Too soon, danger arrives and Mia lands in the hands of a sadistic cartel king with a taste for torture. As hours bleed into fear-drenched days, Colby races across the globe and through a firestorm of bullets to save the woman he can't live without. GARRISON'S CREED Nicola is an injured CIA agent on the run from a failed undercover operation. Her escape plan shatters when she slams into the man who buried her a decade ago. Cash Garrison. Her first and only love. Now, sexier than her best memory and cradling a sniper's rifle, he has questions she can't answer. Why was she alive? And armed? Cash is an elite member of a black ops organization, The Titan Group. He thought Nicola died his senior year of college and swore off love to focus on a decade of military missions. But when she shows up behind enemy lines, bleeding out and wielding a weapon, his heart and mind are unsure how to proceed. Titan and the CIA join forces to uncover a mole hidden in a network of international terrorists and homegrown mobsters, teaming Cash and Nicola

againWhen disaster strikes, Nicola's hidden past makes her the hunted target and Cash's best kill shot may not be enough to save them. WESTIN'S CHASE Jared Westin knows his reputation and likes it. He gets the job done. No emotion. No baggage. That's why his elite ops company, The Titan Group, is better than the best. They complete projects classified as mission impossible. And then, in walks a woman as tough as she is sexy. His counterpart in every way, should he choose to admit it. Ousted undercover ATF agent Lilly Chase only answers to "Sugar." Jared is the only man who can see past her leather-and-lipstick demeanor, and that revelation is terrifying. She was fired for helping Titan on a questionable arrest she should've ignored, then partnered with Jared's rival on an assignment in Afghanistan. Saving Sugar isn't a normal rescue operation. It pits Titan against its rival, Jared against his nemesis. Chasing Sugar's heart isn't a simple task, either. She fights him, fights them, always ready to run. Jared must risk his life to save her--the woman whose bravado and surprising sweetness has given him the one thing he never had. Love. GAMBLED Brock Gamble's epic fall from the Titan Group labeled him a traitor, then his wife walks out the door. Can the couple survive if the only chance of redemption is a fall further into a world of guns and kidnappings? CHASED Jenny Chase and Asher McIntyre: can two hearts on opposite career paths survive while Asher's enemy seeks to destroy them both?

The Ducati 750 Bible

Paul Ritter's autobiography tells the story of the early days of Superbike racing. Paul shocked the racing community by winning the first AMA pro Superbike race he entered. His account of those days gives readers an up close and personal look into the days when professional racers in the sport were weekend warriors who traveled on shoestring budgets and fueled their bikes with passion and (if they were good) a few dollars of winnings.

Illustrated Ducati Buyer's Guide

The Ducati 750 motorcycles were among the last pure, unadulterated sporting motorcycles built--representing a time before cost accounting and government design requirements--and have, unsurprisingly, inspired a new generation of retro classics.

The Art of the Motorcycle

This book bridges the gap between strengthening the 'employee brand' and the building 'external brand image' by synthesizing the two approaches. The result is a blurring of the boundaries and assigning creative powers to both. A customer has a number of interactions with the company, and each of these interactions has an impact on the brand equity account - either positive or negative. Examples of interactions include: the product itself, the purchasing process, the consumption experience, the 'face' of the organization, the call center, media etc. The real issue for the company is how to translate the optimized 'ideal' customer journey into effective company programmes, how to track their progress and their actual impact on brand equity, customer satisfaction and loyalty. This book takes a holistic view to brand management and distills this complex system into palatable chunks, involving all functions of the company. The book demonstrates the effect of an organization that facilitates and rewards employee brand commitment on 'external brand equity (eg: customer satisfaction and loyalty) and 'internal brand equity' (eg: product improvement and innovation potential resident in the organization). While the more obvious benefits of this approach include the usual suspects such as increased sales and revenues, less obvious benefits include employee stress reduction through the elimination of tensions and incongruity between external and internal value systems. The result is a significant contribution to creativity, brand commitment, overall employee satisfaction and, finally, a company's ability to attract and retain talent. The above is achieved via a very practical, step-by-step guide, lavishly illustrated with case studies from over 100 fascinating brands (the authors have researched and surveyed companies such as: Aer Lingus, BMW, BP, Deutsche Bank, Ducati, Edun, Google, innocent drinks, Lacoste, Lego, Manner, Maggi, Orange, Old Mutual, Rabobank, Sony, SOS Childrens Villages, Siemens, Thomas Sabo, TED/United, TUI, UBS, Vauxhall, Wal-Mart, Wikimedia, any many more) the authors are able to paint a very real picture of the issues facing business and provide powerful solutions. Refreshingly, this book draws on examples from across the

globe, giving the book cultural depth. Each case helps demonstrate the arguments put forward by the authors. After reading this book the audience should be able to answer the following questions: How can I build a strong brand? Where do I start? Which analyses do I have to conduct? Who needs to be involved? How can I make sure every part of the organisation lives the brand? How can I revive the brand? How can I create a new and relevant connection between the brand and key target audiences? How can I develop and expand the brand? How can future orientation become part of the brand? How can I best structure the brand portfolio? Which role should each of the brands adapt in order to optimise results? How do I best manage the brand? How do I cultivate and empower brand enthusiasts in the organisation? How do I foster and leverage networked collaboration?

Bikes and Bloomers

From the single-cylinder bikes of the 1950s to the high-performance sportbikes of today, *The Complete Book of Ducati Motorcycles* showcases the entire spectrum of Ducati. Legendary Ducati motorcycles have something of a rags-to-riches story. This Italian motorcycle manufacturer began by selling motorized bicycles to impoverished residents of post-World

War II Italy. Today, Ducati is the world's premier manufacturer of street motorcycles whose sales continue to rise year after year. Its svelte, hyper-accelerating motorcycles are two-wheeled wonders that are fluent in the language of speed. The Complete Book of Ducati Motorcycles traces the stunning chronology of the motorcycles dreamed up by Ducati, from the 1950s to present day. Laid out for the first time in encyclopedia form with gorgeous photography and insights from Ducati expert Ian Falloon, this book offers motorcycle enthusiasts a closer look at the craftsmanship, power, and beauty of these extraordinary motorcycles. The book features all of the motorcycles from Ducati's storied history, including the groundbreaking Desmodromic 750 Super Sport, the Mike Hailwood Replica, the Superbike-dominating 916, and the epic Panigale. From the street bikes that gave birth to the very notion of the modern superbike to the racing motorcycles that dominated tracks in Great Britain, Europe, and North America since the latter part of the twentieth century, The Complete Book of Ducati Motorcycles runs the full gamut of sportbikes. It's a collection that demands shelf space in the library of any true motorcycle collector or fan.

An illustrated history of the evolution of British women's cycle wear. The bicycle in Victorian Britain is often celebrated as a vehicle of women's liberation. Less noted is another critical technology with which women forged new and mobile public lives—cycle wear. This illustrated account of women's cycle wear from Goldsmiths Press brings together Victorian engineering and radical feminist invention to supply a missing chapter in the history of feminism. Despite its benefits, cycling was a material and ideological minefield for women. Conventional fashions were unworkable, with skirts catching in wheels and tangling in pedals. Yet wearing “rational” cycle wear could provoke verbal and sometimes physical abuse from those threatened by newly mobile women. Seeking a solution, pioneering women not only imagined, made, and wore radical new forms of cycle wear but also patented their inventive designs. The most remarkable of these were convertible

costumes that enabled wearers to transform ordinary clothing into cycle wear. Drawing on in-depth archival research and inventive practice, Kat Jungnickel brings to life in rich detail the little-known stories of six inventors of the 1890s. Alice Bygrave, a dressmaker of Brixton, registered four patents for a skirt with a dual pulley system built into its seams. Julia Gill, a court dressmaker of Haverstock Hill, patented a skirt that drew material up the waist using a mechanism of rings or eyelets. Mary and Sarah Pease, sisters from York, patented a skirt that could be quickly converted into a fashionable high-collar cape. Henrietta Müller, a women's rights activist of Maidenhead, patented a three-part cycling suit with a concealed system of loops and buttons to elevate the skirt. And Mary Ann Ward, a gentlewoman of Bristol, patented the "Hyde Park Safety Skirt," which gathered fabric at intervals using a series of side buttons on the skirt. Their unique contributions to cycling's past continue to shape urban life for contemporary mobile women.

The poster was the popular art form in Cuba following the Cuban Revolution, when the government sponsored some 10,000 public posters on a fascinating range of cultural, social, and political themes. *Revolucin!*, produced with unprecedented access to Cuban national archives, assembles nearly 150 of these powerful but little—seen works of popular art. From the 1960s through the 1980s, the posters rallied the Cuban people to the huge task of building a new society, promoting massive sugar harvests and national literacy campaigns; opposing the U.S. war in Vietnam; celebrating films, music, dance, and baseball with a unique graphic wit and exuberant colorful style. With an introduction illuminating the rich social and artistic history of the posters, and rare biographical information on the artists themselves, this striking volume offers a window into the story of Cuba—and a truly revolutionary chapter in graphic design.
