### Khalifa Ibn Khayyat's History on the Umayyad Dynasty (660-750)

The Novum Organum, fully Novum Organum, sive indicia vera de Interpretatione Naturae, is a philosophical work by Francis Bacon, written in Latin and published in 1620. The title is a reference to Aristotle's work Organon, which was his treatise on logic and syllogism.

### The Allure Of A Thug

Idealistic visions of the Soviet capital that were never realised. Published at the

centenary of the Russian Revolution, *Imagine Moscow: Architecture, Propaganda, Revolution* portrays Moscow as it was envisioned by a bold generation of architects in the 1920s and early 1930s. Through evocative imagery and a wealth of rarely seen material, this book provides a window into an idealistic fantasy of the Soviet capital that was never realised and has since been largely forgotten. Focusing on six unbuilt architectural landmarks, *Imagine Moscow* explores how these projects reflected changes in everyday life and society following the revolution, during one of the most fascinating periods of the twentieth century. Large-scale architectural plans, models and drawings are placed alongside propaganda posters, textiles and porcelain, contextualising the transformation of a city reborn as the new capital of the USSR and the international centre of socialism.

Andrée Hayum approaches Matthias Grünewald's Isenheim Altarpiece, now at the Musée d'Unterlinden in Colmar, as a structural and iconographic entity and restores it to its broader cultural context in the early sixteenth century. She interprets the altarpiece in terms of its hospital context, then explores how this polyptych functions as a system of communication, in relation to contemporary sermons and in response to an emerging print culture. The meaning and motivation behind the direct visual appeal of the Isenheim panels are considered within the liturgy and the sacramental economy.

### **The Bow-wow Bus**

World War II is looming and there's a race to develop an atomic bomb. The United States and Germany have knowledge of nuclear fission but they lack the key component to bring a nuclear chain reaction to detonation. Jessica Troike, a nuclear physicist at the University of Chicago discovers the key component. But before the bomb can be tested the component is stolen by Peggy, a German agent posing as a Soviet spy. Peggy acquires the bomb's key component and replaces it with a fake. She uses sex to seduce anyone who opposes her and then kills them with a special knife. Her motive is not Fascism but greed. Wolfgang, a friend of Jessica's, comes to her aid. He regains possession of the component only to have it stolen again, or was it? In a final confrontation between Peggy, Jessica, and Wolfgang the fate of the free world hangs in the balance.

**DRUGS GUNS BOATS MONEY PLANES** Jesse Langdon III accepts an offer he should refuse. He is lost in a deteriorating marriage and torn by the love for his children. He falls into the depths of the underworld, where unlimited cash brings corruption to the highest levels of government and the courts. It is near impossible to determine who is the assassin, the informant or the federal agent. Once Upon a Nightmare takes readers on a wild ride into the upper echelons of drug smuggling in South America, Florida and New England. Jesse is consumed by the business of running drugs and sinks deeper into his own inner darkness. He and the drug lord's mistress, Claire, plot their escape. But who is she, really? Two weeks' notice and a request for severance pay is not a recommended exit strategy from this web of deception and violence. How would you get out?

Cassie Tyler's first grade class visits the Animal Inn in this third zany novel in a brand-new chapter book series where the fur—and fun—flies at an animal spa and hotel. The Animal Inn is an all-inclusive pet resort/hotel/center/spa for animals from dogs to rabbits, cats to ducks, parrots to lizards. From doggie and kitty daycare, to grooming, and group play—you name it, and the Animal Inn has it. The Inn is run by the Tyler family along with their pets Leopold, the Macaw; Fuzzy and Furry, the gerbils; dogs Dash and Coco; felines Shadow and Whiskers; and a rollicking horde of animal visitors. Cassie Tyler's first grade class is so excited to take a field trip to Animal Inn for a meet and greet. And it's a furry good time for all—even for the newest classmate, a goldfish named Blub!

Rheumatoid arthritis (RA) is a chronic systemic inflammatory disease that causes persistent sym-metrical joint synovitis (inflammation of the synovial membrane) typically of the small joints of the hands and feet, although any synovial joint can be affected. Synovitis presents as pain and pro-longed stiffness that tends to be worse at rest or following periods of inactivity, swelling, tender-ness, and heat in the affected joints. Other symptoms of rheumatoid arthritis include rheumatoid nodules and non-specific symptoms such as malaise, fatigue, fever, and weight loss. As the disease progresses, it can cause joint deformity and affect different organs of the body, such as the heart, lungs, and eyes; therefore early diagnosis and treatment of rheumatoid arthritis is essential to re-duce the impact of the disease. Palindromic rheumatism is a rare form of inflammatory arthritis which causes attacks of joint pain and swelling similar to rheumatoid arthritis, but the joints return to normal in between attacks. Patients with palindromic rheumatism may later develop rheuma-toid arthritis. Rheumatoid arthritis affects around 400,000 adults aged 16 and over in the UK. It can affect anyone of any age. It can get worse quickly, so early diagnosis and intensive treatment are important. This chronic disease affects over 1.3 million Americans and as much as 1% of the world-wide population. The specific cause of RA is not known, and as a result there is no known cure for the disease. Researchers do know, however, that RA is the result of an autoimmune disorder. It is one of the most common autoimmune disorders - more common than psoriasis, Crohn's disease, multiple sclerosis, and lupus.

Khalifa ibn Khayyat was born in the southern Iraqi city of Basra in the 770s AD and in his lifetime Iraq grew into a thriving centre of culture and trade and one of the most populous and prosperous regions of the world. He was one of a generation of scholars who gave concrete form to Islamic religion and culture and bequeathed to us the first books that can be said to be distinctively Islamic. Khalifa's History is the earliest extant work of Muslim historiography and this alone makes it deserving of greater recognition. It carefully records the key events in the life of the Muslim community from the prophet Muhammad to Khalifa's own day. The section on the Umayyad dynasty (660-750), which occupies about half of the work, is noteworthy because it gives a more positive assessment of the Umayyad caliphs than later narratives. Over time they were increasingly censured for having corrupted the purity of early Islamic society, and yet it was they who had overseen the conquest of cities as far afield as Seville and Samarkand and established Muslim rule over all the lands inbetween. They built the magnificent mosques of Medina and Damascus that still stand today and the palaces that litter the desert margins of modern Jordan and Syria. Khalifa's History helps us to better evaluate the achievements of this dynasty and also to analyze the beginnings of the discipline of Arabic historical writing in the framework of Islamic civilization. This study and translation was originally submitted by Carl Wurtzel as a doctoral thesis at Yale University in 1977 under the supervision of Franz Rosenthal, one of the greatest Orientalists of modern times. It has now been prepared for publication, with a Foreword and updated bibliography, by Robert Hoyland, professor of Islamic History at Oxford University.

## **Your Best Mind-Blowing Year**

This volume presents a reconsideration of the concepts of State and political power within the evolving multilateral network of cooperation and conflict. By means of an innovating research strategy, it explains state resilience within global governance while deepening the obsolescence of the traditional sovereign state concepts, including by emerging powers. Rather than considering the EU as an isolated case study, the book considers the EU as both a reference and a proactive player, which fosters a new research agenda both for comparative studies and political theory. Lastly, in view of the currently emergent, unprecedented and asymmetrical, 'multi-polar' world, it considers the need for a new research agenda on multilateralism.

## **Once Upon a Nightmare**

While the number of Asians in Michigan was small for a good portion of the state's history, many Asian-derived communities have settled in the area and grown significantly over time. In Asian Americans in Michigan: Voices from the Midwest, editors Sook Wilkinson and Victor Jew have assembled forty-one contributors to give an intimate glimpse into Michigan's Asian-American communities, creating a fuller picture of these often overlooked groups. Accounts in the collection come from a range of perspectives, including first-generation immigrants, those born in the United States, and third- and fourth-generation Americans of Asian heritage. In

five sections, contributors consider the historical and demographic origins of Michigan's Asian American communities, explore their experiences in memory and legacy keeping, highlight particular aspects of community culture and heritage, and comment on prospects and hopes for the future. This volume's vibrant mix of contributors trace their ancestries back to East Asia (China, Japan, Korea, Taiwan), South Asia (Bangladesh, India, Pakistan), and Southeast Asia (Cambodia, Laos, Philippines, Thailand, Vietnam, and the Hmong). Though each contributor writes from his or her unique set of experiences, *Asian Americans in Michigan* also reveals universal values and memories held by larger communities. *Asian Americans in Michigan* makes clear the significant contributions by individuals in many fields—including art, business, education, religion, sports, medicine, and politics—and demonstrates the central role of community organizations in bringing ethnic groups together and preserving memories. Readers interested in Michigan history, sociology, and Asian American studies will enjoy this volume.

This book covers graphene reinforced polymers, which are useful in electronic applications, including electrically conductive thermoplastics composites, thermosets and elastomers. It systematically introduces the reader to fundamental aspects and leads over to actual applications, such as sensor fabrication, electromagnetic interference shielding, optoelectronics, superconductivity, or memory chips. The book also describes dielectric and thermal behaviour of graphene polymer composites - properties which are essential to consider for the fabrication and production of these new electronic materials. The contributions in this book critically discuss the actual questions in the development and applications of graphene polymer composites. It will thus appeal to chemists, physicists, materials scientists as well as nano technologists, who are interested in the properties of graphene polymer composites.

Thinkers50 Management Thinker of 2015 Whitney Johnson has a goal: to help us identify and achieve our dreams. Her belief is that we can each achieve greater happiness when focusing both on our dreams and on other people in our lives. In this inspiring book, Johnson directs her attention to teaching women, in particular, a three-step model for personal advancement and happiness. She first encourages us to Dare to boldly step out, to consider disrupting life as we know it. Then she teaches us how to Dream, to give life to the many possibilities available, whether to start a business, run a marathon, or travel the world. She shows us how to "date" our dreams (no need to commit!) and how to make space for dreams. Finally, Whitney's model brings out the businesswoman in her; she teaches us to Do, to execute our dreams. She showcases the importance of sharing dreams with others to give them life, creating your own "dream team." Rich with real stories of women who have dared to dream, Dare, Dream, Do offers a practical framework for making remarkable things happen.

This book offers 14 contributions that examine key questions in bank decision-taking, constitution of confidence in banks and risk management practices from Early Modernity to the twentieth century. It explores how the various mechanisms of bank decision taking changed over time. Chapters also analyse the types of risk management techniques used, the contributory factors to the constitution of confidence and the methods that banking historians can use to analyse and describe bankers' risk management and decision taking - from system theory to behavioural finance, new institutional economics to praxeology and convention theory to network analysis. The different methodological approaches are put to the test in case studies based on archive material from four hundred years of banking in order to connect banking history more closely to political and cultural history.

"Gerald Corey's Reflections is an absolute delight! Each chapter is packed with nuggets of wisdom he has gained over the decades. What makes the book particularly engaging is that it invites us into Corey's inner world and we feel as though we are reading a series of letters from a friend. This book could serve as an excellent supplemental reading in an introductory course or as a useful resource for advanced students as they navigate the complexities of graduate school and look ahead to their careers." —Barbara Herlihy, PhD, University of Texas at San Antonio "In this inspirational book, Gerald Corey shares his most heartfelt personal reflections and lessons learned as he describes his journey over a 60-year counseling career. He is honest, self-disclosing, humble, and insightful in this compendium that encourages readers to embrace their vision and entertain their dreams. This is a must-read gem that provides an opportunity for counseling students and young professionals to learn from the master." —Robert Haynes, PhD, Psychologist and author, Borderline Productions In an easy-to-read, question-and-answer format, Dr. Corey provides sage insight on a broad range of topics concerning professional issues, career development, the counseling process, and work-life balance. Responding to an array of questions often asked by students over the years, he uses candid personal examples to highlight key lessons and engage readers in an active process of personal and professional self-reflection on their own journeys. Topical question themes include creating your professional path, mentoring and being a mentee, surviving graduate school, benefiting from personal therapy, focusing on self-care and wellness, becoming an ethical counselor, managing value conflicts in counseling, using self-disclosure therapeutically, dealing with difficult clients, getting the most out of supervision, and becoming a writer. In each chapter, reflection questions encourage readers to consider their own views and experiences related to the questions raised, and recommended readings provide suggestions for further information.
