I Have Met The Devil

Kelley Blue Book Used Car Guide, July-December 2008

A muscle car is not a piece of Italian exotica, a Ferrari or a Lamborghini, cars which are just too complex and too specialized; nor is it a German Porsche, which is too efficient and too clever by half; nor yet a classic British sports car, a Morgan, TVR or Jaguar, which could never be regarded as fitting the bill. Sports cars, by and large, are not muscle cars, with two notable exceptions: the legendary AC Cobra of the 1960s, and the Dodge Viper of the 1990s. These followed the muscle car creed of back-to basics raw power. In effect, muscle cars always were, and always will be, a quintessentially North American phenomenon. The basic concept is something like this: take a mid-sized American sedan, nothing complex, upmarket or fancy, in fact the son of car one would use to collect the groceries in any American town on any day of the week; add the biggest, raunchiest V8 that it is possible to squeeze under the hood; and there it is. The muscle car concept really is as simple as that.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

The line drawn between insanity and sanity is nothing more than the ability to have an experience witnessed. Truth is, if enough people can validate an experience the less likely it is that it will be labeled impossible or "crazy". Where does that leave a person when dealing with feelings? Often we are not able to confirm the emotions of an individual. Sure we can listen to their accounts of an event, but the process of confirming the intensity of their personal experience would be difficult. After all it is all based upon feelings. If you close your eyes and touch your arm, did that happen? Yes? How do you know since you were the only person to feel the sensation? Did you physically see it happen? Chances are with your eyes closed you did not. Was anyone else there to witness thus validating the experience? If we are to follow traditional means of diagnoses, where your sensation has to be confirmed by the senses of an observer, the act of explaining a feeling without seeing it happen could be the mark of insanity. How do we explain what no one else can feel or see? When we make a choice to explore the unknown, an attempt to answer that which possibly has no explanation, we should be wise about the chosen cave. One may stumble upon the mouth of hell while searching for the gates of heaven.

Harley Davidson

Art of the Harley-Davidson Motorcycle - Deluxe Edition

The Great Book of Harley Davidson chronicles the evolution of the world's most famous motorcycle manufacturer. The history takes us from 1903, when the first Harley emerged from a wooden shed in the backyard of the Davison family, to the 1920s by which time Harleys were available in 67 countries worldwide, to the emergence of the chopper and finally the streamlined "hogs" of today. The text and photographs demonstrate the production process and innovative technology that have made Harley the most famous manufacturer in the world. The second part of the book spotlights the most cutting-edge HD customizers, including Arlen Ness, Cyril Huze, and their disciples, who turn a mechanical wonder into a work of art.

Branding Masculinity examines two ideologies of masculinity – one typifying rural agricultural areas and the other found in

urban, business settings. Comparisons are made between these two current forms of masculinity and both similarities and differences are identified. Six product categories compose the Constellation of Masculinity for both groups. Hirschman selects a masculine prototype brand from each category and presents a detailed analysis of the images, language and marketing actions used to create the brand's masculinity over time. Using her method, marketers for other brands will be equipped to enhance the masculine status of their brands, as well. Branding Masculinity proposes that masculine brands are made, not born. Masculinity is an enduring cultural ideal which can be attached to a variety of products and brands by the appropriate use of symbols, icons and images. Scholars from various disciplines within the fields of branding, marketing, public relations and corporate identity will see this book as vital in continuing the academic discourse in the field. It will serve as a respected reference resource for researchers, academics, students and policy makers, alike.

WALNECK'S CLASSIC CYCLE TRADER, JUNE 2000

Get Fords complete story in Ford Tough: 100 Years of Ford Trucks and see why they've dominated the truck market, selling 1.5 million trucks every year in the US alone. In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry into the dedicated truck business. Sure, after-market pickup beds could be added to a Model T car to convert it to a pickup, but with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later, Ford introduced its first factory-produced pickup, a sturdy half-ton job the public loved. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Ford Tough: 100 Years of Ford Trucks tells the entire Ford truck story from the very beginning, when Ford got its start in truck production. This book provides the history of the wide array of models Ford has built over the past century, including the Model A roadster pick-up, stylish 81C pickups, legendary 1948 F-1, Bronco, Courier, Ranchero, and Econoline.
