Havard's Nursing Guide to Drugs 8e is an essential resource for all nursing students and practitioners. The information

presented in this user-friendly guide can be accessed either by therapeutic class or by system. Each section is introduced by a clear description, followed by the A-Z of drugs within the given therapeutic class. It includes the action, use and dosage of each drug as well as important nursing points and nursing cautions. This comprehensive guide includes both trade and generic drug names for the reader's ease of use. As with previous editions of Havard's Nursing Guide to Drugs each drug is independently reviewed with obsolete drugs being removed and new drugs added. Each existing drug is also independently examined so as to ensure that its use, doses, side effects, contraindication and precautions comply with that of the Therapeutic Goods Association (TGA). slotted lift out card contains calculation formulae and selected abbreviations pocket-sized format for greater portability systematic update of all drugs throughout the book available forms will be added to each drug entry new Appendix for Normal Blood Values will be included with the eighth edition

Lippincott CoursePoint is the only integrated digital curriculum solution for nursing education. CoursePoint provides a completely integrated and adaptive experience, all geared to help students understand, retain, and apply their course knowledge and be prepared for practice. CoursePoint is structured in the way that students study, providing them the content exactly where and when they need it for a more effective learning experience. The powerful integration of adaptive learning, powered by prepU, with the premium digital course content provides a personalized learning experience that drives students to immediate remediation in their course content and allowing instructors and students assess their progress in real-time. The digital textbook is downloadable, so students will have perpetual access to this content. 978-1-4698-7325-1 Karch Lippincott CoursePoint for Focus on Nursing Pharmacology 6e (includes integrated access to the ebook and adaptive learning, powered by prepU) Amy Karch has found that students learn best when concepts are built upon each other, growing from simple to complex, building on a foundation of understanding. Organized by body systems, this heavily illustrated text organizes essential nursing pharmacology information into focused, easy-to-learn steps. Building key concepts upon each other, the text gives students a solid foundation of understanding. Easy to understand drug prototype boxes are integrated throughout the text as well as integrated content summaries. Contains more images depicting drug actions than any of the text's competitors. Includes the popular and proven "Focus on" theme for drug use across the lifespan, cultural and gender considerations, evidence-based practice, patient teaching, herbal and alternative therapies and dosage calculation; including "Focus on Safe Medication Administration;" and a "Drugs in Focus" table for each classification of drugs. Focused content and focused features equal a focused student. Drug discussions include therapeutic actions and indications, pharmacokinetics, contraindications and cautions and adverse effects. Detailed rationales are presented throughout. Each chapter opens with Learning Objectives and a Glossary of Key Terms, and ends with NCLEX-style questions, and contains a case study-based critical thinking exercise that sets up a situation, shows

critical thinking, and then presents a discussion and case-based nursing care guide. Features like this make the text an essential teaching tool! Online Tutoring powered by Smarthinking—Free online tutoring, powered by Smarthinking, gives students access to expert nursing and allied health science educators whose mission, like yours, is to achieve success. Students can access live tutoring support, critiques of written work, and other valuable tools.

Focus on Nursing Pharmacology

Written in the award-winning Incredibly Easy! style, this book provides complete and clear explanations of how drugs act and interact in the treatment of disease. Focusing on mechanisms of drug action, the book details specific drugs by pharmacologic class for all body systems as well as drugs for pain, psychiatric disorders, infection, fluid and electrolyte imbalances, and cancer. Potentially dangerous drug and drug-herb interactions are highlighted. This thoroughly updated edition covers the newest drugs in each pharmacologic class and includes information on obesity drugs, a new chapter on genitourinary system drugs, a new medication safety feature, and a new appendix on common herbal preparations and their drug interactions.

Lippincott's Coursepoint for Karch's Focus on Nursing Pharmacology

This self-paced assessment, review and exam preparation guide follows the organization of Focus on Nursing Pharmacology, Second Edition and features over 130 pages of review questions.

Focus on Nursing Pharmacology 6th Ed. + Photo Atlas of Medication Administration 4th Ed.

Master the Principles of Effective Drug Therapy Current, concise, and optimized for today's nursing practice, Focus on Nursing Pharmacology makes challenging concepts more approachable to establish a foundation for effective drug therapy throughout your nursing career. This updated 8th edition builds on your knowledge of physiology, chemistry and nursing fundamentals to help you conceptualize need-to-know information about each group of drugs, while engaging learning features cultivate your clinical application, critical thinking and patient education capabilities. NEW! Concept Mastery Alerts alert you to commonly misunderstood concepts. NEW! Unfolding case-based vignettes written by the National League for Nursing bring concepts to life through realistic clinical scenarios. Concise, streamlined approach emphasizes need-to-know information for efficient learning. Nursing Processes clarify the process for planning patient-centered care. Critical Thinking Scenarios guide you through the collection and application of data for commonly encountered clinical interactions. Nursing Considerations sections detail the rationale behind each nursing intervention to enhance your clinical decision-making capabilities. Drug Lists at the beginning of each chapter enable fast identification of prototype drugs for each class. Drugs in Focus tables provide at-a-glance reference for generic and trade names, usual dosage and indications for each drug within a class. Focus on Safe Medication Administration boxes help you ensure patient safety and increase the therapeutic effectiveness of drugs. Focus on the Evidence boxes identify the best nursing practices associated with specific drugs based on available evidence. Focus on Herbal and Alternative Therapies alert you to known interactions with specific herbs or alternative therapies that could affect drug actions. Focus on Calculations refine your calculation and measurement skills. Focus on Drug Therapy Across the Lifespan boxes provide quick access to drug class considerations for use with children, adults and the elderly. Focus on Gender Considerations and Focus on Cultural Considerations help you ensure effective, culturally sensitive drug therapy across diverse populations. Check Your Understanding sections equip you for your exams with NCLEX®-style review questions, including alternate-format questions. Watch and Learn videos available on thePoint® help you avoid medication errors in practice.

Study Guide for Focus on Nursing Pharmacology

Lippincott's Photo Atlas of Medication Administration uses the nursing process format to provide step-by-step nursing skills with rationales. In addition to comprehensive photographs to illustrate steps, the Photo Atlas also contains documentation guidelines and samples, and Unexpected Situations, which explain how to respond to unanticipated outcomes. Topics include preparing medications as well as administering medications by various routes.

Focus on Nursing Pharmacology

Designed with the student in mind, and easy to read and use, the new 2nd edition of Lilley will cover all the key pharmacology content needed by Canadian nursing students. Known for its appealing layout, plenty of photos, and numerous helpful boxed features, Lilley helps students manage the extremely detailed subject of pharmacology. This edition focuses on the role of nurses and their practices in culturally diverse Canada, and includes new content on natural health products and ethnocultural considerations. Evidence-Informed Practice Boxes: Provide a bridge between research evidence and its relevance to nursing practice Laboratory Values Related to Drug Therapy: Provide normal ranges and values for specific lab tests, and rationales for lab assessments in relation to specific drug therapy UNIQUE! In My Family Boxes: Written by nursing students of various ethnocultural backgrounds, relaying their cultural health beliefs and practices and drug use Preventing Medication Errors Boxes: Reinforce concepts introduced in the medication errors chapter and relate them to specific common errors that occur in clinical practice. Special Populations: Women: In addition to other special populations, some boxes specifically focus on women's health UNIQUE! Tear out cards from Mosby's Pharmacology Memory NoteCards Increased pathophysiology coverage: Introduces key chapters to provide students with a brief overview before launching into drug information Chapters on Antibiotics and Antineoplastics: Subjects have both been divided into two chapters each, making difficult material easier to digest for students Generic and trade drug names are used throughout - with a new Drug Index at the back of the book Emphasis on nursing roles and practices in Canada More info on natural health products More info on ethnocultural considerations

Student Workbook for Focus on Pharmacology

The eighth edition of Focus on Nursing Pharmacology is based on the premise that students first need to have a solid and clearly focused concept of the principles of drug therapy before they can easily grasp the myriad details associated with individual drugs. Armed with a fundamental knowledge of pharmacology, students appreciate and use the specific details that are readily available in the many annually updated and published nursing drug guides. With this goal in mind, Focus on Nursing Pharmacology provides a concise, user-friendly, uncluttered text for today's student. This difficult subject is presented in a streamlined, understandable, teachable, and learnable manner. Designed to be used in conjunction with a handbook of current drug information, content is streamlined and straight forward. The text reviews and integrates previously learned knowledge of physiology, chemistry, and nursing fundamentals into chapters focused on helping students conceptualize what is important to know about each group of drugs, with the prototype drug highlighted. Illustrations, sidebars, and tables sum up concepts to enhance learning. Special features further focus student learning on clinical application, critical thinking, patient safety, lifespan issues related to drug therapy, evidence-based practice, patient teaching, and case-study-based critical thinking exercises that incorporate nursing process principles. The new edition includes updated anatomy illustrations, expanded drug abuse content, and updated content throughout.
