The Beaulieu Encyclopedia of the Automobile

The Ford Escort MkII was a worthy successor to the original MkI. It became Ford's most successful rally car and the cars are still winning historic events today. It brought new standards to the sport, inspiring many others to copy it. Contains full details of every 'works' Escort MkII that went rallying, plus driver and personality profiles, and detailed car evolution.

The British National Bibliography

The Plane & Pilot International Aircraft Directory

World Cars, 1982

This long out of print classic has now been revised and updated. The most comprehensive account of British cars ever published, this book presents a huge amount of historical and technical information. Nearly 700 manufacturers and 3,700 individual models are profiled, including technical specs for most cars.

Motor Sport

American Heritage

Formula 1, the worlds most popular motor sport, from a totally new perspective ? Hidden in workshops around the world lie forgotten and abandoned machines ? unfulfilled. These purpose built cars have never started a race, never felt the excitement of a grand prix. Yet they define an era of Formula One, changing the landscape. Unraced tell the stories of nine grand prix cars that never started. An exciting and fresh look at F1 from the Author of Autodrome. The Unraced are largely forgotten or overlooked but the stories they have to tell reveal more about the sport than any championship winner, and or the first time these stories are told in a refreshing style, backed up with 150 photos, many never published before. The book covers Honda RC100/RC1.5x (1993-1995), Lola T95/30 (1995), DAMS GD-01 (1995), Honda RC2x (1995-1996), Dome F105 (1996), Lola T97/30 (1997), Honda RA099 (1999), Premier1 prototype (2001), McLaren MP4/18 (2003) and also

includes a listing of all F1 projects (raced & unraced) from 1995 ? 2005. This book is completely incomparable and a must have for any motor sport enthusiast.

The Jeep

The Second World War Jeep was one of the most famous and influential military vehicles of all time, and over 600,000 were produced. It served with all the Allied forces during the war on every front and it has been the inspiration behind the design of light, versatile, rugged military and civilian vehicles ever since. In this, the first volume in Pen & Sword's LandCraft series, Lance Cole traces the design, development and manufacturing history of the Jeep and describes its operational role within the Allied armies. A selection of archive photographs showing the Jeep in service in European and Pacific campaigns gives a graphic impression of how adaptable the Jeep was and records the variety of equipment it could carry. The book is an excellent source for the modeler, providing details of available kits, together with specially commissioned color profiles recording how the Jeeps used by different units and armies appeared. Lance Cole's introduction to the Jeep is necessary reading and reference for enthusiasts and modelers.
