In the pages of this profoundly inspiring book, Fran Hewitt reveals 35 authentic snapshots of life that will entertain, enlighten, and challenge readers to think about their own life experiences. Some of these vignettes are poignant, others are funny, and many are personal, yet in each one readers will witness the daily struggle between Ego and Spirit. The Ego is that controlling voice of your mind that drives you to seek safety, perfection, and the approval of others—it will keep you captive. In contrast, the voice of your Spirit is that reassuring voice that insists, urges, and shows you the way to love. It's the voice of your heart—a call to live life without fear. The Ego and the Spirit is a genuinely life-changing book—not about religion or philosophy—it is about living fully, loving freely, and letting go. It is about how to live—without a doubt—a richer and more meaningful life.

Seeking to fill a gap in our knowledge of the legal history of the nineteenth century, this volume studies the influence of Roman and civil law upon the development of common law jurisdictions in the United States and in Great Britain. M. H. Hoeflich examines the writings of a variety of prominent Anglo-American legal theorists to show how Roman and civil law helped common law thinkers develop their own theories. Intellectual leaders in law in the United States and Great Britain used Roman and civil law in different ways at different times. The views of these lawyers were greatly respected even by nonlawyers, and most of them wrote to influence a wider public. By filling in the gaps in the history of jurisprudence, this

volume also provides greater understanding of the development of Anglo-American culture and society.
