### **Twins in Contemporary Literature and Culture**

Paris Peasant (1926) is one of the central works of Surrealism. Unconventional in form and fiercely modern, Aragon uses the city of Paris as a framework interlacing text with the city's ephemera: cafe menus, maps, monument inscriptions, newspaper cuttings and the lives of its citizens. No one could have been a more astute detector of the unwanted in all its forms; no one else could have been carried away by such intoxicating reveries about a sort of secret life of the city' Andre Breton'

Ecocritics and Ecoskeptics examines environmental themes and questions about the evolving relationship between humans and animals in nine modern and contemporary French novels. Considering arguments from both environmentalists and ecoskeptics, it concludes that, far from distancing itself from humanism as it often has, environmentalism must embrace an inclusive and ecological humanism.

## **The Wind Spirit**

The Earth has limited material and energy resources while these resources in space are virtually unlimited. Further development of humanity will require going beyond our planet and exploring of extraterrestrial resources and sources of unlimited power. Thus far, all missions to asteroids have been motivated by scientific exploration. However, given recent advancements in various space technologies, mining asteroids for resources is becoming ever more feasible. A significant portion of asteroids value is derived from their location; the required resources do not need to be lifted at a great expense from the surface of the Earth. Resources derived from Asteroid not only can be brought back to Earth but could also be used to sustain human exploration of space and permanent settlements in space. This book investigates asteroids' prospective energy and material resources. It is a collection of topics related to asteroid exploration, and utilization. It presents past and future technologies and solutions to old problems that could become reality in our life time. The book therefore is a great source of condensed information for specialists involved in current and impending asteroid-related activities and a good starting point for space researchers, inventors, technologists and potential investors. Written for researchers, engineers, and businessmen interested in asteroids' exploration and exploitation. Keywords: Asteroids, Asteroid exploration, Asteroid exploitation, Energy sources, Space Resources, Material Resources, In-Situ Resource Utilization, Mining

## **Summer in Baden-Baden**

This study of the fictional themes and techniques of Michel Tournier reveals his profound radicalism as a social critic and novelist despite the seeming conventionality of his works. Guided by Tournier's essays and interviews, Petit examines his fiction in light of plot sources, philosophical and anthropological training, and his belief that fiction should change the world. Close study of *Vendredi ou les limbes du Pacifique*, *Le Roi des aulnes*, *Les Meteoires*, *Gaspard, Melchior et Balthazar*, and *La Goutte d'or*, as well as the short fiction in *Le Coq de bruyere* and *Le Medianoche amoureux*, shows Tournier's revolutionary conception of plot structuring as he develops key themes, whether religion, sensuality, or prejudice, in more than twenty years spent reconceiving the nature of fiction.

### **Doom Patrols**

Michel Tournier's *Eleazar, Exodus to the West* is a modern successor to two seemingly disparate myths—the biblical adventure of the Exodus and the nineteenth-century myth of the American frontier. The setting is 1845. Eleazar, a Protestant minister, leaves his native Ireland with his wife and two children to emigrate to America. Like the Old Testament Moses, with whom Eleazar comes to identify through the course of the novel, Eleazar has committed a justifiable murder and is forced to leave his home. After landing in Virginia, the family travels west toward what Eleazar believes is the Promised Land of California. While in the Colorado desert, however, he experiences a profound epiphany. He understands for the first time how the prophet Moses was tragically torn between fire and water: between the burning bush, with its power to bring him into contact with the voice of Yahweh, and the banal demands of the Hebrew people in exile, who depended on

him to touch his stick to the rock and bring forth water. Eleazar, Exodus to the West parallels the lives of the two misfits-the Irish minister in the American West and the Hebrew Moses in exile in the desert after leaving Egypt. Tournier sets before us timeless issues and tantalizing questions from our mythological past: Moses' personality and peculiar relationship with God, fundamental contradictions between the Old and the New Testaments, and our own intimate bond with the eternal symbols of fire and water.

### **National Union Catalog**

In the evening of September 29, 1759, a cargo ship runs aground and is wrecked in a storm. There is only one survivor, a young Englishman travelling to South America to seek his fortune. This is the ultimate desert island story - a tale of one man's struggle to survive on an untamed island.

### **Michel Tournier**

An enchanting, comic love letter to sibling rivalry and the English language. From the author compared to Nora Ephron and Nancy Mitford, not to mention Jane Austen, comes a new novel celebrating the beauty, mischief, and occasional treachery of language. The Grammarians are Laurel and Daphne Wolfe, identical,

inseparable redheaded twins who share an obsession with words. They speak a secret “twin” tongue of their own as toddlers; as adults making their way in 1980s Manhattan, their verbal infatuation continues, but this love, which has always bound them together, begins instead to push them apart. Daphne, copy editor and grammar columnist, devotes herself to preserving the dignity and elegance of Standard English. Laurel, who gives up teaching kindergarten to write poetry, is drawn, instead, to the polymorphous, chameleon nature of the written and spoken word. Their fraying twinship finally shreds completely when the sisters go to war, absurdly but passionately, over custody of their most prized family heirloom: Merriam Webster’s New International Dictionary, Second Edition. Cathleen Schine has written a playful and joyful celebration of the interplay of language and life. A dazzling comedy of sisterly and linguistic manners, a revelation of the delights and stresses of intimacy, *The Grammarians* is the work of one of our great comic novelists at her very best.

### **Ecocritics and Ecoskeptics**

## **The Fetishist**

### **The Fetishist and Other Stories**

Stories of twins are told with astonishing frequency in contemporary culture. Films and novels from recent decades repeatedly tell of the stranglehold of brotherly love, the evil twin who steals her sister's lover, the homicidal mutant twin, the reunion of twins separated at birth, warring twins, and confusion between look-alikes. *Twins in Contemporary Literature and Culture* asks why we keep telling twin tales and how these have been transformed in recent retellings to reflect the preoccupations of the times.

### **The Golden Droplet**

This book presents a history of spiritual exercises from Socrates to early Christianity, an account of their decline in modern philosophy, and a discussion of the different conceptions of philosophy that have accompanied the trajectory and fate of the theory and practice of spiritual exercises. Hadot's book demonstrates the extent to which philosophy has been, and still is, above all else a way of seeing and of being in the world.

### **Asteroids**

Tournier treats pairs both lowly and exalted - moving from fork and spoon, horse and bull, cat and dog, to fear and anguish, poetry and prose, body and soul, being and nothingness. Hardly an exhaustive inventory of traditional pairs, his selection nonetheless opens the door to patterns deeply embedded in culture and civilization, speech and writing, memory and habit.

### **The Golden Droplet**

An international bestseller and winner of the Prix Goncourt, France's most prestigious literary award, *The Ogre* is a masterful tale of innocence, perversion, and obsession. It follows the passage of strange, gentle Abel Tiffauges from submissive schoolboy to "ogre" of the Nazi school at the castle of Kaltenborn, taking us deeper into the dark heart of fascism than any novel since *The Tin Drum*. Until the very last page, when Abel meets his mystic fate in the collapsing ruins of the Third Reich, it shocks us, dazzles us, and above all holds us spellbound.

### **Gilles & Jeanne**

### **The Midnight Love Feast**

This book explores the modern cultural history of the queer martyr in France and Belgium. By analyzing how popular writers in French responded to Catholic doctrine and the tradition of St. Sebastian in art, *Queering the Martyr* shows how religious and secular symbols overlapped to produce not one, but two martyr-types. These are the queer type, typified first by Gustave Flaubert, which is a philosophical foil, and the gay type, popularized by Jean Genet but created by the Belgian Georges Eekhoud, which is a political and pornographic device. Grounded in feminist queer theory and working from a post-psychoanalytical point of view, the argument explores the potential and limits of these two figures, noting especially the persistence of misogyny in religious culture.

### **Eleazar, Exodus to the West**

Minkkinen has been photographing himself in the nude since 1971, an exploration that unfolds here as a timeless study of the human figure amid the forces of nature. The element of water provides the common ground for his surrealistic vision.
