The Last Lullaby

From the soaring spires of Castle Unseelie to the grandeur of the Court of the Nine Sons, Seren Firethorn seems destined to encounter dragons. But even surrounded by the fierce fairies, it's her uncle, the Unseelie King, who truly troubles her. Under the sea, manipulated by politics and plots, Seren strives to discover what Uisdean is really after. But each truth only reveals another layer of lies, creating a knot so tangled only dragon claws could sever it.

The Survivors of the Chancellor

A Darker Element "Long ago, when magic still roamed freely, without restraint or purpose, it delighted in the elements. It flowed through them, saturated them, and then became aware of itself. Faerie was born but within her and the elements was a seed of loneliness. This seed grew and multiplied into the darker emotions. When Faerie decided to create the fey to relieve her loneliness, she separated those darker emotions from the elements so that the fey were born pure." That's the story most fey tell about their creation but our creation, that of the dark fey, goes further. You see, we were those dark emotions which were so carelessly cut away from the other elements. Faerie didn't even realize that the Darkness was an element until we threatened her very existence. Then she saw what we needed; physical form like that which had been given to every other element. So we were finally created. Twenty-one dark-sidhe, each with the power of a dark emotion. My name is Liatrix and my emotion is Shame. It's all I've ever known and even with the freedom of the flesh, I can't seem to live beyond it. I don't expect a lot from this life but I have desires just like everyone else. Happiness, safety, love. Simple things but I know they'll never be mine. How can Shame coexist with happiness? How can a thing of Darkness ever feel safe? And how can I ever have love when the only man I want is our king? A Darker Element will take you into another side of the Godhunter's world. Experience it all fresh from the perspective of a faerie whose life has just begun. Go beyond the Godhunter with this first book in the spin off series and delve deeper into the realm of Faerie.

Rain Or Monkeyshine

Riley doesn't believe in miracles or magic, so when a man approaches her in the

hospital, claiming to be a fairy king who can cure her sister's cancer, she doesn't believe him either. But she has nothing to lose, so she forms an Understanding with the Unseelie King; her sister's life in exchange for her servitude. When her sister is cured, and the King comes to claim her as his new sex slave, Riley is thrust into a sensual world where magic is a part of everything and rapture is only a touch away. But things are not as they appear, and as she navigates the desire-filled and deadly world of the Fey, Riley must also untangle the mystery that is her new master.

An Unseelie Understanding

Harmony can be hard to find. As the spell inside Elaria begins to burn out, taking her with it, she becomes desperate to find the third lover the spell needs to fuel itself. But love isn't the only thing eluding her. Someone is setting monsters loose on Earth, and even her spellsinging seems to be failing her. Can she stop the attacks before the spell stops her heart?

Illusion of Power

Let your dark light shine. After dealing with the Finnish Gods and their magic-stealing machine, Vervain thought that she could rest easy. But her enemies have reached beyond the grave to hurt her. The Godhunter has been poisoned. Tainted by magic. Her trinity star infected by evil. Freed from fate, she finds her power magnified beyond godhood and starts down a path that threatens to separate her from everyone she loves. As evil consumes her, Vervain must find the strength to fight the greatest enemy she has ever faced; herself. As the Crow Flies

Olympus is calling! The thirteenth installment of The Godhunter Series takes us through the Greek pantheon reaching ultimate highs and surprising depths. Ambrosia, the source of immortality for the Greek gods. It's creation is a secret, held only by Zeus himself, and he's held that secret over the heads of his fellow gods for years, giving ambrosia only to those who agree to serve him. Now the Godhunter has gotten wind of his monopoly on immortality and although she

normally fights for humanity, this time she's going to make an exception and fight for the gods. But Zeus isn't the only storm brewing, Vervain is having strange visions, her nine-pointed star is behaving oddly, and something powerful is stirring in the Faerie Realm. Like tracing after thunder, the solution to all her problems seems to be just beyond her reach. Carry on the fight with Vervain and grab your copy of Tracing Thunder! Cover art by India Jones. Find her on Twitter @_IndiaJones

Harvest of the Gods and a Fey Harvest

Her star may be broken but her spirit isn't. When the man she loves and her twin sons are threatened, the Godhunter is determined to protect them at any cost. Her enemies seem obvious to her, but as she chases the Battle Crow, Morrigan, Vervain discovers that the crow doesn't always fly straight. And it's not the only bird who feeds on carrion.

Twist Me & Capture Me

Married life has proven to be complicated for Vervain Lavine. Maybe it's the pressure of being the last dragon-sidhe in existence, the hope of an entire race of faeries. Or maybe it's the fact that her husband lives in the Faerie Realm where he rules the Kingdom of Fire. Or then again, it could be because he married her after abducting her and stealing her memories of her four other lovers. That's a tough one. He did do a lot to make it up to her though, and she's forgiven Arach but that doesn't mean that the Godhunter is ready to hang up her fighting leathers in exchange for becoming a dragon mommy. Before she can decide what to do about the Faerie King, another problem arises in the form of a god who seems to be able to control the Internet. Internet crime takes on a whole new meaning under his influence and it becomes clear that his nefarious deeds must be stopped. But can the Godhunter find a way to destroy the God of the Internet before she's caught in his Tainted Web?

A Compression of Colors

Vervain is preparing for the arrival of her third child, but not in the usual manner. Her daughter, Lesya, has been growing in a god-powered incubator, and the time has finally come to remove Lesya and take her home. But life is never smooth for the Godhunter, and as she dreams of holding her child at last, her enemies dream of destroying her. Vengeance draws near, and war threatens the realms. Will her Pride blind her to the truth, or will they save her from a fall?

A Harmony of Hearts

Pixie-led

In the riveting conclusion of the Twilight Court Series, Seren is faced with a ruthless enemy who seems to have discovered a way to steal magic from fairies. All evidence points to Lana Clach-ex-queen of the Colorado Underground-but the Councils aren't convinced. Can Ambassador Seren prove Lana's guilt before it's too

late? Or is the future already etched in stone?

Harvest of the Gods

The Godhunter is on lockdown, her lovers gathering around her in preparation for some unknown trouble lurking on the horizon. So when one of the Dark Horses is abducted by a Hindu monkey god, Vervain is kept out of the rescue mission. Hiding doesn't work for the Godhunter though and soon she is drawn into a strange world where monkeys fly, snakes rule underground cities, and birds prey on the weak. Her self-control and strength will be tested as she goes up against one of the largest god armies she's ever seen. Is this the danger she's been warned of or is there an even greater battle to be fought within herself?

Raven-Mocking

Vervain Lavine needs a little time to figure things out. Things like how to control the multiple beasts and magics inside her. Or how to lead a Pride of werelions who act more like a bunch of frat boys than grown men. She needs to work out her relationship with Trevor, the werewolf Prince bonded to her, and if his grandfather, Loki, is serious in his repentance or just up to more of his trickery. Demeter's still on the run, after her attempt on Trevor's life, and it'd be great if Vervain could figure out where she's hiding before the goddess tries to kill her too. She'd also like to know why a bunch of vampires keep following her around. What's all that about? Then there's Odin, leader of a faction of gods opposing Vervain in the God War. He needs her help and he's willing to pay for it but can she trust her enemy, a god referred to as the Oathbreaker? He's helped her in the past and she owes him but the way she feels around him is a complication that she just doesn't need and one more thing for her to figure out. Yeah, the Godhunter could really use some time to think things through but it doesn't look like she'll get it.

Pan's Promise

Pregnancy is hard on any woman but for the Godhunter it presents a unique set of problems. Like literally burning indigestion, magically induced mood swings, and overprotective alpha males. Then one wrong decision sets Vervain down a catastrophic path and singed furniture becomes the least of her concerns. With bloodthirsty enemies breathing down her neck and a volatile dragon baby growing within her belly, Vervain must find a way to save the future by venturing into it.

Stolen by the Dragon

The Gods are rising! When Elaria released the God Darcraxis from his prison, a shockwave of magic rippled through the realms and woke other imprisoned gods. Now, she must find those gods and settle them back into stasis before they can rise and threaten all of existence. But the Gods have been enticing Beneathers to help them by promising power and magic, and the Spellsinger's blood happens to be one of the few things that can free the Gods. With so much at stake, loyalties blur, and it becomes difficult to tell friend from foe. As Elaria races from planet to planet, her enemies close in, and the Aria of the Gods threatens to become a song

she will never finish. From the Author: Godhunter: Winner of the SpaSpa Book Award for Best Paranormal Romance 2014 Get your Godhunting in order: 1. Godhunter (Free) 2. Of Gods and Wolves 3. I am Meredith Gentry, princess and heir apparent to the throne in the realm of faerie, onetime private investigator in the mortal world. To be crowned queen, I must first continue the royal bloodline and give birth to an heir of my own. If I fail, my aunt, Queen Andais, will be free to do what she most desires: install her twisted son, Cel, as monarch . . . and kill me. My royal guards surround me, and my best

loved—my Darkness and my Killing Frost—are always beside me, sworn to protect and make love to me. But still the threat grows greater. For despite all my carnal efforts, I remain childless, while the machinations of my sinister, sadistic Queen and her confederates remain tireless. So my bodyguards and I have slipped back into Los Angeles, hoping to outrun the gathering shadows of court intrigue. But even exile isn't enough to escape the grasp of those with dark designs. Now King Taranis, powerful and vainglorious ruler of faerie's Seelie Court, has leveled accusations against my noble guards of a heinous crime—and has gone so far as to ask the mortal authorities to prosecute. If he succeeds, my men face extradition to faerie and the hideous penalties that await them there. But I know that Taranis's charges are baseless, and I sense that his true target is me. He tried to kill me when I was a child. Now I fear his intentions are far more terrifying. From the Hardcover edition.

Demeter, the Harvest Goddess, is on the run. The wolves are on her trail but even with the best tracking abilities in all the realms, they can't seem to locate her. Now the trackers are turning up dead and the Froekn are turning to the Godhunter for help. Aria of the Gods

Some call him a madman. Others call him a warlock. Both are true. But if it wasn't for Aon, I'd be dead. I was mere seconds away from dying by Edu's hands when the King of Shadows appeared in a flash of lightning, saving me from Edu's murderous plans. Now I'm under his protection, living in his home. The more time I'm forced to spend with him, the more I start to piece together the puzzle of why Aon and Edu are at war. Despite how everyone else seems to hate Aon, there's something that pulls me towards him-like gravity, refusing to let go. My heart is telling me to believe what he says is true, yet there's this prickle of warning in the back of my skull cautioning me against falling for the King of Shadows. In the world of Under trusting the wrong person can get you killed. Only the strong survive out here, and that's what I intend to do. Survive.
