The Traveler's Gift

"Welcome to Black Spring, the seemingly picturesque Hudson Valley town haunted by the Black Rock Witch, a seventeenth-century woman whose eyes and mouth are sewn shut. Muzzled, she walks the streets and enters homes at will. She stands next to children's beds for nights on end. Everybody knows that her eyes may never be opened or the consequences will be too terrible to bear. The elders of Black Spring have virtually quarantined the town by using high-tech surveillance to

prevent their curse from spreading. Frustrated by being kept in lockdown, the town's teenagers, decide to break their strict regulations and go viral with the haunting. But, in so doing, they send the town spiraling into dark, medieval practices of the distant past."--Front dust jacket flap.

Fundamentals of Business (black and White)

This is the first book on creating and running a social enterprise to combine theoretical discussions with current cases from around the world, filling a huge gap in the literature. It serves as an eminently practical blueprint for those who wish to build, sustain, and grow social ventures. Building a Successful Social Venture draws on Eric Carlson's and James Koch's pioneering work with the Global Social Benefit Institute, cofounded by Koch at Santa Clara University's Miller Center for Social Entrepreneurship. Since 2003, over 200 Silicon Valley executives have mentored more than 800 aspiring social entrepreneurs at the GSBI. It is this unparalleled real-world foundation that truly sets the book apart. Early versions of the book were used in both undergraduate and MBA classes. Part 1 of the book describes the assumptions that the GSBI model is based on: a bottom-up approach to social change, a focus on base-of-the-pyramid markets, and a specific approach to business planning developed by the GSBI. Part 2 presents the seven elements of the GSBI business planning process, and Part 3 lays out the keys to executing it. The book includes "Social Venture Snapshots" illustrating how different organizations have realized elements of the plan, as well as a wealth of checklists and exercises. Social ventures hold enormous promise to solve some of the world's most intractable problems. This book offers a tested framework for students, social entrepreneurs, and field researchers who wish to learn more about the application of business principles and theories of change for advancing social progress and creating a more just world.

The Headshot

It used to be that the only people that needed professional-looking headshots were actors and models, but now thanks to Facebook, Twitter, LinkedIn, and social media in general, headshots are hot! They've never been more in demand than they are today, and Peter Hurley's unique headshot style and trademark look have made him the most sought-after headshot photographer in the world today. Here's your chance to learn exactly how to create "the look" that everybody's after. This is bankable stuff! If you're not adding headshots to what you offer as a photographer, you're leaving a lot of money on the table. Peter knows first-hand the secrets to not only lighting your headshots like a pro (there's a whole chapter on that alone), but in this book he reveals, in the very same fashion that made him a famous name with photographers everywhere, how he gets authentic expressions and incredibly flattering positioning that will make your clients look better than they ever have in any photo—period! It's all here: he shows you his positioning techniques, his secrets for getting genuine smiles and images that look so natural you won't believe they're posed (but of course, they are), and you'll learn the very same techniques that Peter uses to create amazing headshots for everyone from execs at top Fortune 500 companies, to Silicon Valley startups, to actors and public figures who know all too well how important a great-looking headshot really is. Peter doesn't hold anything back. He reveals all his tricks of the trade, from his trademark lighting look, to how to create good-looking backgrounds on location, to positioning tricks you won't hear anywhere else, and it's all written in Peter's fun, quirky, inspiring style that lets you know, right from the beginning, you can do this, and you can do this big! These are the techniques that Peter has crafted from years in front of the lens, as a model for top brands like Abercrombie & Fitch and Guess, and years behind the lens, giving him an insight few photographers will ever possess, and he's willing to share every bit of it—every trick, every technique, and every nuance—in this book that will pay for itself at your very next shoot. Yes, it's that good.

Crushing It!: How Great Entrepreneurs Build Their Business and Influence-and How You Can, Too

Want to get your MLM and network marketing prospects to beg you for a presentation by using Ice Breakers? You can turn any warm or cold prospect into a hot prospect, wanting to know all about your business. How? By learning how to effectively introduce your business into a social conversation with an easy, rejection-free sequence of just a few words. Prospects want what you have to offer, but they are afraid of someone selling them. However, prospects love to buy and join. So why not use socially acceptable word sequences that compel any prospect to literally beg you for a presentation? This book contains several effective formulas with many examples of each formula that you can use or modify. Once we know how the formulas work, we can create unlimited Ice Breakers on-demand to use and pass on to our downline. Your distributors will no longer be afraid of prospecting; instead, they will love prospecting. It is much more fun when we are in control. Distributors want to work hard, but just don't know what to say. Their opening random remarks ruin their chances and they suffer bad experiences. That experience trains them to avoid prospecting. But with trained words and phrases, everything changes. Quick and positive results. Prospecting is fun again. Enjoy learning how to prospect negative people, positive people, relatives, co-workers, strangers, leads, cold prospects anyone, by using fun Ice Breakers that even the prospects enjoy. Spend the entire week giving presentations, instead of spending the entire week looking for someone to talk to. And never again will you have to hear one of your distributors complain, "I just don't have anyone to talk to." Ice Breakers are the best way to energize your MLM and network marketing business.

Crush It!: Why NOW Is the Time to Cash In on Your Passion

Learn how to take professional-quality photographs using the same tricks today's top photographers use (surprisingly, it's easier than you'd think)!

This is a completely, totally updated version of the #1 best-selling digital photography book of all time! It's the award winning, worldwide smash hit, written by Scott Kelby, that's been translated into dozens of different languages.

Here's how Scott describes this book's brilliant premise: "If you and I were out on a shoot, and you asked me, 'Hey, how do I get this flower to be in focus, with the background out of focus?,' I wouldn't stand there and give you a photography lecture. In real life, I'd just say, 'Put on your zoom lens, set your f-stop to f/2.8, focus on the flower, and fire away.' That's what this book is all about: you and I out shooting where I answer questions, give you advice, and share the secrets I've learned just like I would with a friend—without all the technical explanations and techie photo speak."

This isn't a book of theory—full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use, and when to use it. With over 200 of the most closely guarded photographic "tricks of the trade," this book gets you shooting dramatically better-looking, sharper, more colorful, more professional-looking photos every time.

Each page covers a single concept that makes your photography better. Every time you turn the page, you'll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you're tired of taking shots that look "okay," and if you're tired of looking in photography magazines and thinking, "Why don't my shots look like that?" then this is the book for you.

The Digital Photography Book

A self-made millionaire shows you how to make millions while living life on your own terms At just eighteen years old, Matt Morris founded his first marketing business. At twenty, he dropped out of college to pursue business full-time. At twenty-one, he was homeless and deeply in debt, living out of his car. It was then that he made a life-changing decision to re-invent himself and his career. By twenty-nine, Matt was a self-made millionaire. How did he do it? In *The Unemployed Millionaire*, Morris reveals how he turned his life around and shatters the myth that it takes money to make money. Thanks to the Internet explosion and the ease of global trade, it is possible for anyone to start a business and market their products worldwide to millions of customers. Here, Morris unlocks the secrets and provides you with the specific moneymaking formula he used to turn his ideas into a fortune. Equips you with a step-by-step formula for turning your great idea into a million-dollar business in as little as twelve months Proves you don't have to be smart, lucky, or rich to make millions Gives you the specific success principles all millionaires follow Author Matt Morris is an internationally recognized speaker who selectively mentors other entrepreneurs, traveling the world, working very little, and earning millions in the process With a foreword by Les Brown, motivational speaker, bestselling author, and television personality If you're serious about earning millions without working your fingers to the bone, *The Unemployed Millionaire* gives you the powerful strategies needed to turn your dreams into a reality.

Go-Givers Sell More

What if there was a secret road or a less traveled pathway to your dreams? One that was 100 times shorter and one that required little-to-no struggle? What if this path became ridiculously obvious once someone pointed it out? Sometimes by simply shifting your viewpoint, invisible things will become visible and new opportunities to rapidly reach your dreams will appear. Have you ever noticed that breakthroughs in business are occurring at light speed all around us as a result of entrepreneurs that have chosen to see the world through a different set of lenses? In *Better Than Beach Money*, Jordan Adler shares real life stories that will help you to view your life from a different angle. From this new point of view, you will discover roads and pathways, and see opportunities that can cause your dreams to materialize almost instantaneously. You will realize that you don't have to wait. You can begin to stray from that long, tedious path to achieving your goals and embrace a new way that can take you there much quicker. Most personal development trainers and efficiency experts propose writing down your dreams and taking daily action towards them. Sounds logical; this is a linear and very human process. But our brains don't exactly work in this way when it comes to

attaining our dreams. Our dreams rarely come to us in a linear fashion. Our dreams happen quickly once we meet the right people, shift our perspective and open our minds to the quantum growth opportunities that are all around us. Better than Beach Money can take you there.

Patterns

With their national bestseller *The Go-Giver*, Bob Burg and John David Mann took the business world by storm, showing that giving is the most fulfilling and effective path to success. That simple, profound story has inspired hundreds of thousands of readers around the world-but some have wondered how its lessons stand up to the tough challenges of everyday real-world business. Now Burg and Mann answer that question in *Go-Givers Sell More*, a practical guide that makes giving the cornerstone of a powerful and effective approach to selling. Most of us think of sales as convincing potential customers to do something they don't really want to. This mentality sets up an adversarial relationship and makes the sales process much harder than it has to be. As Burg and Mann demonstrate, it's far more productive (and satisfying) when salespeople think like Go-Givers. Cultivate a trusting relationship and focus exclusively on creating value for the other person, say the authors, and great results will follow automatically. Drawing on a wide range of examples of real-life salespeople who have prospered by giving more, Burg and Mann offer tips and strategies that anyone in sales can start applying right away.

Contrary to popular belief, borderline personality disorder is NOT a life sentence! If you live with borderline personality disorder (BPD), you already know how painful it can be. But take heart - recovery is possible! *The Big Book on Borderline Personality Disorder* offers advice from someone who's been there and speaks from inside BPD, with empathy, care and insight. Author Shehrina Rooney shrugs off the stigma, busts myths, and translates the diagnostic criteria into everyday language. She explains the brain science of emotion dysregulation and shares her favorite strategies and skills for weathering the storm. *The Big Book on Borderline Personality Disorder* includes special chapters for family and loved ones, men with BPD, and anyone newly diagnosed. The author gives readers strategies for coping with BPD in the workplace and as a parent. In short, this book covers everything you (or your parents or therapist) could possibly want to know about BPD. This

book gives you the information and tools to reclaim your life. With warmth and humor, Shehrina Rooney shows you how you can find contentment, stability, and the freedom to enjoy each day as it comes.

To advance education about ICT standardization, comprehensive and up-to-date teaching materials must be available. With the support of the European Commission, ETSI has developed this textbook to facilitate education on ICT standardization, and to raise the knowledge level of ICT standardization-related topics among lecturers and students in higher education, in particular in the fields of engineering, business administration and law. Readers of this book are not required to have any previous knowledge about standardization. They are introduced firstly to the key concepts of standards and standardization, different elements of the ecosystem and how they interact, as well as the procedures

required for the production of standardization documents. Then, readers are taken to the next level by addressing aspects related to standardization such as innovation, strategy, business, and economics. This textbook is an attempt to make ICT standardization accessible and understandable to students. It covers the essentials that are required to get a good overview of the field. The book is organized in chapters that are self-contained, although it would be advantageous to read the book from cover to cover. Each chapter begins with a list of learning objectives and key messages. The text is enriched with examples and case studies from real standardization practice to illustrate the key theoretical concepts. Each chapter also includes a quiz to be used as a self-assessment learning activity. Furthermore, each book chapter includes a glossary and lists of abbreviations and references. Alongside the textbook, we have produced a set of slides that are intended to serve as complementary teaching materials in face-to-face teaching sessions. For all interested parties there is also an electronic version of the textbook as well as the accompanying slides that can be downloaded for free from the ETSI website (www.etsi.org/standardization-education).

Life After Google

"Daphne Kalmar has created a wonderfully imperfect cast of characters and gathered them into a story that will break your heart. . . and heal it again. Stealing Mt. Rushmore has it all." —Marion Dane Bauer, author of the Newberry Honor novel *On My Honor In Stealing Mt. Rushmore*, Daphne Kalmar brings to life the social and political upheaval of the 1970s, revealing the heart of a family on the verge of falling apart and the courage of a young girl who does all she can to bring them together. She almost always made things worse. But at least she'd be standing there. I hated her for stealing the money. But I want her back. Nellie's dad had planned on having four boys to name after the presidents on Mt. Rushmore. He got George, Nellie, Tom, and Teddy. No Abe. It's the summer of 1974. Nellie's turned thirteen. Her best friend, Maya, has a crush on a boy. President Nixon might get impeached. And her mom's run off. The money for their family road trip to see Mt. Rushmore is missing and her dad's crawled into bed and won't get up. Nellie's sure the trip out West will fix her family, and she'll do almost anything to come up with the cash. But she begins to wonder why it's always her, the girl, who's stuck with the dishes and everything else. And how can a mom just up and leave with no note, no forwarding address, no nothing?

A FINANCIAL TIMES BOOK OF THE MONTH FROM THE WALL STREET JOURNAL: "Nothing Mr. Gilder says or writes is ever delivered at anything less than the fullest philosophical decibel Mr. Gilder sounds less like a tech guru than a poet, and his words tumble out in a romantic cascade." "Google's algorithms assume the world's future is nothing more than the next moment in a random process. George Gilder shows how deep this assumption goes, what motivates people to make it, and why it's wrong: the future depends on human action." — Peter Thiel, founder of PayPal and Palantir Technologies and author of Zero to One: Notes on Startups, or How to Build the Future The Age of Google, built on big data and machine intelligence, has been an awesome era. But it's coming to an end. In Life after Google, George Gilder—the peerless visionary of technology and culture—explains why Silicon Valley is suffering a nervous breakdown and what to expect as the post-Google age dawns. Google's astonishing ability to "search and sort" attracts the entire world to its search engine and countless other goodies—videos, maps, email, calendars....And everything it offers is free, or so it seems. Instead of paying directly, users submit to advertising. The system of "aggregate and advertise" works—for a while—if you control an empire of data centers, but a market without prices strangles entrepreneurship and turns the Internet into a wasteland of ads. The crisis is not just economic. Even as advances in artificial intelligence induce delusions of omnipotence and transcendence, Silicon Valley has pretty much given up on security. The Internet firewalls supposedly protecting all those passwords and personal information have proved hopelessly permeable. The crisis cannot be solved within the current computer and network architecture. The future lies with the "cryptocosm"—the new architecture of the blockchain and its derivatives. Enabling cryptocurrencies such as bitcoin and ether, NEO and Hashgraph, it will provide the Internet a secure global payments system, ending the aggregate-and-advertise Age of Google. Silicon Valley, long dominated by a few giants, faces a "great unbundling," which will disperse computer power and commerce and transform the economy and the Internet. Life after Google is almost here. For fans of "Wealth and Poverty," "Knowledge and Power," and "The Scandal of Money."

Mind reading = fun! When we know how prospects think, selling and sponsoring are easy. Read deep inside our prospects' minds with this easy skill. Our prospects have a different point-of-view. So how do we talk to prospects in a way they "get it" and enjoy our message? By quickly identifying our prospect's color personality. Discover the precise magic words to say to each of the four personalities. This isn't a boring research textbook on the four different personalities. This book shows a fun, easy way to talk to our prospects based on how they see and feel about the world. The results are stunning. Shy distributors become confident when they understand how their prospects think. Experienced distributors have short conversations that get prospects to join immediately. Why be frustrated with prospects? Instead, quickly discover the four personalities in a fun way that we will always remember. We will enjoy observing and analyzing our friends, co-workers and relatives, and we will see the way they see the world. It feels like we have 3D glasses in our network marketing career. Of the 25 skills, this is the first skill that new distributors should learn. Why? 1. It gives new distributors instant confidence. 2. It eliminates rejection. 3. It helps prospects listen with open minds. 4. It gets instant results. What could be better than that? We won't have to look for great prospects when we know the four color personalities. We will have the ability to turn ordinary people into hot prospects by recognizing their color personalities and by saying the right words. By using humorous, slightly exaggerated examples of the four personality traits, we will remember this skill and can use it immediately. Life is more fun when we are the only one with the 3D glasses. This is the one skill that we will use every day for the rest of our lives! Get ready to smile and achieve immediate rapport and quick results. Order your copy now!
