Appendix to the Journal of the House of the Representatives

The Spectator

Alphonse Daudet (1840-1897) was a French novelist. He was the father of Léon Daudet and Lucien Daudet. Alphonse took to writing, and his poems were collected into a small volume, *Les Amoureuses* (1858). He obtained employment on *Le Figaro*, then under Cartier de Villemessant's energetic editorship, wrote two or three plays, and began to be recognized, among those interested in literature, as possessing distinction and promise. In 1866, Daudet's *Lettres de Mon Moulin*, written in Clamart, near Paris, and alluding to a windmill in Fontvieille, Provence, won the attention of many readers. The first of his longer books, *Le Petit Chose* (1868), did not, however, produce popular sensation. It is, in the main, the story of his own earlier years told with much grace and pathos.

Addicted to Danger

This thoroughly revised edition of Mooney, Knox, and Schacht's text uses a theoretically balanced, student-centered approach to provide a comprehensive exploration of social problems. UNDERSTANDING SOCIAL PROBLEMS, Tenth Edition, progresses from a micro to macro level of analysis, focusing first on problems related to health care, drugs and alcohols, families, and crime, and then broadening to the larger issues of poverty and inequality, population growth, aging, environmental problems, and conflict around the world. The social problem in each chapter is framed in a global as well as a U.S. context. In addition, the three major theoretical perspectives are applied to the problem under discussion, and its consequences -- as well as alternative solutions -- are explored. Pedagogical features such as The Human Side and Self and Society enable students to grasp how social problems affect the lives of individuals and apply their understanding of social problems to their own lives. Despite the efforts of both the U.S. Department of Defense and the Veterans Health Administration to enhance mental health services, many service members are not regularly seeking needed care when they have mental health problems. Without appropriate treatment, these mental health problems can have wide-ranging and negative impacts on the quality of life and the social, emotional, and

cognitive functioning of affected service members. The services have been actively engaged in developing policies, programs, and campaigns designed to reduce stigma and increase service members' help-seeking behavior. However, there has been no comprehensive assessment of these efforts' effectiveness and the extent to which they align with service members' needs or evidence-based practices. The goal of this research was to assess DoD's approach to stigma reduction, how well it is working and how it might be improved. To address these questions, RAND researchers used five complementary methods: (1) literature review, (2) a microsimulation modeling of costs, (3) interviews with program staff, (4) prospective policy analysis, and (5) an expert panel. The priorities outlined in this report identify ways in which program and policy development and research and evaluation can improve understanding of how best to efficiently and effectively provide needed treatment to service members with mental illness.

In the future, powerful unions called lobbies control much of society. One of the most powerful lobbies is the medical lobby, which following a pandemic that spread across earth, has required all medicine from being practiced only by authorized lobby members and only in approved lobby facilities. Daniel Feldman was once a doctor but has now become a pariah due to his breach of these rules. Trying to escape the shame he travels to Mars, where he discovers a disaster threatening billions of lives.

After centuries alone, can a vampire king trust the woman who's woken his heart? Jordan MacDougal, laird and vampire King, walks a thin line of civility between protecting his clan, and handling the conflict from the local shifter pack. When some of his people disappear, and the wolves accuse his newest, intriguing vampire of being evil, Jordan discovers that the traitor in his midst may be closer than he dared believe. A newly turned vampire, Dalia Jensen wakes to an unusual and frightening new world, with no memory of the past year of her life. Accused of working with the Master Vampire who held her prisoner, her inability to remember the truth leaves her reeling under allegations of vicious past actions. Uncertain of her culpability, she's unable to trust her own instincts as the reigning Vampire King turns her world upside down. When the wolves call for her trial, demanding her life for those killed and tortured, Jordan and Dalia must work together to find the truth, and save the love blooming between them. The Education Outlook

Among countries in the industrialized world, Canada is the only one without a national department of education, national standards for education, and national regulations for elementary or secondary schooling. For many observers, the system seems impractical and almost incoherent. But despite a total lack of federal oversight, the educational policies of all ten provinces are very similar today. Without intervention from Ottawa, the provinces have fashioned what amounts to a de facto pan-Canadian system. Learning to School explains how and why the provinces have achieved this unexpected result. Beginning with the earliest provincial education policies and taking readers right up to contemporary policy debates, the book chronicles how, through learning and cooperation, the provinces gradually established a country-wide system of public schooling. A rich and ambitious work of scholarship, it will appeal to readers seeking fresh insights on

Canadian federalism, education policy, and policy diffusion.

Perspectives

It has long been my belief that the greatness of America has arisen in large part out of the diversity of her peoples. Before the war, peoples of Japanese ancestry were a small but valuable element in our population. Their record of law-abiding, industrious citizenship was surpassed by no other group. Their contributions to the arts, agriculture and science were indisputable evidence that the majority of them believed in America and were growing with America. Then war came with the

nation of their parental origin. The ensuing two and a half years have brought heartache: to many in our population. Among the casualties of war has been America's Japanese minority. It is my hope that the wounds which it has received in the great uprooting will heal. It is my prayer that other Americana will fully realize that to condone the whittling away of the rights of any one minority group is to pave the way for us all to lose the guarantees of the Constitution. As the President has said "Americanism is a matter of the mind and heart: Americanism is not, and never was, a matter of race or ancestry." This truth is eloquently illustrated by the photographs on the following pages. Harold L. Ickes Secretary of the Interior July, 1944

They say that hell hath no fury like a woman scorned-but "they" haven't read this book yet. Paradise High is a sharp, witty, and somewhat flippant romantic comedy where the fury is a lot worse, because it comes not from a ticked-off girl, but from a ticked-off God. God doesn't like what's been going on in the world: Hatred. Violence. War. Reality TV. It's just too much, so he's decided to put an end to it once and for all, and he dispatches teen angel Michael Night to bring Armageddon to earth. But Michael finds himself at odds with God's plan. When he's captivated by a young babe-o-rama named Shelly Bloom, he can't imagine killing her or anyone else in the world. So Mike asks God for a little time. He wants the chance to

pursue Shelly and prove that humankind ain't so bad after all-and, if he can win Shelly's heart, that love just might save the earth from God's fury. But, then again, it may not. God moves in mysterious ways and so do sixteen-year-old girls. Paradise High is clever, clean fiction that's sure to entertain teen and young adult readers and youthful spirits of all ages.
