Charity wants to obey her father, the king, but when she sees people pass by an injured young boy without stopping to help, she must make a decision ... should she obey her father or go to help the boy in need? Princess Charity's Golden Heart: Is a Level One I Can Read Teaches the Parable of the Good Samaritan (Luke 10: 30-37) Features lovely, full-color art

Princess Charity's Golden Heart

Austin Carr is a homeless stockbroker. Sort of. He's a salesman. Living on 100% commission during a recession and with child support payments can lead to getting kicked out of your apartment, having your car repossessed and living in a camper. Not even a real camper. A beat up old pickup with one of those camper toppers on it. Which he parks in the lot at Luis's Mexican Restaurant where he also takes advantage of the shower in the employee dressing room. His biggest client has health issues, the client's wife is coming on to him, another client is super pissed about an investment and wants to get revenge, and his supervisor is ready to take him down by any means necessary. Determined to make enough money to meet the child support payments and get to see his kids again, Austin gets mixed up with a redhead which leads to illegal bond and money transfers and in the course of less than two weeks is run down by a car, beat up, his manager tries to shoot him, is buried in sand at the water's edge with the tide coming in, then he's kidnapped and finally becomes the victim of attempted murder by Bluefin (yes, the fish). And when he sneaks in to watch his daughter's swim meets, Austin wears nothing but a speedo.

Intermediate Algebra, MyMathLab Edition

This comprehensive, practical guide explores how contemporary furniture is used within interior design to define a space, create division and enclosure, and alter or redefine circulation. Initial chapters illustrate the different contexts in which furniture is used, from the office and domestic interiors to retail and exhibition space; look at types of furniture, whether off-the-shelf or bespoke; and explore the new vogue for recycling and vintage. Later chapters examine both traditional materials such as wood and the more unusual such as stone and glass, while also explaining new methods of manufacture - such as Computer Numerical Controlled and Selected Laser Sintering. The final chapter looks at how a design is developed,

the site surveyed, prototypes made and specifications and schedules drawn up. Furniture for Interior Design is a detailed, highly illustrated guide to specifying and placing existing manufactured furniture, but also shows the reader how to design, detail, and commission batch-produced furniture or one-off, site-specific pieces.

"I'd been a grown-up since age twelve, when my father strangled my mother and took my family, my home, my cat, and any chance at ever having a normal life away from me." The teenage daughter of a killer. "Kevin thinks he's a millionaire. This jar of pennies weighs a ton, so Kevin thinks he must be rich, but there's no connection between weight and value. Kevin's father is proof of that." What happens when Santa threatens to put Kevin on the naughty list? A divorced dentist. A former prostitute. A retired cop. An escaped convict. The daughters of a drunk. These are just some of the characters who bare their souls in this issue of Spinetinger Magazine. How does unimaginable loss redefine a teenager's life? What does it take for a mother who's barely coping with life to learn to appreciate her son? What could cause fifty-year-old secrets to surface? What truths will surface when our diverse cast of characters faces their defining moments? Join us on journeys fascinating and unforgettable.

Centering the Margin

While perturbative QCD methods fully describe experimental results at high energies, and chiral perturbation theory is the low energy effective theory of the strong interactions, a form of duality is observed connecting these two regimes. In these intermediate kinematics, a wide variety of reactions are observed which can be described simultaneously by single particle (quark) scattering, and by exclusive resonance (hadron) scattering. The contributions in this proceedings volume discuss recent and existing results, and aim to foster current and future research, investigating the phenomenon of quark-hadron duality. This unique volume contains research work by scientists from different arenas of hadronic physics, dealing with different manifestations of quark-hadron duality.

In light of the tremendous changes that have come to the island of Borneo in recent decades, this volume takes a detailed historical look at the Borneo environment from native, colonial and national perspectives. It examines change and continuity in the economic, political and social dimensions of human-environment interactions. Reflecting the increasingly multidisciplinary nature of environmental history, the book brings together an international group of historians, anthropologists, geographers and social foresters, all looking through a historical lens at the environment in the Malaysian states of Sabah and Sarawak, and the Indonesian province of Kalimantan and Brunei. Drawing on extensive archival research and fieldwork, these ten original contributions encompass eleven centuries of history on Borneo, examining interrelated topics that include long-distance trade, conservation, land tenure, resource access, property rights, perceptions of the environment, migration, and development policy and practice. The chapters in this volume are extensively revised versions of selected papers presented at an international seminar on "Environmental change in native and colonial histories of Borneo: Lessons from the past, prospects for the future" held in Leiden under the auspices of the International Institute for Asian Studies.

John Fitzgerald Kennedy

A letter brings him back to his Amish family. It will take someone truly extraordinary to make him stay. Roman is on the verge of leaving the Amish ways. Feeling confined by the strict rules, he longs to do something more with his life. But when things don't go as planned, Roman's prospects outside of the community dwindle. Upon learning that his beloved grandmother has died and left a letter urging him to reconcile with his brother in Birch Creek, Roman decides to return home. But he doesn't plan to stay for long. Leanna Chupp has always made her own way in her small community of Birch Creek. Though some may call her unconventional—strange, even—Leanna is happy. Her unique outlook on life has meant she's never had many suitors pursuing courtship, which Leanna doesn't mind. She is content being single. But when Roman and Leanna find themselves working together again, everything changes. Though neither fit squarely within the strictures of the Amish faith, their differences could be the very thing to help them form a deeper connection to their community and to each other. The question remains: will this strengthening bond be enough to make Roman stay for good?

Planet Earth & Art Activities

Wall Street's miasmal garbage washes up on the Jersey Shore when a small time broker falls in love: Is he attracted to the beautiful lady — or her brother's inside information? Held spellbound by a steamy, auburn-haired woman with a dubious past and a get-rich-quick, insider trading scheme, Austin Carr knocks down a beehive of bad-acting Bonacellis, including the ill-tempered "Mr. Vic" Bonacelli, who wants his redhead back, and local mob lieutenant Angelina "Mama Bones" Bonacelli, architect of a strange and excruciating death trap for the fast-talking stockbroker she calls smarty pants. To survive, Austin must unravel threads of jealousy, revenge and new affections, discover the fate of a pseudo ruby called the Big Mojo and slam the lid on a pending United States of America vs. Austin Carr insider trading case. Can Austin and his Jersey Shore mouthpiece possibly out maneuver the savvy U.S. District Attorney from Manhattan? Will anything matter for Austin ever again if Mama Bones flips that switch? Praise for BIG MOJO ... "Darkly comic and always entertaining — with an outrageous cast of characters including a scheming grandmother and a mysterious redhead. Our engaging hero, fueled by honor and passion, does the best he can in a world where the bad guys seem determined to do him in. Gordon Gekko meets Janet Evanovich in this wry and winning caper — Jack Getze does it again!" — Hank Phillippi Ryan, Agatha, Anthony and Mary Higgins Clark Award winning author of Truth Be Told "If Jack Getze's Austin Carr novels aren't on your must-read list, you don't know what you're missing. Austin Carr's that buddy your wife doesn't like you to hang out with. Fast-talking, wisecracking, and hard-living, he's the type of guy who swears he's only ever looking for a good time, and yet every night out with him seems to end in a fight. But you can't deny he's got heart — and BIG MOJO is Carr's most epic adventure yet. It's got frame-ups. Insider trading. Stolen jewels. Double-crosses. Triple-crosses. Love potions. Gunplay. And enough outsized characters it could only take place in the great state of New Jersey. So pick it up. Give it a read. But maybe tell the missus you're hanging out with someone else." — Chris F. Holm, author of the Collector Series "There's no way you can lose with an Austin Carr novel with a gorgeous redhead, a character with the moniker of "Mama Bones", a double-crossing business partner, more bad guys than can be seen in one place outside of the White House, and Austin's smart mouth that surely he learned by reading lots of Robert B. Parker's character Spenser ... A truly rollicking, fun, action-filled read with more twists than a fevered revival of Hula Hoop fanatics at a Jersey Shore ballroom ... And then, there's that redhead. Always that redhead ... " — Les Edgerton, author of The Genuine, Imitation, Plastic Kidnapping and others "The irrepressible Austin Carr is back, and he's sly and sardonic as ever. Jack Getze's BIG MOJO is a rollercoaster ride you don't want to miss!" — Hilary Davidson, Anthony Award Winning Author of Blood Always Tells

In a completely new approach to borders and border crossing, this volume suggests a re-conceptualization of the nation in Southeast Asia. Choosing an actor approach, the individual chapters in this volume capture the narratives of minorities, migrants and refugees who inhabit and cross borders as part of their everyday life. They show that people are not only constrained by borders; the crossing of borders also opens up new options of agency. Making active use of these, border-crossing actors construct their own live projects on the border in multiple ways against the original intention of the nation-state. Based on their intimate knowledge of the interaction of communities, anthropologists from Europe, the USA, Japan and Southeast Asia provide a vivid picture of the effects of state policies at the borders on these communities.

When a top-secret weapon goes missing on Colonel Maggie Black's watch, her honor and her career are on the line. There were airmen who said the Air Force's best female combat pilot would never be the same after losing her arm in Iraq, but state-of-the-art prosthetics have made Maggie better than new, and she's not about to lose what she battled so hard to regain. But finding her experimental missile won't be easy—thanks to the revenge-fueled ambitions of Asdrubal Torres,

whose hallucinatory encounter with the Great Spirit challenges him to refill Lake Cahuilla, the ancient inland sea that once covered much of Southern California. To fulfill his blessed mission, Torres needs wizardry and weaponry, and the Great Spirit provides both: Magic, in the form of a celebrated shaman's basket returned to the tribal museum by San Diego reporter Jordan Scott; Might, in the form of Maggie Black's top-secret weapon that falls from the sky. From that moment, it's a race against time for Maggie and Jordan, who together must stop Torres from destroying Hoover Dam—and turning the Colorado River into a tsunami that would kill hundreds of thousands and wipe out the Southwest's water supply. In the final showdown, it's Maggie who must disarm the stolen missile's trigger—one-handed or not—and save the day.

Emerging Therapeutic Ultrasound

Organizational culture is a quiet, but driving, influence on our perception of a company, whether as a consumer or as an employee. For instance, we know Southwest Airlines as laid back and friendly. We think of Google as innovative. To almost every well-known company we can assign a character. It is now well recognized that corporate culture has a significant impact on organizational health and performance. Yet, the concept of corporate culture and culture management is too often tantalizingly elusive. In this book, Flamholtz and Randle define culture, identifying and explaining the five key dimensions that determine it: a customer orientation; a people orientation; a process orientation; strong standards of performance and accountability; innovation and openness to change. They explain why culture is a critical factor in organizational success and failure—a key determinant of financial performance. Then, they provide a theoretically sound, highly practical, and field-tested method for managing corporate culture—presenting a set of international and domestic cases that show how actual companies have leveraged culture as the ultimate source of sustainable competitive advantage. In addition to well-known companies such as Starbucks, Ritz-Carlton, American Express, IBM, and Toyota, the text presents lesser known culture stars, such as Smartmatic and Infogix. While other titles on culture have focused too heavily on the organization as a psychological being, or on academic studies of culture as a business lever, Corporate Culture draws on empirics to present a go-to, must-read guide for leveraging corporate culture as a source of competitive advantage and as a means of impacting the bottom line.
