Fire and Emergency Services Instructor Eighth Edition helps students meet the job performance requirements of NFPA(R) 1041, Standard for Fire Service Instructor Professional Qualifications (2012) for Instructor levels I, II, and III. The manual also provides a reference for instructors who may perform duties outside of their current certification levels. This new edition has been reorganized to provide clearer separations between the three instructor levels: Ch. 1-9 cover Level I; Ch. 10-14, Level II; and Ch. 15-17 Level III. The text has been shortened from 22 chapters to 17. As a result, the text is more concise and easier to teach. The text reflects new changes in the NFPA(R) standard, including a discussion of bias in instructional and testing materials.

Fire Officer

Based on the 2009 Edition of NFPA 1021, STANDARD FOR FIRE OFFICER PROFESSIONAL QUALIFICATIONS, the third edition of Company Officer provides vital information for those who seek certification as Fire Officer I or II. Learning

objectives in this new edition were validated by a committee of experts from the field to ensure that the content meets the intent of the Standard and highlights contents for each of these two officer levels. Content was thoroughly reviewed and updated to reflect new technology, practices, and terminology to remain current in the field as well as to focus on issues critical to the fire officer today budgeting, labor management, legal implications of actions, and more. In the tradition of previous editions, *Company Officer, Third Edition* continues to provide valuable insight and advice for aspiring and current fire officers alike. Fire Investigator: Principles and Practice to NFPA 921 and 1033

Modern firefighting is a continually evolving science with new technologies constantly being applied to the fire service. In the latest edition of this perennial favorite, Norman examines these new technologies and how they affect fire ground tactics. He also details the new role firefighters play in homeland security.

Foundations of Psychological Testing

Structural Firefighting

This new IFSTA manual details the training required of Company Officers according to NFPA® 1021, Standard for Fire Officer Professional Qualifications, 2014 Edition. The manual is divided into two sections to make a clear distinction between the information needed for Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available. There is no shortage of issues that a company officer might face in the everyday operation of a fire company or unit. This manual addresses the wide range of topics and issues encountered by a company officer, from leadership and supervision to health and safety issues. Great attention was given to focus on the job performance requirements of NFPA® 1021. The fifth edition of Fire and Emergency Services Company Officer builds on the previous edition of the manual while presenting the material in a more concise manner to make it easier for students to read and instructors to teach. By merging related topics, the number of chapters was reduced from 32 in the fourth edition to 17 in the new manual while preserving the material related to the NFPA® standard. The number of appendices was reduced from 20 to 4 by removing information that can be found in other media. Along with reducing the volume of material from the fourth edition, the fifth edition of Fire and Emergency Services Company Officer offers several new features. The manual features a new look with IFSTA's single-column format and upgraded and updated curriculum components. Learning activities are included to help instructors present the material to their students.

Fire Investigator: Principles and Practice updates the resource previously known as User's Manual for NFPA 921, 2004 Edition. Through a clear, concise presentation, Fire Investigator assists fire investigators in conducting complex fire investigations. Written by talented professional fire investigators from the International Association of Arson Investigators (IAAI), this text covers the entire span of the 2008 Edition of NFPA 921, Guide for Fire and Explosion Investigations and addresses all of the job performance requirements in the 2009 Edition of NFPA 1033, Standard for Professional Qualifications for Fire Investigator. This text is the benchmark for conducting safe and systematic investigations. Key features include: new chapter on Marine Fire Investigations; coverage of the 2009 Edition of NFPA 1033; supported by a complete teaching and learning system. photographs and drawings that illustrate these new fire science concepts. Read and see the new science so that you can apply it to structure fires. Strategies and tactics from national experts are presented and applied to hypothetical structure fire scenarios throughout the book. The target audience is all career and volunteer personnel who respond to single and multifamily dwellings incidents, commercial occupancies, and unique target or special hazards events. The manual meets the requirements of the FESHE course outcomes for the Associates level course, "Strategies and Tactics." This manual also broadens the knowledge of the strategy and tactics JPR's in NFPA® 1021, Standard for Fire Officer Professional Qualifications. The manual is the best choice for use in training agencies, college degree programs, and as a resource for firefighters and fire officers who serve as, or are training to be, incident commanders. Additional standards referenced in the manual include NFPA 920, 921, 400. Each of the last three (3) chapters include five (5) training scenarios that reflect real incidents that an incident commander will find when responding to a residential structure, a commercial structure fire and a structure fire with special hazards."

Fire Apparatus Driver/Operator

This second edition of Fire Service Pump Operator has been thoroughly updated to serve as a complete training solution that addresses pump operation, safe driving techniques, tiller and aerial apparatus operation, and water supply considerations.

From basic apparatus maintenance to fire pump theory and advanced hydraulic calculations, this single manual covers everything a fire service driver/operator needs to know. Fire Service Pump Operator: Pump, Aerial, Tiller, and Mobile Water Supply, Second Edition meets and exceeds the job performance requirements of Chapters 4, 5, and 10 of NFPA 1002, Fire Apparatus Driver/Operator Professional Qualifications, 2014 Edition. It also addresses all of the course outcomes from the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) Associates (Core) Fire Protection Hydraulics and Water Supply course.

Hazardous Materials Technician

"Apply the 2014 NFPA 1021 Standard to ensure fire officers are ready to take command! New technologies, operating procedures, information management strategies, and many other factors impact today's fire service leaders. Fire officers must be prepared to address multiple challenges on the fireground, at the station, and in the community. Make sure personnel are ready to take command with up-to-date Job Performance Requirements (JPRs) in the 2014 NFPA 1021: Standard for Fire Officer Professional Qualifications. NFPA 1021 specifically identifies four levels of progression: Fire Officer Level I (supervisory); Fire Officer Level II (supervisory and managerial); Fire Officer Level III (managerial/administrative); Fire Officer Level IV (administrative)." -- provided by publisher.

Fire Fighter I and II

Fire and Emergency Services Instructor

This textbook matches the course outline and objectives identified by the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) committee for the Building Construction for Fire Protection core course. This new 3rd edition provides the reader with basic instruction about how buildings are designed and constructed and how this relates to emergency operations. In addition to basic construction principles, a new emphasis is placed on firefighter safety, newer types of construction that may be difficult to identify, and green construction principles. This edition is illustrated with new drawings and photos, case histories that emphasize real-life safety principles, key terms, and review questions. Fire inspectors, preincident planners, fireground commanders, investigators, and firefighters will all find useful and valuable information in this new edition.

Fire Command

The Complete Fire Officer III and IV Training Solution! Chief officers need to know how to make the transition from company officer to chief officer. Chief Officer: Principles and Practice is designed to help make the transition from company officer to chief officer a smooth evolution. Covering the entire scope of Levels III and IV from the 2009 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications, Chief Officer combines current content with dynamic features and interactive technology to better support instructors and to help prepare future chief officers to become problem-solving leaders for their organizations. Chief Officer: Principles and Practice has a clear focus on instilling fire fighter safety throughout an organization's culture. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, fire officer, and fire department. The entire fire community must work together to achieve one common goal: to ensure that everyone goes home. Chief officers therefore set the tone for safety in their organization, and this textbook embraces that philosophy. It is with this goal in mind that the 16 Firefighter Life Safety Initiatives, developed by the National Fallen Firefighters Foundation, are integrated throughout the text. The features in this textbook will help students take that extra step toward becoming outstanding chief officers. These features include:

- Scenario-Based Learning. You Are the Chief Officer and Chief Officer in Action are found in each chapter to encourage and foster critical thinking skills.
- Practical Tips for the Chief Officer. Chief Officer Tips
