Statistics and Probability for Engineering Applications

Soilless Culture - Use of Substrates for the Production of Quality Horticultural Crops provides useful information on the techniques of growing horticultural crops using either inert organic or inorganic substrates and also on use of substrates consisting locally available and inexpensive materials with adequate physical and chemical properties. The contents mainly includes influence of different substrates on horticultural crops grown under soilless culture, production of vegetables and ornamental crops in water shortage area, comparative evaluation of commercial inert substrate used for growing high value horticultural crops. In this book, interesting researches from around the world are brought together to produce a resource for teachers, researcher, and advanced students of biological science.

Handbook on Pressurized Irrigation Techniques

This Book is subject specific for all types of Assistant Engineer Exams of Gujarat Public Service Commission (GPSC) in Civil Engineering Stream. The Book contain multiple choice questions of Strength of Material and Structural Analysis, Design of

Concrete Structures and Design of Steel Structures. All MCQs are divided in two categories; one is practice questions and another is previous years questions of GPSC. Previous Years questions are being taken from last 8-9 sessions of Exam inclusive latest held Exam of GPSC Assistant Engineer. This type of subject specific books enhances choice for students what subjects they want to buy in which they are facing problems. Year by year number of competitors are increasing and the variety of questions asked in examination is widening; under such scenario this book will definitely help students to enhance their practice required to succeed in competitive exams like ESE, GATE, PSUs, SSC-JE, GPSC-AE, State Engineering Services etc.

Soilless Culture

Civil Engineering

Recent advances in technology have permitted the construction of large dams, reservoirs and channels. This progress has necessitated the development of new design and construction techniques, particularly with the provision of adequate flood release facilities. Chutes and spillways are designed to spill large water discharges over a hydraulic struc

Civil Engineering Problems and Solutions

“Indira’s Objective Agronomy” 3rd Revised Ed. for competitive examinations in agronomy discipline contain 16 chapters covering all related discipline. Each chapters contains multiple choice questions and total about 8000 objective questions with multiple choice have been framed and arranged sequentially for the easy understanding of the students. Recent information and development in the field of agronomy have been incorporated in the text. Thus this book is based on the syllabus of student of agronomy stream, it may be useful not only to students but also teachers, researchers and development officers for reference and easy answering of many complicated questions. The chapters are chosen in view to cover the course contents of competitive examinations like IAS, IFS, ARS, PCS and Banking services of agricultural subjects particular in agronomy. The entire book is prepared in most simple, clear and talking language so that the contents could be easily followed by the readers.

GPSC AE 2020: A Practice and Previous Years Question Book for Strength of Material and Structural Analysis, Design of Concrete Structures & Design of Steel Structures

5000 MCQ: Civil Engineering For UPSC GATE/PSUs Exams The first Edition of Civil Engineering Contains nearly 5000 MCQs

which focuses in-depth understanding of subjects at basic and Advanced level which has been segregated topic wise to disseminate all kind of exposure to Students in terms of quick learning and deep preparation. The topic-wise segregation has been done to Align with contemporary competitive examination Pattern. Attempt has been made to bring out all kind of probable competitive questions for the aspirants preparing for GATE, PSUs and other exams. The content of this book ensures threshold Level of learning and wide range of practice questions which is very much essential to boost the exam time confidence level and ultimately to succeed in all prestigious engineer's examinations. It has been ensured to have broad coverage of Subjects at chapter level. While preparing this book utmost care has been taken to cover all the chapters and variety of concepts which may be asked in the exams. The solutions and answers provided are upto the closest possible accuracy. The full efforts have been made by our team to provide error free solutions and explanations. Dear Civil Engineering students, we provide Basic Civil Engineering multiple choice questions and answers with explanation & civil objective type questions mcqs download here. These are very important & Helpful for campus placement test, semester exams, job interviews and competitive exams like GATE, IES, and PSU, NET/SET/JRF, UPSC and diploma. Especially we are prepare for the Civil Engineering freshers and experienced candidates, these model questions are asked in the online technical test, Quiz and interview of many companies. These are also very important for your lab viva in university exams like RTU, JNTU, Andhra, OU, Anna University, Pune, VTU, UPTU, CUSAT etc.5000 MCQ: Civil Engineering For UPSC GATE/PSUs Exams

Theory of Structures

The book in its present form is due to my interaction with the students for quite a long time. It had been my long-cherished desire to write a book covering most of the topics that form the syllabii of the Engineering and Science students at the degree level. Many students, although able to understand the various topics of the books, may not be able to put their knowledge to use. For this purpose a number of questions and problems are given at the end of each chapter.

Civil Engineering MCQ for JE

The Environment

"Water sector reforms are underway in many countries of the world today. Mexico, Turkey and Philippines are some of the countries where the concept of Participatory Irrigation Management (PIM) has been tried and tested. In India, Andhra Pradesh is the first state to introduce PIM throughout the state. Today, the Andhra model is being watched with great interest and is being replicated in other states of India as well. This volume puts together some of the best research studies

on the PIM programme being implemented in Andhra Pradesh. These give an insight into the political processes behind the reforms, the administrative, institutional and management issues, and finally based on the analysis, the way forward for the programme in Andhra Pradesh and a cumulative learning experience for other states in India and the world to incorporate and implement. The book has not only tackled theoretical issues and concepts but also practical ground level realities regarding PIM."

Energy Dissipation in Hydraulic Structures

This edition has been thoroughly revised and enlarged. It is still considered to be a must for all those sitting Civil Engineering examinations.

Revision Total Knee Arthroplasty

Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Get up-to-date information on every aspect of aircraft maintenance and prepare for the FAA A&P certification exam This trusted textbook covers all of the airframe maintenance and repair topics that students must understand in order to achieve Airframe and Powerplant (A&P) certification as set forth by the FAA's FAR 147 curriculum. Fully updated for the latest standards and technologies, the book offers detailed discussions of key topics, including structures and coverings, sheet metal and welding, assemblies, landing gear, and fuel systems. Relevant FAA regulations and safety requirements are highlighted throughout. You will get hundreds of illustrations, end-of-chapter review questions, and multiple-choice practice exam questions. New content reflects the industry-wide shift toward all-composite aircraft models and includes explanations of cutting-edge covering systems, modern welding techniques, methods and tools for riveting and rigging, fire detection, and de-icing systems. Aircraft Maintenance & Repair, Eighth Edition, covers: •Hazardous materials•Structures•Fabric•Painting•Welding equipment•Welding and repair•Sheet-metal construction, inspection, and repair•Plastics and composites•Assembly and rigging•Fluid power•Aircraft landing-gear and fuel systems•Environmental and auxiliary systems•Troubleshooting

Digital Image Processing MCQs

The Book Irrigation And Water Resources Engineering Deals With The Fundamental And General Aspects Of Irrigation And Water Resources Engineering And Includes Recent Developments In Hydraulic Engineering Related To Irrigation And Water Resources Engineering. Significant Inclusions In The Book Are A Chapter On Management (Including Operation, Maintenance, And Evaluation) Of Canal Irrigation In India, Detailed Environmental Aspects For Water Resource Projects, A

Note On Interlinking Of Rivers In India, And Design Problems Of Hydraulic Structures Such As Guide Bunds, Settling Basins Etc. The First Chapter Of The Book Introduces Irrigation And Deals With The Need, Development And Environmental Aspects Of Irrigation In India. The Second Chapter On Hydrology Deals With Different Aspects Of Surface Water Resource. Soil-Water Relationships Have Been Dealt With In Chapter 3. Aspects Related To Ground Water Resource Have Been Discussed In Chapter 4. Canal Irrigation And Its Management Aspects Form The Subject Matter Of Chapters 5 And 6. Behaviour Of Alluvial Channels And Design Of Stable Channels Have Been Included In Chapters 7 And 8, Respectively. Concepts Of Surface And Subsurface Flows, As Applicable To Hydraulic Structures, Have Been Introduced In Chapter 9. Different Types Of Canal Structures Have Been Discussed In Chapters 10, 11, And 13. Chapter 12 Has Been Devoted To Rivers And River Training Methods. After Introducing Planning Aspects Of Water Resource Projects In Chapter 14, Embankment Dams, Gravity Dams And Spillways Have Been Dealt With, Respectively, In Chapters 15, 16 And 17. The Students Would Find Solved Examples (Including Design Problems) In The Text, And Unsolved Exercises And The List Of References Given At The End Of Each Chapter Useful.

Civil Engineering

The environment is defined, perceived, and valued diversely by different countries, cultures, and communities. A healthy environment ensures human security, which means everyone has the access to food and water, employment and livelihood stability, resilience to climate change and extreme weather events, and also social and political stability. As the demand for food, fodder, fuel, and raw material grows, it increases the pressure on the environment and the competition for natural resources. Both human and natural activities have caused the physical, chemical, and biological degradation of the environment. The Environment covers the basic components of environment, ecology, biomes, and biodiversity. The book gives an analytical understanding of the topics. While the book covers major international topics, it has a strong focus on India too. The book will help candidates appearing for competitive examinations such as civil services. It is also extremely useful for readers interested in environment science, environment chemistry, and related subjects.

Wound Healing

Publisher's Monthly

This book Irrigation & Agricultural Drainage Engineering is intended as a source book in the area of irrigation and drainage for the students of agricultural engineering in particular and agricultural science in general. However, this book also may be useful for agricultural extension workers and the professional working in this area. The contents of the book will enable one

to acquire some basic requirements which an irrigation and drainage manager must have. The contents include basics along with some information toward research achievements, importance and usefulness so that the students get interested to the subject and at the same time help them to attend the institutional and competitive examinations. The book contains good numbers of numerical as example and task to get the students familiar to the requirements, complicacies, and possible remedies in actual working condition.

Irrigation Engineering

ELEMENTS OF CIVIL ENGINEERING AND ENGINEERING MECHANICS

The objective of this book is to provide single platform for preparation of competitive examinations in Food Science and Technology discipline. The book contains over 10000 objective questions on the subjects such as Food Chemistry, Food Microbiology, Food Engineering, Dairy Technology, Fruits and Vegetables Technology, Cereals Technology, Meat Fish and Poultry Processing, Food Additives, Foods and Nutrition, Bioprocess Technology, Food Packaging, food Analysis, Functional Foods, Emerging Food Processing Technologies, Food Biochemistry and Miscellaneous topics. The book also contains 1500 subjective keynotes for above mentioned topics. Previous five years (2013-2017) ICAR NET Exam solved question papers (memory based) are also included in this addition. Special Features of the Book: 1. More than 10,000 MCQs for ASRB-NET, ICAR JRF-SRF and IIT GATE examination 2. Five years ICAR-NET solved question papers 3. Revised and updated 1500 subjective keynotes.

Modern Engineering Physics

Statistics and Probability for Engineering Applications provides a complete discussion of all the major topics typically covered in a college engineering statistics course. This textbook minimizes the derivations and mathematical theory, focusing instead on the information and techniques most needed and used in engineering applications. It is filled with practical techniques directly applicable on the job. Written by an experienced industry engineer and statistics professor, this book makes learning statistical methods easier for today's student. This book can be read sequentially like a normal textbook, but it is designed to be used as a handbook, pointing the reader to the topics and sections pertinent to a particular type of statistical problem. Each new concept is clearly and briefly described, whenever possible by relating it to previous topics. Then the student is given carefully chosen examples to deepen understanding of the basic ideas and how they are applied in engineering. The examples and case studies are taken from real-world engineering problems and use real data. A number of practice problems are provided for each section, with answers in the back for selected problems.

This book will appeal to engineers in the entire engineering spectrum (electronics/electrical, mechanical, chemical, and civil engineering); engineering students and students taking computer science/computer engineering graduate courses; scientists needing to use applied statistical methods; and engineering technicians and technologists. * Filled with practical techniques directly applicable on the job * Contains hundreds of solved problems and case studies, using real data sets * Avoids unnecessary theory

Draughtsman Mechanical

The waters of the Nile are fundamental to life in Egypt. In this compelling ethnography, Jessica Barnes explores the everyday politics of water: a politics anchored in the mundane yet vital acts of blocking, releasing, channeling, and diverting water. She examines the quotidian practices of farmers, government engineers, and international donors as they interact with the waters of the Nile flowing into and through Egypt. Situating these local practices in relation to broader processes that affect Nile waters, Barnes moves back and forth from farmer to government ministry, from irrigation canal to international water conference. By showing how the waters of the Nile are constantly made and remade as a resource by people in and outside Egypt, she demonstrates the range of political dynamics, social relations, and technological interventions that must be incorporated into understandings of water and its management.

Transactions - Congress on Irrigation and Drainage

Basic Civil Engineering

Irrigation and Agricultural Drainage Engineering

This book equips the students with the basic knowledge of certain facets of Civil Engineering and Engineering Mechanics as needed by them in the beginning of their engineering education. The book is primarily tailored to conform to the first-year B.Tech syllabus of Visvesvaraya Technological University (VTU). It will be useful for the students in other universities too. The first part of the book discusses the fundamentals of civil engineering and the characteristics of some civil structures, such as buildings, roads, bridges, and dams. The second part deals with the topics of engineering mechanics that help in finding the solutions to problems of engineering. It deals with the systems of forces to which rigid bodies are subjected, centroids of plane figures, moment of inertia of some important geometrical figures, and the laws of friction. Worked-out examples, practice problems, and objective-type questions in each chapter are designed to reinforce the learning of the

subject matter.

Key to Success in Agriculture: Objective (MCQ's for JRF, SRF, NET & Other Competitive Exams)

This most complete resource is back in a full-color, thoroughly revised, updated, and significantly expanded 4th Edition that incorporates all of the many scientific and technological advances that are changing the scope of practice in this multidisciplinary field. Learned authors Joseph McCulloch and Luther Kloth have gathered world renown experts in wound management to present a comprehensive text that is evidence based, clinically focused and practical. Responding to the ever-changing field of wound management, the 4th Edition is far from a simple update; it is virtually a brand-new text. The committed and respected teams of authors and contributors have broadened the scope of this text and expanded it from 14 to 35 chapters.

Cultivating the Nile

Civil Engineering Multiple Choice Questions for SSC-JE / RRB-JE / Technical Exams for B.Tech and Diploma Students. It is useful for Junior Engineer Exams and Placements

5000 MCQ: Civil Engineering For UPSC GATE/PSUs Exams

Draughtsman Mechanical is a simple e-Book for ITI Engineering Course, Sem- 1,2,3 & 4, Revised Syllabus in 2018, Draughtsman Mechanical. It contains objective questions with underlined & bold correct answers MCQ covering all topics including all about the latest & Important about geometrical figures using drawing instruments, freehand drawing of machine components in correct proportions, procedure to prepare a drawing sheet as per BIS standard, learning about projection methods, auxiliary views and section views. Lettering, tolerance, metric construction, technical sketching and orthographic projection, isometric drawing, oblique and perspective projection, fasteners, welds, and locking devices, training on allied trades viz. Fitter, Turner, Machinist, Sheet Metal Worker, Welder, Foundry man, Electrician and Maintenance Motor Vehicles, OSH&E, PPE, Fire extinguisher, First Aid and in addition 5S, Pulleys, Pipe fittings, Gears and Cams, 3D Modeling Space and generate views, print preview to plot in .dwg and.pdf format, Solid Works / Auto CAD Inventor/ 3D modeling, machine parts with dimensions, annotations, title block and bill of materials and lots more.

GPSC AE 2020: A Practice and Previous Years Question Book for Fluid Mechanics, Water Resources and Environment Engineering

The book "General Sciences for Competitive Exams" contains specific topics in Science which form a part of most of the Competitive Exams. The book contains to the point theory followed by an exercise with solutions. The book covers a lot of questions from the past competitive exams. The book is a MUST for all SSC/ Banking/ Railways/ Defense/ Insurance Exam aspirants.

International Books in Print

General Science for Competitive Exams - SSC/ Banking/ Railways/ Defense/ Insurance

Increasing the efficiency of water use and enhancing agricultural water productivity at all levels of the production chains are becoming priorities in a growing number of countries. In particular, shifting to modern on-farm irrigation practices can contribute to a substantial increase in both water use efficiency and water productivity. The objective of this handbook is to provide a practical guide on the use of pressurised irrigation techniques to farmers, irrigation technicians, and extension workers in the field. In this second edition, the handbook has been considerably revised, including new chapters on low-cost drip irrigation and pipe distribution systems for smallholders. (Also available in French)

Irrigation Engineering And Hydraulic Structures

This textbook focuses specifically on the combined topics of irrigation and drainage engineering. It emphasizes both basic concepts and practical applications of the latest technologies available. The design of irrigation, pumping, and drainage systems using Excel and Visual Basic for Applications programs are explained for both graduate and undergraduate students and practicing engineers. The book emphasizes environmental protection, economics, and engineering design processes. It includes detailed chapters on irrigation economics, soils, reference evapotranspiration, crop evapotranspiration, pipe flow, pumps, open-channel flow, groundwater, center pivots, turf and landscape, drip, orchards, wheel lines, hand lines, surfaces, greenhouse hydroponics, soil water movement, drainage systems design, drainage and wetlands contaminant fate and transport. It contains summaries, homework problems, and color photos. The book draws from the fields of fluid mechanics, soil physics, hydrology, soil chemistry, economics, and plant sciences to present a broad interdisciplinary view of the fundamental concepts in irrigation and drainage systems design.

Soilless Culture: Theory and Practice

This Book is subject specific for all types of Assistant Engineer Exams of Gujarat Public Service Commission (GPSC) in Civil

Engineering Stream. The Book contain multiple choice questions of Fluid Mechanics, Hydraulic Machines, Hydrology, Irrigation, and Environment Engineering. All MCQs are divided in two categories; one is practice questions and another is previous years questions of GPSC. Previous Years questions are being taken from last 8-9 sessions of Exam inclusive latest held Exam of GPSC Assistant Engineer. This type of subject specific books enhances choice for students what subjects they want to buy in which they are facing problems. Year by year number of competitors are increasing and the variety of questions asked in examination is widening; under such scenario this book will definitely help students to enhance their practice required to succeed in competitive exams like ESE, GATE, PSUs, SSC-JE, GPSC-AE, State Engineering Services etc.

Irrigation Water Resources And Water Power Engineering, 7/e

National Union Catalog

James V. Bono, MD, and Richard D. Scott, MD, two leading authorities in the field, edited this invaluable how-to book on corrective surgery for failed total knee arthroplasty. The text has an in-depth, comprehensive approach geared for orthopedic surgeons, sports medicine specialists, and residents. All fundamental aspects of revision total knee arthroplasty and its complications are covered. More than 350 illustrations—60 in full color—complement well-written explanations of general principles, surgical procedures, and special considerations. Top experts in orthopedics offer clinical pearls on topics such as diagnosis and evaluation, pre-op planning and component selection, surgical approach, revision technique, post-op complications, and salvage. Radiologists also detail the use of imaging for evaluation. Economics and reimbursement are addressed as well. Readers will find that this thorough and accurate book is an unprecedented guide that unravels the complexity of revision total knee arthroplasty.

Aircraft Maintenance & Repair, Eighth Edition

Written by 6 professors, each with a Ph.D. in Civil Engineering; A detailed description of the examination and suggestions on how to prepare for it; 195 exam, essay, and multiple-choice problems with a total of 510 individual questions; A complete 24-problem sample exam; A detailed step-by-step solution for every problem in the book; This book may be used as a separate, stand-alone volume or in conjunction with Civil Engineering License Review, 14th Edition (0-79318-546-7). Its chapter topics match those of the License Review book. All of the problems have been reproduced for each chapter, followed by detailed step-by-step solutions. Similarly, the 24-problem sample exam (12 essay and 12 multiple-choice problems) is given, followed by step-by-step solutions to the exam. Engineers looking for a CE/PE review with problems and solutions will buy both books. Those who want only an elaborate set of exam problems, a sample exam, and detailed

solutions to every problem will purchase this book. 100% problems and solutions.

Users in Water Management

Agricultural Engineering

The knowledge on Agriculture is continuously improved, updated, and disseminated. It is also important that the review and inventory of the 'State of the Art' in agriculture objectives questions and best practices should be shared widely among agriculture practitioners, educators and scholars. Through Competitive Examinations, there is direct recruitment for admission and high position in our education system; the pattern followed is M.C.Q's or Objective type questions in such examinations. The book is a repository of more than 6,000 objective questions; which calls for quick answering for success within a specified period in the examinations. A sincere effort has been made by different authors to present them in most easy, short and understandable language for the benefit of students, teachers and those who are interested in Agriculture and Agricultural Extension. Majorly, all different aspects of Agriculture Discipline are provided in the book, which are a part of various Agricultural Universities syllabi. This book will be of great service, to the students aiming for higher level competitive examination such as NET, ARS, JRF, SRF, UG and PG entrance examinations.

Irrigation and Water Resources Engineering

Plant production in hydroponics and soilless culture is rapidly expanding throughout the world, raising a great interest in the scientific community. For the first time in an authoritative reference book, authors cover both theoretical and practical aspects of hydroponics (growing plants without the use of soil). This reference book covers the state-of-the-art in this area, while offering a clear view of supplying plants with nutrients other than soil. Soilless Culture provides the reader with an understanding of the properties of the various soilless media and how these properties affect plant performance in relation to basic horticultural operations, such as irrigation and fertilization. This book is ideal for agronomists, horticulturalists, greenhouse and nursery managers, extension specialists, and people involved with the production of plants. *

Comprehensive discussion of hydroponic systems, irrigation, and control measures allows readers to achieve optimal performance * State-of-the-art book on all theoretical aspects of hydroponics and soilless culture including a thorough description of the root system, its functions and limitation posed by restricted root volume * Critical and updated reviews of current analytical methods and how to translate their results to irrigation and fertilization practices * Definitive chapters on recycled, no-discharge systems including salinity and nutrition management and pathogen eradication * Up-to-date description of all important types of growing media
