Jet skis are immensely popular coastal 'playthings' - but they need careful handling and maintenance. This is a highly illustrated hands-on manual providing advice, hints and tips on choosing, driving, handling, maintaining and repairing a jet ski - the complete owner's manual. Many owners will prefer to service and maintain their own machine (much like they would with an outboard motor), rather than take it to a service agent, and the step by step photos in this book will enable them to do just this. This is a brand new, highly illustrated step-by-step guide for the jet ski owner (of which there are many in the UK alone) which provides helpful advice on all the aspects of ownership, handling and maintenance. There is no other book on the market which does this.

Have you ever had a dream and actually followed it through? That's what Larry Harcum did. He dreamed his dream - and then went for it! Imagine driving round trip from New York City to Los Angeles. That's more than 5,000 miles. But Harcum traveled a distance of 5,805 miles alone on a jet ski. To add to the challenge, he decided to make the trip in just one summer - 87 days! Despite months of agonizing planning and preparation, unforeseen challenges surfaced, often with comical results. Harcum circumnavigated the eastern United States on the route known as the Great American Loop. Starting in his hometown of Virginia Beach, Harcum went up the Eastern Seaboard, through the Great Lakes, down the Mississippi, out into the Gulf of Mexico, back around Florida and into the Atlantic to his home port. Despite fire, rain, hail, and a blown up jet ski, he relentlessly pursued his dream. His adventure on the waterways of America, the people he met, and the tests he faced will grab your attention and win your respect. Harcum enjoyed this dream ride, and you will too.
