The Life of Ten Bears is a remarkable collection of nineteenth-century Comanche oral histories given by Francis Joseph "Joe A" Attocknie. Although various elements of Ten Bears's life (ca. 1790-1872) are widely known, including several versions of how the toddler Ten Bears survived the massacre of his family, other parts have not been as widely publicized, remaining instead in the collective memory of his descendants. Other narratives in this collection reference lesser-known family members. These narratives are about the historical episodes that Attocknie's family thought were worth remembering and add a unique perspective on Comanche society and tradition as experienced through several generations of his family. Kavanagh's introduction adds context to the personal narratives by discussing the process of transmission. These narratives serve multiple purposes for Comanche families and communities. Some autobiographical accounts, "recounting" brave deeds and war honors, function as validation of status claims, while others illustrate the giving of names; still others recall humorous situations, song-ridicules, slapstick, and tragedies. Such family oral histories quickly transcend specific people and events by restoring key voices to the larger historical narrative of the American West.

### The Life of St. Charles Borromeo, Cardinal Archbishop of Milan

A soldier finds letters on a battlefield in France and falls in love with the woman

who wrote them. Trapped in no man's land in the final days of World War I, Private Ransom James MacTavish consoles a dying Lieutenant by reading to him the letters of his fiancée, Elizabeth, a high born Charleston Lady. When the officer dies, Ransom is stranded alone between the American and German trenches. His sole comfort is reading the elegant letters from the officer's fiancée. Although he is penniless, Ransom comes home determined to win Elizabeth's heart but soon discovers he must compete with a wealthy suitor while evading a lustful widow and a sheriff with a tendency to shoot people. Ransom's only hope is the bond of a spirited pregnant teenager and the eccentric wisdom of a crusty Civil War veteran.

This book brings together leading African scholars and researchers from various academic disciplines, cultures, religions, and generations. It examines how to better mobilise and influence the actions, behaviour and attitudes of citizens towards accountability, transparency, and probity, in order to strengthen Africa's integrity, equity, and sustainable development. It serves to deepen and strategically add to current efforts to combat corruption, and clearly advocates that fighting corruption is the business of everyone. The role of ethics in society and the presence of leaders who ideally should be ethical, effective, and empathic are also important. This volume shows that corruption robs the poor, and will serve to enrich the reader's philosophy of life.

Disability in South Asia: Knowledge & Experience presents a comprehensive approach to various aspects of disability in South Asia. A critical work on disability studies, this book explores the full complexity of disability in its multi-layered, interactional dynamics. The book imparts understanding of the social, political and cultural construction of disability as opposed to the traditional perception of disability in terms of medical condition, biological trait, rehabilitation and special education. It focuses on foregrounding disability across various areas including education, law and sociology, critically exploring the interaction of gender and disability, and challenging the separation between theory and practice as well as academia and activism. The book shows how the inclusion of a disability perspective enriches scholarship by contributing to the understanding of social marginalization, oppression and the perception of difference. It highlights the lived experiences of people with disabilities to help readers develop a nuanced comprehension of disability.

### **The Delaplaine Mel Brooks**

Earlier this year, a dog danced his way into the history books as the first canine winner of Britain's Got Talent. En route to the title, Pudsey and his owner Ashleigh Butler won over Walliams, delighted Dixon, stole the heart of Holden, and utterly captivated Cowell. They charmed the nation, too - with millions of viewers tuning in to see them take the crown. But what do we really know of Pudsey's journey to stardom? How did he get from being a depressed dog to the mutt of the moment? In this, the most unusual celebrity book of the year, he's finally ready to tell his tale. As a young pup, Pudsey always knew he was somehow different to his dog-standard peers. While his brothers and sisters contented themselves with chasing their tails, he sat apart, yearning for something more. With the help of the menagerie of pets that fill the Butler household and despite some dastardly opposition threatening to stop him at every turn, Pudsey managed to achieve his dream. This Autobiography tells the story of his incredibly journey, straight from the dog's mouth.

## **Some Glad Morning**

National Defense University (NDU), the National Intelligence Council (NIC), and the Defense Intelligence Agency (DIA) held a symposium in November 2015 that brought leading experts together to explore four alternative futures for the Democratic People's Republic of Korea (DPRK, also known as North Korea). The futures were: 1) A Status Quo Peninsula in a Changing Northeast Asia; 2) Korea Reunified; 3) A Reforming DPRK; and 4) The DPRK Must Be Stopped! This report summarizes key findings from this non-attribution symposium, which focused on the interests and potential actions of external powers rather than DPRK internal dynamics. Key Findings: All the external powers are risk-averse, constrained by domestic politics, and reluctant to use force even when confronted with egregious North Korean behavior. North Korea has become skilled at playing external powers against each other and at using provocations to exploit this risk-aversion. China's role is critical: it has the ability to topple the DPRK by cutting off economic assistance, but no interest in doing so since regime collapse would remove a buffer, create refugee flows into China, and reduce Beijing's ability to shape

Korea's future. China ultimately prioritizes stability over nonproliferation. The "status quo" is not static-it involves a trajectory with increasing North Korean nuclear weapons capability and longer-range delivery systems. There is a sense of dissatisfaction with current U.S. policy, which is permitting North Korea to enhance its nuclear weapons capabilities and extend the range of its delivery systems. However, alternatives have significant risks, high domestic political costs, and/or limited prospects for success. North Korea is pursuing both expanded nuclear weapons capabilities and economic reforms under its byungjin policy. The logic of the Six Party Talks is to make Pyongyang choose one or the other, but external powers are unwilling to confront the DPRK and force a choice.

Advanced Medical Life Support (AMLS) ist das führende Konzept für die akutmedizinische Versorgung von internistischen und neurologischen Patienten. Es richtet sich an alle an der Behandlung von nicht-traumatologischen Notfällen beteiligten Berufsgruppen - vom Rettungssanitäter, Notfallsanitäter und Notarzt am Notfallort bis zum Pflegepersonal und Arzt in der Notaufnahme. Ziel ist eine rasche Einschätzung des Patienten bezüglich Behandlungsdringlichkeit und sofort notwendigen Maßnahmen („treat first what kills first“). Außerdem werden Differentialdiagnosen strukturiert erarbeitet, um die beste Therapie und geeignete Zieleinrichtung auszuwählen. Was bietet die zweite deutsche Auflage? Patientenversorgung „state-of-the-art“: Die aktuelle AMLS-Edition berücksichtigt alle relevanten gültigen Leitlinien und neuesten Forschungsergebnisse. Sowohl Berufsanfänger als auch „alte Hasen“ aller Berufsgruppen profitieren von der Struktur und Aktualität des Konzepts und dieses Buches. Wiederholungsfragen sowie Zusammenfassungen der Kapitel und Putting It All Together-Abschnitte untermauern Schlüsselkonzepte und verknüpfen Informationen, um die Leser und Kursteilnehmer beim Lernen zu unterstützen. Szenarien bieten einen realistischen Kontext, um das Erlernte anzuwenden und anhand eines Lösungsvorschlags seinen Wissenszuwachs zu überprüfen. Warum AMLS? Der Vorteil des Konzepts ist die klare Struktur in der Patientenbeurteilung. Sie hilft, in schwierigen Notfallsituationen einen kühlen Kopf zu bewahren oder auch bei zunächst unklarem Beschwerdebild zu einer Verdachtsdiagnose zu finden und entsprechende Maßnahmen einzuleiten. Gleichzeitig ist es ein klarer Pluspunkt, wenn alle Mitglieder des Behandlungsteams das Konzept mit seinen Abläufen kennen und so bei der Patientenversorgung an einem Strang ziehen. Das AMLS-Konzept schließt die Lücke zwischen Konzepten zur Versorgung von Trauma- und pädiatrischen Patienten sowie Reanimationskursen. Warum dieses Buch? Dieses Buch ist das offizielle Kursbuch zu den AMLSKursen, welche 1999 von der National Association of Emergency Medical Technicians (NAEMT) zusammen mit der National Association of EMS Physicians (NAEMSP) entwickelt wurden. Mittlerweile sind AMLS-Kurse weltweit etabliert, seit 2010 auch in Deutschland mit einer kontinuierlich wachsenden Zahl von Anwendern.

### **The Life of Ten Bears**

\*Includes pictures \*Includes a bibliography for further reading America has always preferred heroes who weren't clean cut, an informal ode to the rugged individualism and pioneering spirit that defined the nation in previous centuries. The early 19th century saw the glorification of frontier folk heroes like Davy Crockett and Daniel Boone. After the Civil War, the outlaws of the West were more popular than the marshals, with Jesse James and Billy the Kid finding their way into dime novels. And at the height of the Great Depression in the 1930s, there were the "Public Enemies," common criminals and cold blooded murderers elevated to the level of folk heroes by a public frustrated with their own inability to make a living honestly. Among America's most infamous "Public Enemies," perhaps the most unique and controversial was Kate Barker. With her prominent, hawk-tipped nose and plump, doughy face, framed by a classic dark curly coif and frilly day dresses to match, Ma Barker was as non-threatening as they come. Nary a second glance was given to this grandmotherly figure by those who crossed her path, perhaps at most a polite tip of the hat. Of course, as the age-old adage goes, appearances are often deceiving. According to the FBI and portrayals in popular culture, not only was Ma Barker a crass, greedy, and highly manipulative individual who coaxed her sons into the abyss-like vortex of criminality, she was the matriarchal mastermind of one of the most notorious gangs of the Dirty Thirties era. The public devoured the countless articles that their action-packed crimes generated with gusto, but few could compare to the meteoric whirlwind of morbid excitement that erupted when the sensational story of the Ma Barker Gang made

its rounds. The Ma Barker Gang, as they were so branded, wasn't a typical band of small-time crooks. Quite the contrary, the unorthodox family-run enterprise was, as described by FBI Director J. Edgar Hoover, "the most vicious, cold-blooded crew of murderers, kidnapers, and robbers in recent memory." The gang was as accomplished - and dangerous - as it was elusive, and between 1930 and 1933 alone, they made off with an estimated \$3 million. In their heyday, the gang boasted some 25 members, and through it all, the Barker boys remained its core members. Blood, as per the Barker code, would always be thicker than water. The Ma Barker Gang, which was reportedly governed by the middle-aged, misleadingly unassuming, yet apparently ride-or-die mother of the Barker boys, easily warranted a class of its own. The obvious novelty of the alleged gang leader's identity aside, the disturbing fates of the Barker brothers and many of their associates served as a cautionary tale about the dangers and delusions that ensue when one becomes consumed by unbridled avarice and arrogance. But why were the Barker brothers, once innocent young lads, steered so far off the path of righteousness? What was the true depth of Ma's involvement in the gang's laundry list of despicable crimes? How did the once untouchable gang's winning streak culminate in such catastrophic disaster? The pursuit of the Barkers was a piece of what made the FBI a national institution, and alongside similar efforts to bring John Dillinger and Bonnie & Clyde to justice, the "G-Men" became the symbol of law and order in the early 1930s. The FBI's dissemination of information about Ma Barker all but cemented her notorious reputation, but in the decades since, FBI Director J. Edgar Hoover has become a controversial figure himself and modern historians have reached different conclusions about Ma Barker's involvement in the gang's criminal activities. Alvin Karpis, one of the gang's leaders, insisted, "The most ridiculous story in the annals of crime is that Ma Barker was the mastermind behind the Karpis-Barker gang. She wasn't a leader of criminals or even a criminal herself."

Surveying humanity's impact on the planet, with contributions from Donna Haraway, Bill McKibben, Greta Thunberg, Bruno Latour, Alice Waters and others. This timely book, in the form of an encyclopedia, considers the totality of issues surrounding the Anthropocene, that geologic era characterized by humanity's vast impact on the Earth. Connectedness acknowledges the incomplete nature of its project seeing as how this riotous era is not yet finished. With contributions by Greta Thunberg, Bill McKibben, Alice Waters, Tomás Saraceno, Björk and many others, this publication consists of approximately 100 entries, arranged alphabetically, each reflecting on questions, phenomena, terms, possibilities and theories associated with the Anthropocene. Examples of entries include Air, Borders and Coexistence, as well as more complex subjects such as Donna Haraway on the Chthulucene or Anders Blok on Climate Risk Communities. The content ranges from scientific to cultural-theoretical and artistic contributions featuring a wide span of scholars, philosophers, anthropologists, scientists, authors, artists and others. The book accompanies the exhibition at the Danish Pavilion at the 2020 Venice Architectural Biennale.
