Rifling Through My Drawers

Handbook of Low Carbon Concrete brings together the latest breakthroughs in the design, production, and application of low carbon concrete. In this handbook, the editors and contributors have paid extra attention to the emissions generated by coarse aggregates, emissions due to fine aggregates, and emissions due to cement, fly ash, GGBFS, and admixtures. In addition, the book provides expert coverage on emissions due to concrete batching, transport and placement, and emissions generated by typical commercially produced concretes. Includes the tools and methods for reducing the emissions of greenhouse gases Explores technologies, such as carbon capture, storage, and substitute cements Provides essential data that helps determine the unique factors involved in designing large, new green cement plants

Troubleshooting and Repairing Major Appliances, 2nd Ed.

Aims to dispel misconceptions and misinformation surrounding Transylvania, and to focus attention on the severe plight of Hungarians and other ethnic minorities in Transylvania under Rumanian rule. Deals briefly with the Dracula myth before outlining the historical distortions in Rumania's claims over Transylvania. Outlines human rights abuses since 1920, culminating in the Rumanian government's plans to systematically destroy thousands of historic Transylvanian villages. Takes the form of a lecture illustrated by still photographs and amateur filmclips.

The Toilet Papers

Gail Goodwin has created a wonderfully fresh gift book bursting with the love, power, and sisterhood that grows out of women's friendships. Through her camera's lens she perfectly captures the joy felt in time spent with friends-hanging out, acting silly, being crazy and wild and free together. Her youthful subjects embody the spirit of fun and freedom we have being ourselves with our best girlfriends. Whether shopping, taking a road trip, or just basking in the summer sun, these girls know how to have fun-together! Full-color spreads and

happy, inspirational text underscore the special bond and lifelong ties between women: "Always remember-when you're out there searching for the world's greatest sale? A good friend is the ultimate find!" Always positive and upbeat, Gail's timeless photos appeal to women of all ages: girls, teens, and the inner girl in every woman. Her special technique of hand-tinting her black and white photographs lends a handcrafted, artistic touch to this volume. Like the work that has made Gail Goodwin so successful in the stationery market, Gal Pals is a reminder to laugh, to love, and to celebrate the gift of friendship, every day.

The Summer House

Wright and Newbery's classic guide to the world of electric fuses has been substantially revised and remains the comprehensive reference work on the subject. The third edition of the book includes further analysis of pre-arcing and arcing behaviour, the retrofitting of expulsion fuses with automatic sectionalising links, developments in Chip Fuses and Automotive Fuses, application information on benefits of fuses. IGBT protection and arc flash and power quality. It also provides an update on national and international standards. The book begins by describing the very first electric fuses and their applications, their later development, the introduction of standard specification and the spread of the use of fuses; and ends focusing on the updated national and international standards regarding fuses and the quality assurance and inspection methods used during manufacture to maintain the necessary high standards.

Design Fundamentals for Low-Voltage Distribution and Control

If you believe that gargoyles are mere statues found at churches, you are mistaken, as were Jacob and Cheryl Sterns, until they came face-to-frightening-face with one. Humble convenience-store clerk Walter Archemis becomes an unexpected hero when he rescues the twins from danger at the hands of Duster the menacing gargoyle. Yet the twins become marked with a sinister bond, and the tortuous creatures of stone will not leave them alone. Now under the protection of Archemis revealed to the twins as a vampire from an ancient world, charged with the mission to protect human mortals from the gothic granite ghouls the twins must endeavor a terrifying quest to evade them. Find out more about this exciting page-turner as Robert M. St. Marie leaves you scared and thrilled with his latest offer, Blood and Stone.

The Bank Credit Analysis Handbook

Did you child just get hearing aids? Is your child feeling self-conscious about their hearing loss? "Bessie Needs Hearing Aids" is a children's book that will help children with hearing loss understand the process, and that they are not alone. Written and

illustrated by a teenage girl who went through this process, so it will resonate with children just learning of hearing issues, or coping with wearing hearing aids. The book received numerous accolades so it was decided to make it available to all, in order to possibly help other children with hearing loss. When a child goes through the process of getting hearing aids, it is scary for them and difficult for a parent to explain. This is a story of Bessie, the bunny, who was so excited to start school only to have the kids get frustrated that she was not hearing them properly. Bessie visits the audiologist and learns about hearing aids and the happy results of getting hear aids.

Earth Resources and the Environment

Fans of New York Times bestselling authors Susan Mallery, Jill Shalvis, and Robyn Carr will love this feel-good beach read about finding love in the most unexpected places, from the USA Today bestselling author behind the beloved Hallmark movie *Coming Home for Christmas* and the upcoming Hallmark movie *Christmas Wishes and Mistletoe Kisses*.

Math Workbook for ISEE, SSAT & HSPT Prep

Balanced, broad-based, and up to date, this comprehensive text explores the nature and critical issues of earth resources and the impacts that resource usage has on the earth environment. The authors offer full coverage of all major types of earth resources-energy, metallic, nonmetallic, water, soil. A minimal scientific background is assumed.

Laboulaye's Fairy Book

Not only can a plant-based diet be good for health, it can also be easy on the pocketbook. At a time when many people are looking for a way to cut costs, *Vegan on \$4 a Day* will show readers how to forgo expensive processed foods and get the most flavor out of delicious, high-quality basic ingredients. Author Ellen Jaffe Jones has combined passion, money savvy, journalistic expertise, and culinary chops into a consumer's guide for an economically viable dietary lifestyle. She has scoured the shelves of popular supermarkets and big-box stores and calculated exactly how much it costs to eat healthfully and deliciously. Readers will learn how to adapt their favorite recipes, cook with beans and grains, and use bulk buying to get big savings. Includes nearly 100 nutritious, delicious and low cost recipes and a week's worth of menu-planning ideas that show how the recipes can be combined to get a cost of \$4 a day.

The Great Leveller

Spiral bound, with durable laminated pages, the 8th edition of *Code Check Electrical* is the perfect on-the-job resource for electricians, builders, remodelers, and building inspectors dealing with electrical work. Completely updated to the 2017 National Electrical Code and the 2015 International Residential Code, this reliable resource can help builders and re-modelers avoid the most common electrical code violations for every type of residential electrical system. Whether

you are dealing with grounding, bonding, service panels, branch circuits, GFCIs and AFCIs, switches, receptables, photovoltaics, or other systems, the more than 100 tables and figures in this guide guarantee expert, reliable guidance every step of the way. Easy to access and easy to use, Code Check Electrical will ensure that all jobs meet the highest safety standards while drastically reducing code violation call-backs.

Electric Fuses

Use the Latest Tools and Techniques to Troubleshoot and Repair Major Appliances, Microwaves, and Room Air Conditioners! Now covering both gas and electric appliances, the updated second edition of Troubleshooting and Repairing Major Appliances offers you a complete guide to the latest tools, techniques, and parts for troubleshooting and repairing any appliance. Packed with over 200 illustrations, the book includes step-by-step procedures for testing and replacing parts instructions for reading wiring diagrams charts with troubleshooting solutions advice on using tools and test meters safety techniques and more. The second edition of Troubleshooting and Repairing Major Appliances features: Expert coverage of major appliances Cutting-edge guidance on appliance operation, testing and repairing, wiring, preventive maintenance, and tools and test meters New to this edition: information on both gas and electric appliances; 10 entirely new chapters; new illustrations throughout Inside This Updated Troubleshooting and Repair Manual • Fundamentals of Service: Selection, Purchase, and Installation of Appliances and Air Conditioners • Safety Precautions • Tools for Installation and Repair • Basic Techniques • Fundamentals of Electric, Electronic, and Gas Appliances, and Room Air Conditioners: Electricity • Electronics • Gas • Principles of Air Conditioning and Refrigeration • Electric, Electronic, and Gas Appliance Parts • Appliance Service, Installation, and Preventive Maintenance Procedures: Dishwashers • Garbage Disposers • Electric and Gas Water Heaters • Washers • Electric and Gas Dryers • Electric and Gas Ranges/Ovens • Microwave Ovens • Refrigerators and Freezers • Ice Makers • Room Air Conditioners

A Life Less Ordinary

Bessie Needs Hearing Aids

The story of a kitten rescued after being deposited in a tree during the tornado that hit Brimfield, Massachusetts, June 1, 2011. "Meet Toto's friends and follow along as he loses his old home, but finds a new one"--Back cover.

NutriSystem Nourish

Collected together for the first time, here are the three hard-hitting standalone novels set in the world of Joe Abercrombie's bestselling FIRST LAW trilogy. BEST SERVED COLD: War may be hell but for Monza Murcatto, the Snake of Talins, the most feared and famous mercenary in Duke Orso's employ, it's a damn good way of making money too. Her victories have made her popular - a shade too popular for her employer's taste. Betrayed, thrown down a mountain and left for dead,

Murcatto's reward is a broken body and a burning hunger for vengeance. Whatever the cost, seven men must die. **THE HEROES:** Over three bloody days of battle, the fate of the North will be decided. But with both sides riddled by intrigues, follies, feuds and petty jealousies, it is unlikely to be the noblest hearts, or even the strongest arms that prevail. Three men. One battle. No Heroes. **RED COUNTRY:** Shy South hoped to bury her bloody past and ride away smiling, but she'll have to sharpen up some bad old ways to get her family back, and she's not a woman to flinch from what needs doing. She sets off in pursuit of her family's killers with only a pair of oxen and her cowardly old stepfather Lamb for company. But it turns out Lamb's buried a bloody past of his own, and out in the lawless Far Country, the past never stays buried.

Toto the Tornado Kitten

From the author of the **TRAINSPOTTING** and **SHALLOW GRAVE** screenplays, a novel about the unpredictable course of fate. An aspiring novelist meets a rich woman with a slender grip on the real world. They are ill-matched but become lovers, with a little help from the archangel Gabriel. Tied to the release of a Hollywood feature film.

With a Voice of Singing

An e-book that contains information from experienced Shanghai travelers on travel, hotels, entertainment, health issues, safety, and business etiquette. This Shanghai Business Travel Guide assumes you are a North American businessperson traveling directly from North America to Shanghai, China. The Guide's goal is to provide you with practical and current information that will allow you to plan and execute your trip most effectively. The Guide contains information written by business people who have lived, worked, and played in Shanghai. The Guide is different from most China travel guides, which are written for tourists not business people and are not frequently updated. Travel guides usually contain glowing reports of life in a particular country; we tell it like it is! This Guide helps you prepare for your trip by advising you how much to budget for your trip, how to get a visa, and what vaccinations you should have. We suggest the best hotels and help you find your way from the airport to your hotel. Of course the main purpose of your trip is business, and understanding Chinese business etiquette may mean the difference between a successful trip and a failure. We explain how the Chinese conduct business and guide you through business meetings and dinners. The Guide is packed with advice from experienced Shanghai travelers on all the things we love about the city and many of the problems we have encountered. We tell you how to power up your laptop and where to find the best restaurants and bars and what to do in an emergency. The Guide is packed with hyperlinks to relevant sites and even has a chapter on critical Chinese phrases you will need. And you can hear a native speaker recite the phrases. This is an electronic document that will be emailed to you (Be sure to include your email address with your order.) The document is in PDF format and can be read with free Adobe Acrobat Reader software (www.adobe.com).

A Familiar Exposition of the Constitution of the United States

A bumper book of fun with maths stuffed with things to draw, puzzle, invent, order, unscramble, code, decode for kids aged 7+ years from Australia's best known maths man. There's magic in maths - if you know where to look

The U.S. Cement Industry

A hands-on guide to the theory and practice of bank credit analysis and ratings In this revised edition, Jonathan Golin and Philippe Delhaise expand on the role of bank credit analysts and the methodology of their practice. Offering investors and practitioners an insider's perspective on how rating agencies assign all-important credit ratings to banks, the book is updated to reflect today's environment of increased oversight and demands for greater transparency. It includes international case studies of bank credit analysis, suggestions and insights for understanding and complying with the Basel Accords, techniques for reviewing asset quality on both quantitative and qualitative bases, explores the restructuring of distressed banks, and much more. Features charts, graphs, and spreadsheet illustrations to further explain topics discussed in the text Includes international case studies from North America, Asia, and Europe that offer readers a global perspective Offers coverage of the Basel Accords on Capital Adequacy and Liquidity and shares the authors' view that a bank could be compliant under those and other regulations without being creditworthy A uniquely practical guide to bank credit analysis as it is currently practiced around the world, The Bank Credit Analysis Handbook, Second Edition is a must-have resource for equity analysts, credit analysts, and bankers, as well as wealth managers and investors.

Eat Vegan on \$4.00 a Day

Cardinal Education is an educational consulting and tutoring company based in Palo Alto, CA. Guided by a philosophy of fulfilling students' academic potential in a way that boosts skills and confidence for life, we work to maximize successful middle school, high school, and college admissions outcomes. While some of our methods defy "conventional wisdom," we have a proven track record with a broad range of students: the Ivy League bound to those wishing to avoid community college, the self-motivated to the intransigently jaded, and the profoundly gifted to learning disabled. We have a passion for expanding students' dreams and helping them attain their goals. Cardinal Education believes in the social value of a strong public education system and sponsors pro bono programs to bring private sector expertise to bear. However, government fiscal policies are shortchanging public schools of opportunities: activities, sports, variety of classes, advanced classes, student: teacher ratios, and counseling departments. The "private school imperative" means that despite economic trends, admission to private school is becoming so competitive that it necessitates standardized testing excellence. The philosophy of this math workbook is rigor and drill. Because this is the first test students take that actively tries to trick students at every turn, students who sit for these standardized exams need reflexive familiarity with computation (math facts), problem types, and strategy. The entrance exams are the first standardized tests for which budgeting time is a significant issue. Students need to spend the majority of time on analysis to avoid getting tricked rather than computation. By building skills, speed, and confidence, we hope to eliminate anxiety and give students a solid foundation on which to build excellent scores. This book is intended as a

supplement for our highly trained staff, so it does not include strategies. However, motivated students can use it successfully with occasional help from a teacher or parent. Each chapter is comprised of units, with each unit comprised of 4 problem sets of difficulty, increasing in a logically progressive manner. Students should do as many of the 4 problem sets for each unit as it takes to achieve a 90% accuracy rate. Students taking lower level exams should complete problems 1-10 in each set. Students competing for high school admissions should complete each problem set in its entirety. Questions or feedback: Info@CardinalEducation.com

Rainwater Reservoirs

With her inimitable wit and outspoken views, Clarissa Dickson Wright opens her diary and takes us on a journey around Britain with this unrivalled collection of stories and anecdotes from her ever-eventful life. As celebrated cook and champion of the countryside, Clarissa's year includes being propositioned by a burly greyhound courser, meeting the Chairman of the Sandringham branch of the WI, a fishing terrier called Kipper and taking on the Health & Safety officials at a rain-drenched County Show. Criss-crossing the country she introduces us to long-forgotten traditions and colourful local festivals as she meets up with extraordinary characters and friends old and new. Entertaining, poignant, but never politically correct, *RIFLING THROUGH MY DRAWERS* is a breath of fresh air and proves once again why Clarissa is one of the nation's true treasures.

Raytheon Company

Where the Light Gets in

In her sizzling, award-winning novels of suspense, bestselling author Suzanne Brockmann delves into the adrenaline-rushed world of counter terrorism—and taps into the real passions of its brave men and women. Now in her widely anticipated hardcover debut, she spins a story of action, intrigue, and romance, as a U.S. Navy SEAL and an FBI agent race to unravel a mystery—while confronting their own unresolved feelings for each other. . . . In his career as one of America's elite warriors, Lt. Sam Starrett can do no wrong. In his private life, Sam—the king of one night stands—has done little right. Now, he's waiting for a divorce and determined to stay active in his young daughter's life. But when Sam shows up at the door of his ex-wife's home in Sarasota, Florida, he makes a grisly discovery. His daughter is gone and the body of a woman lies brutally murdered on the floor. FBI agent Alyssa Locke's relationship with Sam has been overwhelmingly intense and nearly catastrophic, yet it refuses to end. The last time she saw Sam was six months earlier, when they worked together to stop terrorists from assassinating the U.S. President. Much to her dismay, Alyssa is assigned to lead the murder investigation and once again the two are face to face. When explosive information surfaces linking Sam to the still unsolved assassination plot, the stakes are raised. With her reputation hanging in the balance, and her loyalties in question, Alyssa is faced with an impossible dilemma: arrest a man she believes to be innocent, or risk her career. While Alyssa tries to fight their intense attraction, Sam is determined to heat things up between them once again. And the complex case pushes them both

to the wrong side of the law—and on the run to discover the truth. As more agents step into the chase, and with Sam's daughter still unaccounted for, neither Alyssa nor Sam can predict just how deadly hot this situation is about to become. . . . A thrilling novel that ranges back into the days of World War II, into friendships, families, liaisons, betrayals, and the code of honor that binds the U.S. Navy SEALs, *Gone Too Far* is an electrifying experience in suspense—and a brilliant tale of lives lived on the edge. From the Hardcover edition.

Eddie Woo's Magical Maths

"Don't waste time contemplating whether or not this program could work for you. Trust me - it will work! Take this from someone who has struggled for the last 10 years and finally lost the weight. If I knew I could lose weight so easily and quickly I would have tried NutriSystem sooner!" -Zora Andrich, reality TV star lost 20 lbs. in two months (results not typical) The highly anticipated companion book to NutriSystem?? Nourish?™, the breakthrough weight-loss program Do you want to lose weight and not feel hungry? Would you like to find a way to drop unwanted pounds that actually fits into your lifestyle? Welcome to NutriSystem Nourish, the integrated program that lets you put the past behind you and gives you the tools you need to start losing weight right now! The NutriSystem Nourish program is designed to work—offering real solutions for busy lifestyles and making your metabolism function at its highest level to yield breakthrough weight-loss results. Based on the latest dieting and nutritional research, NutriSystem Nourish is the Good Carb Answer?™. * Can help you lose weight because it's the Good Carb Answer?™ that's rich in good carbs, yet still low in fat * Features 28 days of simple and practical meal plans, 4 weeks of exercise plans, and 75 delicious recipes * Incorporates easy movement and exercise tips, fast relaxation tools, positive thinking, and inspiration, as well as optional prepared meals * Packed with weight-loss tips and techniques, sidebars, and mental exercises designed to increase your weight-loss success!

Howling at the Moon

"Many know Kimberly Williams-Paisley as the bride in the popular Steve Martin remakes of the *Father of the Bride* movies, the calculating Peggy Kenter on *Nashville*, or the wife of country megastar Brad Paisley. But in 2014, Williams-Paisley revealed a secret: her mother had been diagnosed with a rare form of dementia called Primary Progressive Aphasia at the age of sixty-one. In [this memoir], Williams-Paisley tells the full story of her mother's illness, from diagnosis through the present-day, drawing on her memories of her relationship with the fascinating, complicated, and successful woman who raised her"--

Code Check Electrical

Handbook of Low Carbon Concrete

The focus of *Thermodynamics: Concepts and Applications* is on traditional thermodynamics topics, but structurally the book introduces the thermal-fluid

sciences. Chapter 2 includes essentially all material related to thermodynamic properties clearly showing the hierarchy of thermodynamic state relationships. Element conservation is considered in Chapter 3 as a way of expressing conservation of mass. Constant-pressure and volume combustion are considered in Chapter 5 - Energy Conservation. Chemical and phase equilibria are treated as a consequence of the 2nd law in Chapter 6. 2nd law topics are introduced hierarchically in one chapter, important structure for a beginner. The book is designed for the instructor to select topics and combine them with material from other chapters seamlessly. Pedagogical devices include: learning objectives, chapter overviews and summaries, historical perspectives, and numerous examples, questions and problems and lavish illustrations. Students are encouraged to use the National Institute of Science and Technology (NIST) online properties database.

Paradise Awakening

Raytheon's history is one of the great American success stories. Launched in 1922, the Cambridge-based company quickly moved to the forefront of innovation in the electronics industry. During World War II, thousands of Raytheon workers contributed to the war effort, supplying eighty percent of the magnetron tubes (vital components for U.S. and British radars), developing miniature tubes for the crucial proximity fuse in anti-aircraft shells, and providing entire radar systems. Although government contracts slowed after World War II, Raytheon continued to develop military components, including leading-edge radars and missiles for America's defenses in the Cold War, but it also began to offer a host of civilian products: the famous RadaRange (the world's first microwave oven), televisions, marine radars, transistors, miniature hearing aids, and medical equipment.

Shanghai Business Travel Guide

Rick Hoyt was born a spastic quadriplegic with cerebral palsy. Doctors advised his parents, that their offspring would be "nothing more than a vegetable."

The Poems of Thomas Davis

NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham reveals how the Founding Fathers viewed faith—and how they ultimately created a nation in which belief in God is a matter of choice. At a time when our country seems divided by extremism, *American Gospel* draws on the past to offer a new perspective. Meacham re-creates the fascinating history of a nation grappling with religion and politics—from John Winthrop's "city on a hill" sermon to Thomas Jefferson's Declaration of Independence; from the Revolution to the Civil War; from a proposed nineteenth-century Christian Amendment to the Constitution to Martin Luther King, Jr.'s call for civil rights; from George Washington to Ronald Reagan. Debates about religion and politics are often more divisive than illuminating. Secularists point to a "wall of separation between church and state," while many conservatives act as though the Founding Fathers were apostles in knee britches. As Meacham shows in this brisk narrative, neither extreme has it right. At the heart of the American experiment lies the God of what Benjamin Franklin called "public

religion," a God who invests all human beings with inalienable rights while protecting private religion from government interference. It is a great American balancing act, and it has served us well. Meacham has written and spoken extensively about religion and politics, and he brings historical authority and a sense of hope to the issue. *American Gospel* makes it compellingly clear that the nation's best chance of summoning what Lincoln called "the better angels of our nature" lies in recovering the spirit and sense of the Founding. In looking back, we may find the light to lead us forward. Praise for *American Gospel* "In his *American Gospel*, Jon Meacham provides a refreshingly clear, balanced, and wise historical portrait of religion and American politics at exactly the moment when such fairness and understanding are much needed. Anyone who doubts the relevance of history to our own time has only to read this exceptional book."—David McCullough, author of *1776* "Jon Meacham has given us an insightful and eloquent account of the spiritual foundation of the early days of the American republic. It is especially instructive reading at a time when the nation is at once engaged in and deeply divided on the question of religion and its place in public life."—Tom Brokaw, author of *The Greatest Generation*

One Letter at a Time

The JF/J2F "Duck" was one of those military workhorses moving around in the background before and during WWII which did a tremendous job but never got the publicity of its' more glamorous teammates. Some said the Duck could be more aptly named the "Ugly Duckling." Be that as it may; when no other bomber could be found, it carried bombs; when no other transport could be found, it transported; when no other photo plane could be found, it photographed and when no other rescuer could be found, it rescued. When it came to "Utility Craft," the JF/J2F was the definitive.

Transylvania--the Facts

ARE Review Manual

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony

executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of “Sexual Healing”—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Fabulous Friends

Blood and Stone

Design Fundamentals for Low-Voltage Distribution and Control provides practical guidelines for all aspects of this vital topic. Linking theoretical principles with real hardware designs, the book will help engineers meet safety and regulatory standards, reduce redesign costs, shorten product development and testing cycles, and develop more reliable, efficient equipment. This outstanding reference highlights the determination of reactance and resistances of conductors, discusses heat transfer problems in industrial apparatus . . . and considers shortcircuit and ground fault calculations as well as temperature rise and forces occurring under fault conditions. *Design Fundamentals for Low-Voltage Distribution and Control* applies thermodynamic principles to electrical equipment, including coverage of heat transfer equations, calculation examples for conductor sizes, and insulation. It provides empirical models to show how higher order theoretical equations can be practically approximated . . . and includes sample calculations for magnet size, circuit breakers, fault current, arc interruption, and other properties and equipment. In addition, the book compares design requirements for both U.S. and European equipment. Featuring numerous equations, graphs, tables, test procedures, and diagrams, *Design Fundamentals for Low-Voltage Distribution and Control* is an invaluable practical guide for electrical and electronics, design, project, and power engineers involved with the design and application of electrical apparatus; and graduate students of electrical engineering, power engineering, and electro technology.

Gone Too Far

Serena Graham is looking forward to the vacation of a lifetime—a week at Paradise Resort, a Caribbean hideaway where she'll be able to indulge her every sexual fantasy with complete abandon and total anonymity. For the next week, she's Sexy Siren Serena and she'll do whatever she wants—with whomever she wants. Michael Donovan planned a week at Paradise Resort to research his next erotic crime novel, as well as indulge in some hot sex with his fashion model girlfriend. But when he finds his now ex-girlfriend has other plans, he's resigned to research without recreation. That is, until Serena shows up at his door claiming he's occupying her room! After a little negotiating, Michael and Serena become roommates, and Serena boldly asks Michael to be her lover for the week. How can he pass up the opportunity to mix a little pleasure with business? But despite their vow to keep their relationship strictly physical, they find much more than passion in paradise.
