Literary Digest

"Travel is no longer a past-time but a colossal industry, arguably one of the biggest in the world and second only to oil in importance for many poor countries. One out of 12 people in the world are employed by the tourism industry which contributes \$6.5 trillion to the world's economy. To investigate the size and effect of this new industry, Elizabeth Becker traveled the globe. She speaks to the Minister of Tourism of Zambia who thinks licensing foreigners to kill wild animals is a good way to make money and then to a Zambian travel guide who takes her to see the rare endangered sable antelope. She travels to Venice where community groups are fighting to stop the tourism industry from pushing them out of their homes, to France where officials have made tourism their number one industry to save their cultural heritage; and on cruises speaking to waiters who earn \$60 a month--then on to Miami to interview their CEO. Becker's sharp depiction reveals travel as a

product; nations as stewards. Seeing the tourism industry from the inside out, the world offers a dizzying range of travel options but very few quiet getaways"--

Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and Polynesia. The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization – and their consequences on contemporary society. History of

International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations theory, history, and contemporary politics.

Does this book really have over 127 tips and tools for planning an international trip? Well, let's just say we stopped counting at that number. You see, this little handbook is packed with over 127 insights, websites, and resources that are

essential for any traveler planning to go abroad. Are the tips and tools really secret? Actually yes, they are secret—at least no one told us about them before we journeyed abroad and we had done a lot of research and preparation. We had to discover many of them the hard way as we traveled around the world to more than 70 countries. These are the secrets we wished we had found, in a concise and consolidated book like this one, before we went abroad. Why did we write this book? We love to travel, and the more we traveled the world, the more we learned how to travel smarter, safer, and cheaper. When friends realized how much traveling we had done, the more questions they would ask us about how to travel. We soon realized we could answer just about every question that came our way. That is when we decided to share our travel knowledge as a way to help, enable, and inspire others to travel abroad. From that desire sprang over twenty classes that we teach in person and online, as well as this handbook, the first book in our Travel Smart Strategies series. Now you can travel smarter, safer, and cheaper too. Happy Travels!

Today, travel has become more accessible to the common person than any point in human history. But with more opportunities to explore the world comes an idealistic image of what travel represents and the freedom it brings. We've constructed an identity of the traveler based on what travel bloggers and social media feeds show usf,, "f,, €f,, "bikinis, islands, and views from the top of a mountainf,, "f,, €f,, "when in actuality many full-time travelers struggle to navigate the challenges of life and gain the satisfaction they set out looking for. Satisfaction, it turns out, that can be hacked and brought into daily life, no matter where on the planet you are.
