Ward Larsen's Assassin's Run revives globe-trotting, hard-hitting assassin David Slaton for another breathless adventure.

When a Russian oligarch is killed by a single bullet on his yacht off the Isle of Capri, Russian intelligence sources speculate that a legendary Israeli assassin, long thought dead, might be responsible. However, David Slaton--the assassin in question--is innocent. Realizing the only way to clear his name is to find out who's truly responsible, he travels to Capri. While he searches, a web of disparate events unfolds across the world. Three ships, owned by the group of Russians, deliver a mysterious cargo to the shores of the Arabian Peninsula. In Morocco, a Russian aerospace company begins flight testing an innovative new drone. From Switzerland to the Red Sea to Morocco, Slaton uncovers a conspiracy of monumental scope. It is a plot that will change the world strategic order--and one that goes straight to the top of the Russian government.

Thirteen-year-old Bina has a long summer ahead of her. She and her best friend, Austin, usually do everything together, but he's off to soccer camp for a month, and he's been acting kind of weird lately anyway. So it's up to Bina to see how much fun she can have on her own. At first it's a lot of guitar playing, boredom, and bad TV, but things look up when she finds an unlikely companion in Austin's older sister, who enjoys music just as much as Bina. But then Austin comes home from camp, and he's acting even weirder than when he left. How Bina and Austin rise above their growing pains and reestablish their friendship and respect for their differences makes for a touching and funny coming-of-age story.

Defy (Defy, Book 1)

This devastating book illuminates America's gun culture -- its manufacturers, dealers, buffs, and propagandists -- but also offers concrete solutions to our national epidemic of death by firearm. It begins with an account of a crime that is by now almost commonplace: on December 16, 1988, sixteen-year-old Nicholas Elliot walked into his Virginia high school with a Cobray M-11/9 and several hundred rounds of ammunition tucked in his backpack. By day's end, he had killed one teacher and severely wounded another. In *Lethal Passage* Erik Larson shows us how a disturbed teenager was able to buy a weapon advertised as "the gun that made the eighties roar." The result is a book that can -- and should -- save lives, and that has already become an essential text in the gun-control debate. With a new afterword. "Touches on all aspects of the gun issue in this country. Gives great voice to that feeling that something real must be done." --San Diego Union-Tribune "One of the most readable anti-gun treatises in years." --Washington Post Book World

Project Management in Practice, Second Edition

'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The

other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .

#1 New York Times Bestseller From the bestselling author and master of narrative nonfiction comes the enthralling story of the sinking of the Lusitania On May 1, 1915, with WWI entering its tenth month, a luxury ocean liner as richly appointed as an English country house sailed out of New York, bound for Liverpool, carrying a record number of children and infants. The passengers were surprisingly at ease, even though Germany had declared the seas around Britain to be a war zone. For months, German U-boats had brought terror to the North Atlantic. But the Lusitania was one of the era's great transatlantic "Greyhounds"—the fastest liner then in service—and her captain, William Thomas Turner, placed tremendous faith in the gentlemanly strictures of warfare that for a century had kept civilian ships safe from attack. Germany, however, was determined to change the rules of the game, and Walther Schwieger, the captain of Unterseeboot-20, was happy to oblige. Meanwhile, an ultra-secret British intelligence unit tracked Schwieger's U-boat, but told no one. As U-20 and the Lusitania made their way toward Liverpool, an array of forces both grand and achingly small—hubris, a chance fog, a closely guarded secret, and more—all converged to produce one of the great disasters of history. It is a story that many of us think we know but don't, and Erik Larson tells it thrillingly, switching between hunter and hunted while painting a larger portrait of America at the height of the Progressive Era. Full of glamour and suspense, *Dead Wake* brings to life a cast of evocative characters, from famed Boston bookseller Charles Lauriat to pioneering female architect Theodate Pope to President Woodrow Wilson, a man lost to grief, dreading the widening war but also captivated by the prospect of new love. Gripping and important, *Dead Wake* captures the sheer drama and emotional power of a disaster whose intimate details and true meaning have long been

obscured by history.
