With vivid photography and insightful commentary, this travel pictorial shines a light on the Buddhist art and architecture of Borobudur. The glorious ninth-century Buddhist stupa of Borobudur—the largest Buddhist monument in the world—stands in the midst of the lush Kedu Plain of Central Java in Indonesia, where it is visited annually by over a million people. Borobudur contains more than a thousand exquisitely carved relief panels extending along its many terraces for a total distance of more than a kilometer. These are arranged so as to take the visitor on a spiritual journey to enlightenment, and one ascends the monument past scenes depicting the world of desire, the life story of Buddha, and the heroic deeds of other enlightened beings—finally arriving at the great circular terraces at the top of the structure that symbolize the formless world of pure knowledge and perfection.

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

This comprehensive, practical guide explores how contemporary furniture is used within interior design to define a space, create division and enclosure, and alter or

redefine circulation. Initial chapters illustrate the different contexts in which furniture is used, from the office and domestic interiors to retail and exhibition space; look at types of furniture, whether off-the-shelf or bespoke; and explore the new vogue for recycling and vintage. Later chapters examine both traditional materials such as wood and the more unusual such as stone and glass, while also explaining new methods of manufacture - such as Computer Numerical Controlled and Selected Laser Sintering. The final chapter looks at how a design is developed, the site surveyed, prototypes made and specifications and schedules drawn up. Furniture for Interior Design is a detailed, highly illustrated guide to specifying and placing existing manufactured furniture, but also shows the reader how to design, detail, and commission batch-produced furniture or one-off, site-specific pieces.
