'fast track' route to allow for early presentation. Non-calculator work clearly identified throughout all books. Parallel content between all books allows movement between levels. 'Review' sections at the beginning of each chapter enable students to consolidate learning from previous chapters and establish knowledge required to proceed with the topic. 'Recap' sections provide summaries of the chapter, making them an ideal revision tool. 'Revise' sections contain end of chapter exercises for revision and assessment, building up to exam style questions to ensure thorough preparation for exams.

### **Mathematical Questions and Solutions, from the "Educational Times."**

National 5 Mathematics Practice Papers for SQA Exams will help you to prepare for the look and feel of the exam. All the papers will provide extensive practice and reflect the type and level of questions students are likely to meet; the formats of different question papers and assessment methods; and the type of marking schemes used by the SQA.

This booklet explains how the ERIC (Educational Resources Information Center) and ECER (Exceptional Child Education Resources) databases can be used to find information about the education of individuals who have disabilities or who are gifted. The guide describes ERIC as a federally funded information system with a database of over 400,000 journal annotations and 300,000 education-related document abstracts. It discusses the clearinghouses that comprise ERIC and outlines how ERIC can be accessed, how to search ERIC manually or by computer, how to locate subject descriptors for search topics and apply Boolean logic to a search, and where to get copies of materials found in ERIC. ECER is then described as a database of citations and abstracts of English-language print and nonprint materials dealing with education and development of people of all ages with disabilities or giftedness. ECER's content is distinguished from ERIC's and search procedures are outlined. The two final chapters discuss services of ERIC clearinghouses and

procedures for contributing documents to the ERIC database. Appendixes provide an ERIC search worksheet; ERIC descriptors for disabilities and giftedness; ERIC publication types; order forms for ERIC articles and documents; sample document resumes; guidelines for accessing ERIC through computer networks; and lists of organizations in the field of disabilities and giftedness, special education databases, ERIC clearinghouses, special education journals, online vendors, and 13 print resources. (JDD)

Exam Board: SQA Level: Higher Subject: Science First Teaching: September 2014 First Exam: June 2015 Higher Chemistry for CfE is tailored specifically to the extended requirements, teaching approaches and syllabus outlines detailed in the Higher Chemistry revisions for Curriculum for Excellence, to be examined 2015 onwards. A significant proportion of the text is also appropriate for teaching the Revised Higher syllabus being examined 2012-2015. Each section of the book matches a unit of the CfE syllabus; each chapter corresponds to a content area. End-of-course questions, a chemical dictionary and a full index are also provided, with key learning points summarised throughout to help students revise. The book demonstrates the relevance of the chemistry being studied by offering students examples of how the chemical industry applies basic chemistry principles to its everyday operation. A with answers version of the text is also available (978 1444 16752 8). - The only textbook for the Higher Chemistry for
