American Government

A groundbreaking prescription for health care reform--from a legendary leader in innovation . . . Our health care system is in critical condition. Each year, fewer Americans can afford it, fewer businesses can provide it, and fewer government programs can promise it for future generations. We need a cure, and we need it now. Harvard Business School's Clayton M. Christensen—whose bestselling *The Innovator's Dilemma* revolutionized the business world—presents *The Innovator's Prescription*, a comprehensive analysis of the strategies that will improve health care and make it affordable. Christensen applies the principles of disruptive innovation to the broken health care system with two pioneers in the field—Dr. Jerome Grossman and Dr. Jason Hwang. Together, they examine a range of symptoms and offer proven solutions. YOU'LL DISCOVER HOW “Precision medicine” reduces costs and makes good on the promise of personalized care Disruptive business models improve quality, accessibility, and affordability by changing the way hospitals and doctors work Patient networks enable better treatment of chronic diseases Employers can change the roles they play in health care to compete effectively in the era of globalization Insurance and regulatory reforms stimulate disruption in health care

House Made of Dawn [50th Anniversary Ed]

E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text,

enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

The American Vision

"On the basis of a superficial inspection, Traditions & Encounters might look similar to several other textbooks that survey the world's past. Like other books, for example, Traditions & Encounters examines the historical development of societies in Asia, Europe, Africa, the Americas, and Oceania. Yet Traditions & Encounters differs from other works in two particularly important ways. First, it relies on a pair of prominent themes to bring a global perspective to the study of world history: it traces the historical development of individual societies in all world regions, and it also focuses attention systematically on interactions between peoples of different societies. Second, it organizes the human past into seven eras that represent distinct and coherent periods of global historical development"--Preface (Page xvi).

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Human Heritage

Glencoe World History

The magnificent Pulitzer Prize-winning novel of a stranger in his native land “Both a masterpiece about the universal human condition and a masterpiece of Native American literature. . . . A book everyone should read for the joy and emotion of the language it contains.” – The Paris Review A young Native American, Abel has come home from war to find himself caught between two worlds. The first is the world of his father’s, wedding him to the rhythm of the seasons, the harsh beauty of the land, and the ancient rites and traditions of his people. But the other

world—modern, industrial America—pulls at Abel, demanding his loyalty, trying to claim his soul, and goading him into a destructive, compulsive cycle of depravity and disgust.

The Innovator's Prescription: A Disruptive Solution for Health Care

This remarkable anthology introduces the short fiction of fourteen writers, major figures in the literary movements of three generations, who represent a range of class, ethnic, age, and political perspectives. It is filled with "unexpected gems", writes Scarlet Cheng in *Belles Lettres*, including Lin Hai-yin's story of a woman suffering under a feudal system that dominated Old China; Chiang Hsiao-yun's optimistic solutions to problems of the elderly in the rapidly changing Taiwan of the 1980; and in between, a dozen richly diverse stories of aristocrats, comrades, wifes, concubines, children, mothers, sexuality, rape, female initiation, and the tensions between traditional and modern life. "This is not western feminism with an Asian accent", says *Bloomsbury Review*, "but a description of one culture's reality. The woman protagonists survive both despite and because of their existence in a changing Taiwan." This book includes biographical headnotes, an introduction that addresses the literary movements represented, and an extensive bibliography.
