## **Introduction to Maternity & Pediatric Nursing - E-Book**

### **Clinical Reasoning Cases in Nursing**

Tap into 150 unique case studies covering all four clinical practice areas: medical-surgical, pediatric, OB/maternity, and psychiatric nursing, all newly organized to facilitate a conceptual approach to teaching and learning. Each case covers a common patient problem, drawn from actual clinical experiences and written by nurses who are clinical experts. Cases include integrated content on pharmacology, nutrition, and diagnostic/laboratory tests to encourage you to think critically about all aspects of patient care. The 7th edition features a new concept-based organization, an enhanced focus on interprofessional collaboration and

QSEN, 20 all-new case studies, and updated content throughout to reflect the most current standards of clinical practice.

### **Medical-Surgical Nursing**

Healthcare is evolving at an incredible pace and with it, the roles and responsibilities of the medical-surgical nurse. Ensure you are fully equipped to thrive and adapt in this ever-changing nursing environment with Ignatavicius, Workman, and Rebar's Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care, 9th Edition. This text not only covers all essential adult health knowledge, but also reinforces the application, conceptual thinking, and clinical judgment skills that today's nurses need to stay one step ahead in delivering exceptional patient care, no matter the environment. As with previous editions, you'll find a unique collaborative care approach to adult health nursing, a thorough integration of QSEN competencies, extensive NCLEX® Exam preparation, and a direct, reader-friendly tone throughout the text. This ninth edition incorporates two emerging and complementary trends -- the Core Competencies for

Interprofessional Collaborative Practice and a more conceptual approach teaching and learning -- areas that will ground you in how to think like a nurse and how to apply the knowledge you gain from the text to clinical practice.

## **Manual of Medical-surgical Nursing**

An all-inclusive guide to fundamentals and medical-surgical nursing for the LPN/LVN, Foundations and Adult Health Nursing, 7th Edition covers the skills you need for clinical practice, from anatomy and physiology to nursing interventions and maternity, neonatal, pediatric, geriatric, mental health, and community health care. Guidelines for patient care are presented within the framework of the five-step nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. Written by Kim Cooper and Kelly Gosnell, this text includes all of the content from their Foundations of Nursing and Adult Health Nursing books, including review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each. The 5-step Nursing Process connects specific disorders to patient care - with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter

along with an overview of A&P in all body systems chapters. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion Considerations, Complementary and Alternative Therapy, Cultural Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. A focus on preparing for the NCLEX examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. UNIQUE! Delegation Considerations boxes provide parameters for delegation to nurse assistants, patient care technicians, and unlicensed assistive personnel. Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills.

## **Manual of Medical-Surgical Nursing Care - E-Book**

## **NCLEX-RN Questions & Answers Made Incredibly Easy!**

Gain the knowledge and skills you need to effectively care for adult patients. Medical-Surgical Nursing, 7th Edition covers both medical-surgical and psychiatric mental health conditions and disorders while building on the fundamentals of nursing. This essential text focuses on nursing roles, settings, trends, body systems and their disorders, and emergency and disaster management. Unique to this edition is the gerontologic nursing unit which addresses physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient - the primary patient group population you'll encounter in practice. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN® test plan content. With updated guidelines on diabetes, heart failure, asthma, COPD, and cancer treatment protocols, no other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. UNIQUE! Gerontologic nursing unit covers physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient, the primary patient group for whom LPNs provide care. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. Nursing care plans reinforce the nursing process and focus

on critical thinking. Get Ready for the NCLEX-PN® Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX® Client Needs categories. Coordinated Care boxes highlight team approach to patient care, helping you to prioritize tasks and assign them safely to assistive personnel. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Cultural Considerations boxes discuss the importance of providing culturally competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Nutritional Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Complementary and Alternative Therapies focus on nontraditional therapies along with precautions and possible side effects. Key terms with phonetic pronunciations help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English before they enter clinical practice. NEW! Organization of disorders units consolidates anatomy and physiology, nursing assessment/data collection, and diagnostic tests into one chapter. NEW! Updated guidelines on diabetes, heart failure, asthma, COPD, and cancer provides you with latest treatment protocols.

## **Medical-Surgical Nursing**

### **Roach's Introductory Clinical Pharmacology**

Medical-Surgical Nursing: Clinical Management for Positive Outcomes, 8th Edition takes you from basic to advanced medical-surgical nursing with an enhanced multimedia package that makes it easier to learn and apply concepts. This text provides a reliable foundation in anatomy and physiology, pathophysiology, medical management, and nursing care for the full spectrum of adult health conditions. The roles of various healthcare professionals in managing each disorder and are clearly outlined, and evidence-based practice and clinical guidelines are integrated throughout the text. UNIQUE! Evidence-Based Practice icons identify statements based on primary research or standardized guidelines and teach you to

base your practice on solid research evidence. Translating Evidence into Practice boxes present a topic in the form of a clinical question and summarize the conclusions of 4-5 research articles, encouraging you to judge the research for yourself and consider how it relates to the nursing setting. Care Plans highlight nursing diagnoses and collaborative problems, expected outcomes, interventions with rationales, and evaluation to help you prioritize tasks and determine the appropriate treatment. Thinking Critically questions at the end of each nursing care chapter pose short, typical client scenarios followed by questions about what actions to take to test your critical thinking skills. Concept Maps illustrate the links among pathophysiological processes, clinical manifestations, medical treatment, and nursing interventions. Integrating Pharmacology boxes help you understand how medications can be used for disease management by exploring common classifications of routinely used medications. Bridge to Critical Care and Bridge to Home Health Care boxes introduce you to critical care and home health nursing by connecting these related specialties to medical-surgical nursing. Feature boxes highlight issues in Critical Monitoring, Management and Delegation, Genetics, Terrorism, Community-Based Practice, and Physical Assessment in the Healthy Adult.

Lewis's Medical-Surgical Nursing ANZ 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the new edition responds to key health priorities, providing an innovative approach to

addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment. Additional resources on Evolve eBook on VitalSource Student and Instructor Resources Review Questions Conceptual Care Map creator Student Case studies Fluids and Electrolytes tutorial Nursing Care Plans Instructor Resources Test Bank PowerPoint slides Image bank Now available in either hard cover or 2-volume set paperback formats New chapters: Chapter 3: Stress and coping. This chapter explores theoretical models of stress, the impact of stress on human functioning, and strategies for coping with stress in the context of nursing practice and healthcare delivery Chapter 5: Working with Indigenous peoples of Australia and New Zealand. Co-authored by highly respected Indigenous and non-Indigenous academics from Australia and New Zealand, the chapter role-models Indigenous and non-Indigenous health professionals working alongside each other to improve health outcomes, and the practical role that nurses can play to improve the healthcare experiences of Indigenous people. Chapter 69: Recognising and responding to the deteriorating patient. Authored by one of Australia's leaders in emergency response education, this chapter is designed to develop capability in relation to the National Safety and Quality Health Service Standards 2017, specifically Standard 8: Recognising and responding to acute deterioration. Chapter 70: Cardiopulmonary resuscitation: basic and advanced life support. Based

on the Australian and New Zealand Committee on Resuscitation (ANZCOR) guidelines, this chapter promotes a problem-solving approach to the management of a patient in cardiac arrest by providing the science behind the techniques and interventions used to treat a patient in cardiac arrest.

A supplement for a variety of junior/senior-level courses in Critical Care or Advanced Med-Surg Nursing courses and others throughout the nursing curriculum. Written by practicing nurses in acute care, this text provides students with a basic understanding of complex patients and the ability to provide nursing care across a variety of settings by using a series of reality-based, self-paced, self-contained modules that focus on multiple system problems frequently encountered in working with high acuity patients. Using a "nuts and bolts" approach, it addresses essentials by using examples, analogies, and metaphors; focuses on concepts and principles that can be applied across practice settings and patient populations; and includes nursing diagnoses. The modules progress from simple to complex and contain pretests and posttests with answers, learning objectives, glossary, abbreviations, and review questions and answers.

fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, Medical-Surgical Nursing reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies. UNIQUE! LPN Threads share learning features with Elsevier's other LPN textbooks, providing a consistency across the Elsevier LPN curriculum. Key Terms include phonetic pronunciations and text page references. Key Points are located at the end of chapters and summarize chapter highlights. Overview of Anatomy and Physiology at the beginning of each body system chapter provides basic information for understanding the body system and its disorders. Nursing Process provides a consistent framework for disorders chapters. Evidence-Based Practice is highlighted with special icons indicating current research. Assignment Considerations boxes address situations in which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data/information for specific disorders. Elder Care Points boxes address the unique medical-surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes

encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical-surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical-surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for the NCLEX-PN Examination at the end of each chapter include alternate-item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant

questions, allowing you to hone your critical thinking skills. UNIQUE! Best Practices are highlighted to show the latest evidence-based research related to interventions. Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence-based practices. UNIQUE! Icons in page margins point to related animations, video clips, additional content, and related resources on the Evolve site.

### **Medical-surgical Nursing**

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information

applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination.

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course by providing realistic scenarios and supportive learning resources that correspond to Lewis: Medical-Surgical Nursing, 8th Edition.

The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

### **Brunner's Textbook of Medical-Surgical Nursing 14th Edition 2-Vol + Sg + Lab Handbook + Clinical Handbook Package**

One of the most complete nursing education learning systems available, Virtual Clinical Excursions (VCE) is an interactive print and online workbook that guides you through a virtual hospital where the patients are real and their conditions are constantly changing. Each lesson features a core reading assignment from Medical-Surgical Nursing, 7th Edition along with activities based on "visiting" the patients in the hospital. By immersing you in a realistic, yet safe, nursing environment, VCE simulates the average clinical rotation by allowing you to conduct a complete assessment of a patient and set priorities for care, collect information, analyze and

interpret data, prepare and administer medications, and reach conclusions about complex problems. This unique virtual setting is the best way to learn about the complexities of patient care by giving you the perfect environment to practice what you've learned. Please refer to the individual product pages for the duration of access to these products. UNIQUE! Patient records that house data from the virtual patient's hospital stay allows you to record new findings to see how the data for different attributes has changed over time. Physical examination experience with unique images and assessment findings advance your understanding of each patient's system assessments. Nurse-client interaction videos depict conversations and situations involving nurses, patients, family members, and hospital staff to help you discern between communications that are ideal and those that need improvement. Patient medication administration enhances your ability to think critically about safe medication practices and follow safe medication standards. Allows for easy and quick access to various patient charts, including Physician's Orders, Laboratory Reports, Patient Education, Nursing Admission, and many more. Nursing information regarding patients' acute care provides quick access to vital information such as physician's orders, laboratory reports, patient education, nursing admission, and more, offering a richly detailed portrait of the patient. Drug reference includes a comprehensive set of drug monographs to help you make the best clinical judgments. Vital signs tool within each patient's room allows you to check the patient's status at critical moments, and promote safe practice. Laboratory guide provides standard value ranges for all laboratory values offered

within the virtual patient hospital, so you can confirm and compare standard lab values against your patients' test results. Online workbook guides you throughout the patient scenarios to collect information, make decisions, and set priorities. NEW! Updated content from the 7th edition of the Medical-Surgical Nursing textbook addressed through patient care activities in the VCE workbook, providing you with active learning of the latest evidence-based care.
