Windows Server 2012 Inside Out

Vaccination programmes now represent a major part of the effort devoted to improving the health of children in developing countries. These donor-funded programmes tend to be global in scope and focus on worldwide goals and targets such as 'polio eradication', and the Millennium Development Goals. Health policy makers at the national level are expected to implement these programmes in a standard manner and report progress according to a few standard indicators.

Pressures and incentives to achieve the targets set are then transmitted down to the community level health worker who actually meets the parents and children to implement the programmes. Drawing on first hand, original research in India and Malawi carried out by the contributors, as well as existing literature, *Protecting the World's Children: Immunisation policies and practices* suggests that there is little or no scope allowed for the effects of variance in the way health systems work, the difficulties and tensions faced by health workers, or differences in the way people think about childhood illnesses that reflect cultural differences. The book argues that the need to show progress can create distortions and lead to the production of misleading data and an unwillingness to report problems. It proposes that vaccines could more effectively serve children's health needs if immunisation programmes are better understood and acknowledged, and if local knowledge and realities were enabled to inform national and international health policy. Written by an international, interdisciplinary team of experts in immunisation policy, *Protecting the World's Children* is an integrative study of immunisation policy and practice at a global, national and community level, and is an essential resource for researchers and practitioners in international and public health, as well as professionals in international and development studies.

through theme building, custom layouts, colors, and deployment. Echo Swinford and Julie Terberg have distilled their immense PowerPoint knowledge into simple, step-by-step techniques you can use right now, whether you're using PowerPoint 2010 or 2007 for Windows, or PowerPoint 2011 for Mac. Well-built templates are the backbone of great presentations—whether building them for your own use or designing for thousands of users, this book will guide you through the process of creating the most effective templates. Important Note: Upgrading from older versions of PowerPoint, such as PowerPoint 2003? Your old templates may no longer work. This book will help you make the transition painlessly!

- Plan new templates and themes to maximize their business value for years to come
- Understand the differences between templates and themes, and how they work together
- Make better choices about color, fonts, and slide layouts
- Create efficient templates for individual users, teams, and large organizations
- Incorporate Notes and Handout Masters into your presentation templates
- Provide example slides and default settings that lead to better presentations
- Use Microsoft's little-known Theme Builder to create effects and background styles
- Work around hidden quirks in PowerPoint's advanced template and theme features

Echo Swinford, a Microsoft PowerPoint MVP since 2000, has been a featured speaker at the Presentatio Summit (formerly PowerPoint Live) since its inception. She is the expert voice and instructor behind PowerPoint 2010 LiveLessons (Video Training), the author of *Fixing PowerPoint Annoyances* and co-author of *The PowerPoint 2007 Complete Makeover Kit*. Julie Terberg is a Microsoft PowerPoint

MVP and featured speaker at the Presentation Summit. She is the owner of Terberg Design and has been designing presentations since the mid-1980s. She is co-author of Perfect Medical Presentations. As contributing author for Presentations Magazine, she won awards for her Creative Techniques columns.

Ambitious in nature, the Istanbul Programme of Action (IPoA) for the Least Developed Countries (LDCs) adopted by the Fourth United Nations Conference on the LDCs (UN LDC IV) in 2011, sets out a development path for LDCs for the coming decade. Successful implementation of the IPoA requires identification of delivery tools for specific targets, provision of necessary financial and non-financial resources, and a strengthened monitoring mechanism. LDC IV Monitor, an independent partnership of eight interested organisations, aims to add value by enhancing transparency, accountability and efficiency of the official monitoring and review mechanism of the IPoA. LDC IV Monitor's first set of two reports, produced outside of the official intergovernmental process, provide credible, evidence-based and policy-oriented assessment of the delivery status of the promises contained in the IPoA. The Synthesis Report, derived from the critical analyses of the state of play concerning the IPoA, presents the broad messages and key recommendations. The volume on Analytical Perspectives addresses a wide spectrum of issues including articulation of a composite IPoA index, building of productive capacity,

trade in goods and services, delivery of the Millennium Development Goals (MDGs), flows of different forms of development finance, and consequences of climate change. The publications seek to contribute towards crafting national and international policies to support graduation of the LDCs through structural transformation of their economies.
