The 650th anniversary of the foundation of Wingfield College was the occasion for a special two-day symposium marking the culmination of a three-year UEA-funded research project into the college and castle. The building projects of the late medieval aristocracy focused on their homes and the monasteries, churches or chantry foundations under their patronage where their family were buried and commemorated. This commemoration allowed a visual celebration of their achievements, status and lineage, the scale and prestige of which reflected on the fortunes of the family as a whole. Wingfield is explored in the context of both the actual building of the castle, chantry chapel and the college, and that of the symbolic function of these as a demonstration of aristocratic status. The contributions to this book examine many topics which have hitherto been neglected, such as the archaeology of the castle, which had never been excavated, the complex history of the college's architecture, and the detailed study of the monuments in the church. The latest techniques are used to reconstruct the college and castle, with a DVD to demonstrate these. And the context of the family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history, as soldiers, administrators and potential claimants to the throne.

Slippery Jim diGriz is in the process of robbing the new Mint on Paskonjak when the heist goes terribly wrong. Threatened with a horrific death, Slippery Jim is allowed to cut a deal with the Galactic League: voyage to the planet Liokukae and bring back a missing artifact - the only known evidence of alien life-forms found in 32,000 years of galactic exploration. For diGriz there are a few catches. One is Liokukae itself - a dumping ground for the League's misfits, murderers, maniacs, and the incurably obnoxious. Another is a little matter of life and death. To ensure the utterly untrustworthy diGriz's cooperation, the League has given him a slow-acting poison, allowing him thirty days in which to succeed . . . or die. Now the Stainless Steel Rat is on his way to a world that is hurtling backward down the evolutionary scale - a land of fanatic, goat-herding Fundamentaloids, murderous

Machmen, and a rusty guru named Iron John. DiGriz has developed an almost perfect cover: a four-member rock band that has a way of giving its audiences what they want to hear. But while the days tick away and diGriz's life expectancy lowers, the mission evolves from finding an artifact to liberating a planet . . . which is a tune the Stainless Steel Rat most certainly knows how to sing.

key directors, major stars and important music directors and screenplay writers. Historically important films have been included along with certain cult movies and top box office successes.
