Ciro Donati was many things: My father's most valued and trusted soldier. My brother's best friend and second in command. And the only man I would give up everything for. I fell hard for the Mafioso at the tender age of eleven. This beast of a man who I knew made people disappear-and probably enjoyed every second of it-was also the sixteen-year-old boy who had picked me up after I'd fallen flat on my face during my dance recital and told me I was the best ballerina he'd ever seen. He's watched over me, protected me like I was the most precious thing in the world to him. And then he sent me away. Scarlett Vitucci was many things: The daughter of the biggest Cosa Nostra boss from New York to Chicago. The sister of the man I would gladly take a bullet for. And the only woman I would ever love. Sending her away was the hardest thing I've ever done, but I didn't deserve her or her love. For three years I stayed away, ignoring the gnawing ache that her absence left in my chest. Now, she was back and fighting what I felt for her was impossible. Letting her go had been a huge mistake. One I would never repeat.

Reconstructing the Cold War

Hidden from mortal eyes are the creatures of darkness that coexist with mortals: Shadows, vampires, fallen angels, demons, shape shifters, succubi, and the likes. Seventeen-year-old Amber enters their world by chance when her brother, Dallas, sets her up with a summer job in Scotland. Dallas has spied something in the

woods he thinks could make them rich beyond their wildest dreams. But instead of finding riches, Amber unknowingly enters a paranormal race--and promptly wins the first prize--a prize that comes with no exchange policy, and for which many would kill. Soon, she discovers her new boss, Aidan, didn't employ her for her astounding housekeeping skills, and no one is who they say they are. But by that time she's far too deep in a world she never knew existed, a world of love bonds, dark magic, ancient enemies and immortals. As the dark forces slowly conspire against Amber, her naivety and love for Aidan catapults her into a calamitous series of otherworldly events. With every immortal creature hunting for her, whom can she trust with her life? A JOB FROM HELL is the first book in the Ancient Legends series. The sequel, Doomed, is out now.

Pamela in Her Exalted Condition follows the heroine of Richardson's hugely popular first novel into married life. In the process, he explores both the experience of women beyond the stage of courtship and provides a fascinating insight into the

social and cultural life of the mid eighteenth century. The first ever scholarly edition of the novel, this volume features a critically edited text, general and textual introductions, full annotations and textual apparatus. Appendices describe all the editions published in Richardson's lifetime as well as early nineteenth-century editions. The original illustrations from the popular octavo edition of 1742 and Richardson's index are reproduced. The publication of this novel in the Cambridge edition allows the sequel to Pamela to take its rightful place in the critical study of Richardson's development as a novelist.

A Betrayal in Winter

A fascinating look into the history of the firearm and how and why it has had the impact it has on American culture and society. Few inventions have had more of a profound impact on the course of civilization than guns: The first hand-held versions were Chinese fire lances invented in the 10th century, though it was Europeans who were credited with creating the handheld weapons that we recognize today. Americans and their expansion westward were the ones who refined, and helped define innovation and the development of an industry. Starting with Samuel Colt and the "revolver revolution," Americans took the lead in moving gun development forward. Names now well-known including Wesson, Winchester, and Browning helped create weapons that helped move a nation forward and ushered in the industrialized warfare of World War I. Now, TIME-LIFE, in the next book in the successful "500 Photographs" series, following World War II in 500 Photographs and The Civil War in 500 Photographs, brings readers the History of the Gun in 500 Photographs, which traces the fascinating evolution of firearms, not just as tools of security, but as ingenious feats of science and engineering. This book contains over 500 photos that take readers on a historical and visual journey

of the gun, not just as a weapon, but as a constantly-evolving artifact that has shaped America's culture and mindset.

Daniel Abraham delighted fantasy readers with his brilliant, original, and engaging first novel, *A Shadow in Summer*. Now he has produced an even more powerful sequel, a tragedy as darkly personal and violent as Shakespeare's *Macbeth*. As a boy, Otah Machi was exiled from his family, Machi's ruling house. Decades later, he has witnessed and been part of world-changing events. Yet he has never returned to Machi. Now his father--the Khai, or ruler, of Machi--is dying and his eldest brother Biitrah has been assassinated, Otah realizes that he must return to Machi, for reasons not even he understands. Tradition dictates that the sons of a dying Khai fall upon each other until only one remains to succeed his father. But something even worse is occurring in Machi. The Galts, an expansive empire, has allied with someone in Machi to bring down the ruling house. Otah is accused, the long-missing brother with an all-too-obvious motive for murder. With the subtlety and wonderful storytelling skill of his first novel, Abraham has created a masterful drama filled with a unique magic, a suspenseful thriller of sexual betrayal, and Machiavellian politics. She can go to music school in Stockholm. She can be a real musician. She can be a jitterbug, just like Alvar. But how can Steffi convince her parents to let her go to Stockholm to audition?
