## The Artist

Many of us want to learn “how to draw.” But as artist Anthony Ryder explains, it’s much more important to learn what to draw. In other words, to observe and draw what we actually see, rather than what we think we see. When it comes to drawing the human figure, this means letting go of learned ideas and expectation of what the figure should look like. It means carefully observing the interplay of form and light, shape and line, that combine to create the actual appearance of human form. In *The Artist’s Complete Guide to Figure Drawing*, amateur and experienced artists alike are guided toward this new way of seeing and drawing the figure with a three-step drawing method. The book’s progressive course starts with the block-in, an exercise in seeing and establishing the figure’s shape. It then build to the contour, a refined line drawing that represents the figure’s silhouette. The last step is tonal work on the inside of the contour, when light and shadow are shaped to create the illusion of form. Separate chapters explore topics critical to the method: gesture, which expresses a sense of living energy to the figure; light, which largely determines how we see the model; and form, which conveys the figure’s volume and mass. Examples, step-by-steps, and special “tips” offer helpful hints and practical guidance throughout. Lavishly illustrated with the author’s stunning artwork, *The Artist’s Complete Guide to Figure Drawing* combines solid instruction with thoughtful meditations on the art of drawing, to both instruct and inspire artists of all levels.

Draw and paint beautiful, vibrant, and realistic birds and botanicals with The Art of Botanical & Bird Illustration. Take a sketch and transform it into fine art! The Art of Botanical & Bird Illustration is a guide for contemporary artists aspiring to master shape, color, and texture and render beautiful, realistic, and vibrant botanical artwork. Author Mindy Lighthipe, an expert botanical artist, educates you about the tools and materials traditionally used in botanical illustration, including pencils, colored pencils, watercolor, gouache, and pastels. This thorough yet easily digestible guide includes overviews of key illustration techniques and basic color theory and mixing, and it's loaded with exercises designed to help you learn to see shape, value, and form. By learning to understand plant life and anatomy, you can craft elegant flowers, leaves, trees, and much more in no time! To bring it all together, The Art of Botanical & Bird Illustration includes step-by-step demonstrations to follow along with as you practice taking sketches and transforming them into fully rendered, colorful pieces of fine art.

## **Paper--art & Technology**

Considering the latest advances and developments in the arena of digital media, this book explores current materials, methods and applications of digital technology in art therapy. It looks thoroughly at the many potential uses and benefits of digital technology in art therapy practice, including the use of stop motion animation and therapeutic light painting photography. A worked example of how digital art therapy can be used in the treatment of traumatic brain injury is also included. The book explores innovative therapeutic uses of digital technologies such as gaming and virtual worlds. Contributions from experienced art therapists address professional and ethical issues, from the sensory qualities of digital media and their effects in practice, to identifying and using developmentally appropriate technologies. As art therapy programs increasingly recognize the importance of using digital media, this cutting-edge guide provides all the necessary knowledge to incorporate this emerging field into practice.

Graduate Programs in the Visual Arts is an indispensable, comprehensive guide to schools that offer a Master's or other advanced degree in art studies, including studio art, graphic and web design, art education, film production, conservation, and historic preservation. Compiled by the College Art Association, this easy-to-use directory includes over 350 schools and English-language academic programs in the United States, Canada, Great Britain, and elsewhere worldwide. Listings provide descriptions of special courses; numbers, names, and specializations of faculty; facilities, studios, and special equipment; student opportunities for research and work; information on financial aid, fellowships, and assistantships; application requirements; and details on housing, health insurance, studio safety, and other practical matters. An index lists schools alphabetically and by state and country for quick reference. An introductory essay provides a detailed description of the elements of a program entry, including explanations of the various kinds of programs and degrees offered, placing the search and selection process in context. This is the third edition of this directory published by CAA.

## **Art Journals and Creative Healing**

## **Peterson's Graduate Programs in Arts & Architecture 2011**

A beautiful, artistic offering that offers projects on challenging, but universal subjects. In follow up to Faith Books & Spiritual Journaling, author Sharon Soneff will continue to show that there is a richer, deeper reward to artistic, creative journals beyond the beauty they supply. In this new volume, Art Journals & Creative Healing, she demonstrates with real excerpts from beautiful and unusual artistic journals that the process of journaling can be a tool in navigating through some of life's more challenging seasons, as well as a tool to support personal

growth and achievement. Challenging and complex experiences are treated with dignity and sensitivity, and will inspire readers dealing with their own issues, by placing the greater emphasis on the positive outcome that was yielded for the artist who is willing to be vulnerable in the process. Hope, growth, and healing are at the center of each work, and help deliver the message of the book. Additionally, the ideas, artistic approaches, and resources provided by the author and numerous contributing artists will help the reader with creative ideas for working through various situations through their reflective and artistic journal keeping. Through a marriage of beautiful imagery, uplifting and literary quotations, and other rich sources, *Art Journals & Creative Healing* offers its audience a full-bodied experience pertaining to creative journals, along with journaling worksheets and journal prompts to help readers get started with their own journals. Specific topics to be addressed would include using mediums as metaphors, journaling for cathartic expression, gaining wisdom through introspection and reflection, finding strength in the midst of suffering, and finding beauty in pain. *Art Journals & Creative Healing* is a supportive and encouraging text offered as a creative companion of sorts for those traversing over the obstacles and overcoming the challenges of life.
