A History of the Philippines

This book focuses on contemporary women seafarers at a global level. It looks at issues surrounding the working conditions and welfare of women, from both developed and developing countries, employed aboard the world's merchant and passenger ships. Using research commissioned by the ILO, the book considers women's participation levels in the industry, and examines policies concerning their recruitment, training, maternity and employment rights, and other aspects of work and life at sea. It also gives first-hand accounts from women seafarers describing how they have dealt with discrimination, sexual harassment, parental disapproval and an array of other difficulties. The study examines the practices and policies of national and international regulatory agencies, employers, trade unions, and maritime education institutions. A series of recommendations that may further help the integration of women into shipboard communities is included.

The Rough Guide to the Philippines

Is Ebonics really a dialect or simply bad English? Do women and men speak differently? Will computers ever really learn human language? Does offensive language harm children? These are only a few of the issues surrounding language that crop up every day. Most of us have very definite opinions on these questions one way or another. Yet as linguists Donna Jo Napoli and Vera Lee-Schoenfeld point out in this short and thoroughly readable volume, many of our most deeply held ideas about the nature of language and its role in our lives are either misconceived or influenced by myths and stereotypes. *Language Matters* provides a highly informative tour of the world of language, examining these and other vexing and controversial language-related questions. Throughout, Napoli and Lee-Schoenfeld encourage and lead the reader to use common-sense and everyday experience rather than preconceived notions or technical linguistic expertise. Both their questions and their conclusions are surprising, sometimes provocative, and always entertaining. This thoroughly revised second edition updates the book with a new co-author, and includes new chapters on language and power, language extinction, and what it is linguists actually do. *Language Matters* is sure to engage both general readers and students of language and linguistics at any level.

The Baloch and Balochistan

Sexual Lifestyle in the Twentieth Century

This warm, wise, highly entertaining twenty-first century love story is about what happens when the person who makes you happiest is someone you never expected. Lucy used to handle her adult romantic life according to the script she'd been handed. She met a guy just like herself: same age, same background, same hopes and dreams; they got married and started a family. Too bad he made her miserable. Now, two decades later, she's a nearly-divorced, forty-one-year-old schoolteacher with two school-aged sons, and there is no script anymore. So when she meets Joseph, she isn't exactly looking for love--she's more in the market for a babysitter. Joseph is twenty-two, living at home with his mother, and working several jobs, including the butcher counter where he and Lucy meet. It's not a match anyone could have predicted. He's of a different class, a different culture, and a different generation. But sometimes it turns out that the person who can make you happiest is the one you least expect, though it can take some maneuvering to see it through. *Just Like You* is a brilliantly observed, tender, but also brutally funny new novel that gets to the heart of what it means to fall surprisingly and headlong in love with the best possible person--someone you didn't see coming.

The first soil survey in the Philippines was done by Mr. Clarence Dorsey, an American soil scientist in the province of Batangas in 1903. The Soils of the Philippines, however, is the first comprehensive summary of more than a century of soil-survey work in this country. It integrates the soil concepts of the reconnaissance soil-survey results, which commenced as early as 1934 and continued until the mid 1960s, with the semi-detailed soil surveys that continue to this day. The result is the first-ever genetic key for classifying Philippine soils at soil series level; thus, making it possible for any newcomers to the soil survey field to confidently produce their own soil map, at a more detailed map scale, to suit the project requirements. This book brings together discussions on soils and soil mapping units and up-to-date international techniques and technologies. It makes soils relevant to current political realities and national issues. As soil survey moves from a reductionist agricultural-development planning tool to a more holistic and integrated approach, to enable us to understand our dynamic and complex environment, The Soils of the Philippines will be the only source of authoritative and updated data on soil resources for macro-level resource management planning for decades to come. With a vanishing breed of experienced soil surveyors, not only in the Philippines but also worldwide, it may remain the only book on Philippine soils for the next hundred years or more. Since soils follow a geological and not a human time frame, the contents of this volume will stay relevant for soil surveyors even in a fast changing world. As the country leaps from an agricultural

economy towards modernization and a more diversified economic base, some of the soil series in the Philippines, for example the Guadalupe series underlying the skyscrapers of Makati City, are becoming extinct as a result of urban development. Therefore, this book serves as the repository for the soils that we possess, the soils that have been lost through decades of urbanization while, at the same time, it creates a soil classification system for the soils we are yet to discover.

Through the experiences of those engaged in pen pal relationships—their stories of love, romance, migration, and long-distance dating—this book conveys the richness and dignity of women's and men's choices without reducing these correspondents to calculating opportunists or naive romantics. Attentive to the structural, cultural, and personal factors that prompt women and men to seek marriage partners abroad, *Romance on a Global Stage* questions the dichotomies so frequently drawn between structure and agency, and between global and local levels of analysis.

Way of the Ancient Healer provides an overview of the rich tradition of Filipino healing practices, discussing their origins, world influences, and role in daily life. Enhanced with over 200 photographs and illustrations, the book combines years of historical research with detailed descriptions of the spiritual belief system that forms the foundation of these practices. Giving readers a rare look at modern-day Filipino healing rituals, the book also includes personal examples from author Virgil Mayor Apostol's own experiences with shamanic healing and dream interpretation. The book begins with an explanation of Apostol's Filipino lineage and legacy as a healer. After a brief history of the Philippine archipelago, he describes the roots of traditional Filipino healing and spirituality, and discusses the Indian, Islamic, Chinese, Japanese, Spanish, and American influences that have impacted the Filipino culture. He presents a thorough description of Filipino shamanic and spiritual practices that have developed from the concept that everything in nature contains a spirit (animism) and that living in the presence of spirits demands

Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this "epic and elegant" biography (Wall Street Journal) profoundly recasts our understanding of the Vietnam War. (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908–1987) from historical ignominy to “restore a sense of proportion” to this “political Svengali, or ‘Lawrence of Asia’ ”(The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene’s *The Quiet American*, pioneered a “hearts and minds” diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, *The Road Not Taken* is a “judicious and absorbing” (New York Times Book Review) biography of lasting historical consequence.

In a dramatic unveiling of the little-known world of contracted military logistics, Adam Moore examines the lives of the global army of laborers who support US overseas wars. *Empire's Labor* brings us the experience of the hundreds of thousands of men and women who perform jobs such as truck drivers and administrative assistants at bases located in warzones in the Middle East and Africa. He highlights the changes the US military has undergone since the Vietnam War, when the ratio of contractors to uniformed personnel was roughly 1:6. In Afghanistan it has been as high as 4:1. This growth in logistics contracting

represents a fundamental change in how the US fights wars, with the military now dependent on a huge pool of contractors recruited from around the world. It also, Moore demonstrates, has social, economic, and political implications that extend well beyond the battlefields. Focusing on workers from the Philippines and Bosnia, two major sources of "third country national" (TCN) military labor, Moore explains the rise of large-scale logistics outsourcing since the end of the Cold War; describes the networks, infrastructures, and practices that span the spaces through which people, information, and goods circulate; and reveals the experiences of foreign workers, from the hidden dynamics of labor activism on bases, to the economic and social impacts these jobs have on their families and the communities they hail from. Through his extensive fieldwork and interviews, Moore gives voice to the agency and aspirations of the many thousands of foreigners who labor for the US military. The book is a descriptive survey of popular and academic writings on and by Filipino male homosexuals, as well as a genealogy of discourses of male homosexuality and the bakla and/or gay identities that emerged in urban Philippines from the 1960s to the present. This conceptual history engages recent events in the Philippines' sexually self-aware present, but also explores colonial history in showing how modernity implanted a new sexual order of "homo/hetero" and further marginalized the effeminate local identity of bakla.

These decisions, regarding place of birth, position, who receives the baby and even how the mother may or may not behave during the actual delivery, are all part of the different ways that birth is conducted. One chapter of the book will be devoted to midwives and other birth attendants. There will also be chapters on the Evolution of Birth, on Women's Birth Narratives, and on Child Spacing and Breastfeeding. This book will bring together global research conducted by professional anthropologists, midwives and doctors who work closely with the individuals from the cultures they are writing about, offering a unique perspective direct from the cultural group.

Three thousand years ago, a group of Indo-Iranic tribes (called Balaschik at that time) settled in the northwestern Caspian region of Balashagan. Circumstances forced them to disperse and migrate towards south and eastern parts of Iranian plateau. In medieval times, they finally settled in present Balochistan where they became known as the Baloch. During their long and tortuous journey from Balashagan to Balochistan, the Baloch faced persecutions, deportations, and

genocidal acts of various Persian, Arab and other regional powers. During 17th century, after dominating Balochistan culturally and politically, the Baloch carved out a nation state (the Khanate of Kalat). In 1839, the British occupied Balochistan and subsequently it was divided into various parts. In the wake of the British withdrawal from India in 1947, Balochistan regained its sovereignty but soon Pakistan occupied it in 1948. The historical account of the Baloch is the story of a pastoralist nomadic people from ancient times to mid-twentieth century. The author outlines the origin of the Baloch state and its variegated history of survival against powerful neighbors such as the Persians, the British and finally, Pakistan. This fascinating research work discovers the background of the long drawn-out conflict between the Baloch and Pakistan and Iranian states.

This study presents us with an insightful sociological exploration of sexual practice, within five different types of relationship and from varying perspectives of gender and age: lifelong love; serial loves; searching; devitalized relations, and parallel relations. Based on the accounts of almost two hundred adults in Finland, these real-life experiences reflect the way in which sexuality has evolved both within the lifetime of the individual, and over generations. Also examined is the impact of major historical events on love and sexual relationships - from war to economic crisis - and that of the 'spirit of the age': from the emancipatory zeal of the 1960s to the new-age holistic ideals in the 1980s.

Riddle of the Red Bible is one of the latest science fiction books to tackle time travel and ghosts together, and with a new twist. Set in Hertfordshire, England, Manila, Philippines and California, USA this exciting novel also deals with adventure, religiosity, teen romance, love for family, and courage. Like many youngsters today, Courtney Nivots is a British teenager with a dream - although she doesn't dream of being rich, winning the latest T.V. talent contest or becoming famous. No, she actually dreams of something even more challenging; meeting her deceased father. At the very young age of five, she takes her first step on a truly wonderful and life changing journey. Sitting alone in her room one fateful evening, she encounters a truly terrifying thing - her worst nightmare - a ghost. From the way it behaves, she's convinced that the apparition definitely isn't friendly after it violently lashes out and destroys her only remaining link to her father - a porcelain figurine of Jesus Christ with a personalised message inscribed on the bottom.

However, what transpires in that very moment takes her on a rollercoaster ride of epic proportions; both physically and emotionally, as everything she has ever known to be 'real' is truly put to the test. As she enters her teens and develops a deep rooted desire to find out who visited her all those years ago, she discovers a cryptic red book that might somehow make that possible. So with the help of some charming, brainy and downright geeky transatlantic friends, she sets out on a perilous time travel adventure to discover answers to questions nobody thought could ever be answered: Can you truly lay out the path of your own destiny at the tender age of five or do you re-write your future with every brave step you take? When Courtney encounters the most tremendous and tangible example of how it can really be possible to see her own future by looking into the past (without far-fetched time machines and extravagant contraptions) she is forced to find out those answers head on as she journeys to discover who visited her all those years ago and what part her long lost dad might play in her life. However, with the very physics of time combatting against her, there will be many substantial costs to pay before she can really find out who she is and whether she truly belongs in this world.
