How to Draw 101 Pets

Winner of the Edgar Award, Eric Ambler's autobiography Here Lies is an intriguing look inside the mind of one of our greatest thriller writers. Here the famously recalcitrant Ambler peels back the layers of experience that affected his life with the same skill he uses to unfold the plots of his novels. His South London childhood; his brief engineering career, which he gave up to work in theater; his time as an advertising copywriter; the publication of his revolutionary spy novels in the 1930s and '40s, including such early classics as A Coffin for Dimitrios and Journey into Fear; his service in the film division of the British War Office during World War II, which allowed him to write his first screenplays; and his postwar renown as the leading writer in the genre on both sides of the Atlantic. In these pages this masterful spy novelist has composed a compelling and insightful examination of his life.

HEROLD's Internal Medicine (Second Edition) - Vol. 1

Fascinating in its combination of personal stories and analytical insights, *Some Trouble with Cows* will help students of conflict understand how a seemingly irrational and archaic riot becomes a means for renegotiating the distribution of power and rights in a small community. Using first-person accounts of Hindus and Muslims in a remote Bangladeshi village, Beth Roy evocatively describes and analyzes a large-scale riot that profoundly altered life in the area in the 1950s. She provides a rare glimpse into the hearts and minds of the participants and their families, while touching on a range of broader issues that are vital to the sociology of communities in conflict: the changing meaning of community; the impact of the state on local society; the nature of memory; and the force of neighborly enmity in reshaping power relationships during periods of change. Roy's findings illustrate important theoretical issues in psychology and sociology, and her conclusions will greatly interest students of ethnic/race relations, conflict resolution, the sociology of violence, agrarian society, and South Asia.

In a career that has spanned fifty years and taken him from one of the greatest movies of all time to some of television's best series, Emmy-award winning character actor William Windom takes you behind the scenes of show business from Broadway to Hollywood in his candid and witty autobiography. Shortly after returning from active duty in World War II, Windom entered the acting world, launching his career in parts on and off Broadway in the late 1940s and 1950s. With refreshing candor, he tells how he landed his first Hollywood role as the winning attorney against Gregory Peck in 1962's "To Kill a Mockingbird" and then went on to act in popular television series including "Columbo," "Star Trek," "All In the Family," and "Dallas," But perhaps his most enjoyable roles came from his regular appearances on "The Farmer's Daughter,," and as Doc Hazlitt in the popular "Murder, She Wrote," Through Windom's personal anecdotes, Hollywood aficionados can get up close and personal with some of the industry's biggest names, including John Wayne, Sam Goldwyn, and Angela Lansbury, and aspiring performers can glean wisdom on choosing agents and managers, working with directors, and performing an audition by following Windom's expert and time-tested advice.
