To the Edge

She saw him in the shadows. She felt him watching her. She knew he was going to get her. The killer always left a signature on his victims, an X carved in their flesh. But he'd spent the last twenty years in a mental hospital. Long enough for the world to forget him. But not long enough for him to forget the rich old woman who had him committed--or her pretty granddaughter. Now he's been set free. Ellie

Duveen was busy running her own restaurant and tenderly watching over her fragile grandmother. Then she met former cop Dan Cassidy, the owner of a local vineyard, and Ellie's hectic life slowed just enough to let her fall in love. So Ellie didn't notice when police found a dead body marked with a grisly X. She only felt someone watching her. Following her. And as a terrifying secret came back from the past to haunt her, Ellie needed an ex-cop's instincts and more. She needed her own unshakable courage to outsmart a killer's deadly, twisted plan. From the Paperback edition.

Heretic's Heart

Starting in 1964, writes Margot Adler in this dazzling memoir, “I found myself mysteriously at the center of extraordinary events.” Now a correspondent for National Public Radio, Adler was a young woman determined to be taken seriously and to be an agent of change—on her own terms, free from dogma and authoritarian constraints. From campus activism at the University of California at Berkeley to civil rights work in Mississippi, from antiwar protests to observing the socialist revolution in Cuba, she found those chances in the 1960s. *Heretic's Heart* illuminates the events, ideas, passions, and ecstatic commitments of the decade like no other memoir. At the book's center is the powerful—and unique—correspondence between Adler, then an antiwar activist at Berkeley, and a young American soldier fighting in Vietnam. The correspondence begins when

Adler reads a letter the infantryman has written to a Berkeley newspaper. "I've heard rumors that there are people back in the world who don't believe this war should be. I'm not positive of this though, 'cause it seems to me that if enough of them told the right people in the right way, then something might be done about it. . . . You see, while you're discussing it amongst each other, being beat, getting in bed with dark-haired artists . . . some people here are dying for lighting a cigarette at night." Heretic's Heart also explores Adler's attempt to come to terms with her singular legacy as the only grandchild of Alfred Adler, collaborator of Freud and founder of Individual Psychology, and as the daughter of a forceful beauty who bequeaths her spunk and adventurousness to her daughter, but whose overpowering personality forces Adler to strike out on her own. Adler's memoir marks an initiatory journey from spirit through politics and revolution back to spirit again. Revealing, funny, joyful, and often wise, Heretic's Heart will restore the spirit of the 1960s: the passion, the confusion, the sense of social transformation and limitless possibility, and the ecstatic feeling that the world is on the cusp of change.

The Man Who Saw Everything

When neurobiologist Elizabeth M. Adler was diagnosed with non-Hodgkin lymphoma almost twenty years ago, she learned everything she could about the disease, both to cope with the emotional stress of her diagnosis and to make the best possible decisions for her treatment. In *Living with Lymphoma*, she combines her scientific expertise and personal knowledge with a desire to help other people who have lymphoma manage this complex and often baffling disease. With the availability of more effective treatment regimens, many people with lymphoma are living longer; in fact, there are more than 700,000 lymphoma survivors in the United States alone. Given this change in the lymphoma landscape, the second edition of this book places a greater emphasis on survivorship. The new edition includes the latest information on lymphoma diagnosis, treatment, and incidence and describes the most recent update to the WHO system of lymphoma

classification and staging. Adler discusses new targeted therapies like ibrutinib and idelalisib and describes how other treatments, including radiation therapy and stem cell transplants, have been modified while others have been discontinued. She also addresses new developments, such as the possible role of lack of sunlight and vitamin D in the pathogenesis of lymphoma, and the use of medical marijuana. The book includes suggestions for further reading, including the latest material available online.

A Place in the Country

Shots rang out in Savannah's grandest mansion in the misty, early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of

poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.

Living with Lymphoma

She can keep the doors locked. The lights on. Her fingers crossed. But she can't stop the memories of a terrifying crime. Or keep it from happening again. The murderer took his time choosing his pretty victims. Then he took his time killing them. What was left when he finished made even veteran Boston cop Harry Jordan feel sick. But this time the killer made a mistake. His victim was found alive. Armed with a police sketch of the man, Harry wanted national publicity, the kind he could get from Mallory Malone, the "TV detective." Her top-rated show reenacted heinous crimes and often jogged witnesses' memories enough to shake loose the clue that could break the case. But not this time. This case was different for self-made career woman Mallory Malone. This cop was different. The case scared her; the cop was falling in love with her. Her instincts told her to run. But the killer already knew

her name. Her address. And a secret that could destroy them both. Elizabeth Adler was born in Yorkshire, England. She is married to an American lawyer and has one daughter. They have lived in Brazil, England, France, and Ireland and currently live in California. She is the internationally acclaimed author of *Léonie*, *Peach*, *The Rich Shall Inherit*, *The Property of a Lady*, *Fortune Is a Woman*, and *The Secret of the Villa Mimosa*. From the Paperback edition.

The XX Brain

Winner of the Hemingway Foundation/PEN Award. When *Speedboat* burst on the scene in the late '70s it was like nothing readers had encountered before. It seemed to disregard the rules of the novel, but it wore its unconventionality with ease. Reading it was a pleasure of a new, unexpected kind. Above all, there was its voice, ambivalent, curious, wry, the voice of Jen Fain, a journalist negotiating the fraught landscape of contemporary urban America. Party guests, taxi drivers, brownstone dwellers, professors, journalists, presidents, and debutantes fill these dispatches from the world as Jen finds it. A touchstone over the years for writers as different as David Foster Wallace and Elizabeth Hardwick, *Speedboat* returns to enthrall a new generation of readers.

The Property of a Lady

""What's new. What else. What next. What's happened here." Pitch Dark, Renata Adler's follow-up to her prizewinning novel Speedboat, is a book of questions. It is also a book of false starts, red herrings, misunderstandings, and all-too-fleeting revelations. Kate Ennis is poised at a critical moment in her affair with a married lover, a fraught relationship that reverberates throughout the novel, as it moves from Kate's house in rural Connecticut and her New York City brownstone apartment, to a small island off the coast of Washington, and to an utterly dark road in a remote corner of Ireland. Told in Adler's celebrated fragmented style, and constructed from the bare-bones language of everyday life, Pitch Dark transcends its parts to come to the kind of self-knowledge achievable only after a relentless quest"--

Midnight in the Garden of Good and Evil

The instant New York Times bestseller! "In *The XX Brain*, Lisa meticulously guides us in the ways we can both nourish and protect ourselves, body and mind, to ensure our brains remain resilient throughout our lives." --from the foreword by Maria Shriver The first book to address cognitive enhancement and Alzheimer's prevention specifically in women--and to frame brain health as an essential component of Women's Health. In this revolutionary book, Dr. Lisa Mosconi,

director of the Women's Brain Initiative at Weill Cornell Medical College, provides women with the first plan to address the unique risks of the female brain. Until now, medical research has focused on "bikini medicine," assuming that women are essentially men with breasts and tubes. Yet women are far more likely than men to suffer from anxiety, depression, migraines, brain injuries, and strokes. They are also twice as likely to end their lives suffering from Alzheimer's disease, even when their longer lifespans are taken into account. But in the past, the female brain has received astonishingly little attention and was rarely studied by medical researchers-- resulting in a wealth of misinformation about women's health. The XX Brain confronts this crisis by revealing how the two powerful X chromosomes that distinguish women from men impact the brain first and foremost and by focusing on a key brain-protective hormone: estrogen. Taking on all aspects of women's health, including brain fog, memory lapses, depression, stress, insomnia, hormonal imbalances, and the increased risk of dementia, Dr. Mosconi introduces cutting-edge, evidence-based approaches to protecting the female brain, including a specific diet proven to work for women, strategies to reduce stress, and useful tips for restorative sleep. She also examines the controversy about soy and hormonal replacement therapy, takes on the perils of environmental toxins, and examines the role of our microbiome. Perhaps best of all, she makes clear that it is never too late to take care of yourself. The XX Brain is a rallying cry for women to have full access to information regarding what is going on in their brains and bodies as well as a roadmap for the path to optimal, lifelong brain health.

Florence Adler Swims Forever

“The perfect summer read” (USA TODAY) begins with a shocking tragedy that results in three generations of the Adler family grappling with heartbreak,

romance, and the weight of family secrets across the course of one summer. “Rachel Beanland is a writer of uncommon wit and wisdom, with a sharp and empathetic eye for character. She’ll win you over in the most old fashioned of ways: She simply tells a hell of a story.” —Rebecca Makkai, Pulitzer Finalist for *The Great Believers* Atlantic City, 1934. Every summer, Esther and Joseph Adler rent their house out to vacationers escaping to “America’s Playground” and move into the small apartment above their bakery. Despite the cramped quarters, this is the apartment where they raised their two daughters, Fannie and Florence, and it always feels like home. Now Florence has returned from college, determined to spend the summer training to swim the English Channel, and Fannie, pregnant again after recently losing a baby, is on bedrest for the duration of her pregnancy. After Joseph insists they take in a mysterious young woman whom he recently helped emigrate from Nazi Germany, the apartment is bursting at the seams. Esther only wants to keep her daughters close and safe but some matters are beyond her control: there’s Fannie’s risky pregnancy—not to mention her always-scheming husband, Isaac—and the fact that the handsome heir of a hotel notorious for its anti-Semitic policies, seems to be in love with Florence. When tragedy strikes, Esther makes the shocking decision to hide the truth—at least until Fannie’s baby is born—and pulls the family into an elaborate web of secret-keeping and lies, bringing long-buried tensions to the surface that reveal how quickly the act of protecting those we love can turn into betrayal. Based on a true story and told in the vein of J. Courtney Sullivan’s *Saints for All Occasions* and Anita

Diamant's *The Boston Girl*, Beanland's family saga is a breathtaking portrait of just how far we will go to in order to protect our loved ones and an uplifting portrayal of how the human spirit can endure—and even thrive—after tragedy.
