but she is terrified of the possibilities. Though they try to hide it, Cassie knows that the people she loves most are also afraid of what she might become. But that may be the least of her problems as she comes face to face with the deserted town she was locked away in, and the destruction the Halflings have wrought upon it. Destruction she must try to stop before even more innocent people are killed and the Halflings escape the town. Making Gender, Making War is a unique interdisciplinary edited collection which explores the social construction of gender, war-making and peacekeeping. It highlights the institutions and processes involved in the making of gender in terms of both men and women, masculinity and femininity. The "war question for feminism" marks a thematic red thread throughout; it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war. Contributors analyze how war-making is intertwined with the making of gender in a diversity of empirical case studies, organized around four themes: gender, violence and militarism; how the

making of gender is connected to a (re)making of the nation through military practices; UN SCR 1325 and gender mainstreaming in institutional practices; and gender subjectivities in the organization of violence, exploring the notion of violent women and non-violent men.

Coetzee) Funder tells the true stories of four people who had the extraordinary courage to refuse to collaborate with the Stasi, and the price they paid. She meets Miriam Weber, who was imprisoned at 16 after scaling the Berlin Wall. She drinks with the legendary "Mik Jegger" of the Eastern Bloc who was 'disappeared'. And she finds former Stasi men who defend their regime long past its demise, and yearn for the second coming of Communism. Heinemann Award, the Index Freedom of Expression Awards, The Age Book of the Year Awards, the Queensland Premier's Literary Award and the Adelaide Festival Awards for Literature (Innovation in Writing). ### **Broken (the Captive Series Prequel)**

This magisterial study, ten years in the making by one of the field's most distinguished historians, will be the first to explore the impact fugitive slaves had on the politics of the critical decade leading up to the Civil War. Through the close reading of diverse sources ranging from government documents to personal

accounts, Richard J. M. Blackett traces the decisions of slaves to escape, the actions of those who assisted them, the many ways black communities responded to the capture of fugitive slaves, and how local laws either buttressed or undermined enforcement of the federal law. Every effort to enforce the law in northern communities produced levels of subversion that generated national debate so much so that, on the eve of secession, many in the South, looking back on the decade, could argue that the law had been effectively subverted by those individuals and states who assisted fleeing slaves.

As a van der Rhys, Caleb's first allegiance is to the sea. Close behind are his affections for anyone foolish enough to pass him in a skirt. But that shouldn't be a problem when he's hired to ship a cargo of Puritans to the colonies—until a stowaway is discovered onboard. Wren is equal parts stormy and beautiful, normally an irresistible combination for Caleb. But they have a shared past that deems her off limits. All they have are the stars to guide them, in which case anything is possible. . . ### **Altered**

"In *Captives: How Stolen People Changed the World* archaeologist Catherine M. Cameron provides an eye-opening comparative study of the profound impact that captives of warfare and raiding have had on small-scale societies through time. Cameron provides a new point of orientation for archaeologists, anthropologists, historians, and other scholars by illuminating the impact that captive-taking and enslavement have had on cultural change, with important implications for understanding the past. Focusing primarily on indigenous societies in the Americas while extending the comparative reach to include Europe, Africa, and Island Southeast Asia, Cameron draws on ethnographic, ethnohistoric, historic, and archaeological data to examine the roles that captives played in small-scale societies. In such societies, captives represented an almost universal social category consisting predominantly of women and children and constituting 10 to 50 percent of the population in a given society. Cameron demonstrates how captives brought with them new technologies, design styles, foodways, religious practices, and more, all of which changed the captor culture. This book provides a framework that will enable archaeologists to understand the scale and nature of cultural transmission by captives and it will also interest anthropologists, historians, and other

scholars who study captive-taking and slavery. Cameron's exploration of the peculiar amnesia that surrounds memories of captive-taking and enslavement around the world also establishes a connection with unmistakable contemporary relevance"--
