In these two devastating late works, Nietzsche offers a powerful attack on the morality and the beliefs of his time. Nietzsche's *Twilight of the Idols* is a 'grand declaration of war' on reason, psychology and theology, which combines highly charged personal attacks on his contemporaries (in particular Hegel, Kant and Schopenhauer) with a lightning tour of his own philosophy. It also paves the way for *The Anti-Christ*, Nietzsche's final assault on institutional Christianity, in which he identifies himself with the 'Dionysian' artist and confronts Christ: the only opponent he feels worthy of him. Translated by R. J. Hollingdale with an Introduction by Michael Tanner

Night

Abraham's Children brings together essays by leading scholars of each faith to address key issues for the faiths and to collaboratively identify common ground and pose challenges for the future. The book will inspire readers in the process of inter-faith dialogue, contribute clearly to vital religious issues of contemporary world concern and help readers to understand faiths that are different from their own.

How to Become a Straight-A Student

Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

Gym Candy

When Bloomberg journalist Mark Pittman suddenly died, his widow spent four summers driving 31,152 miles searching for answers. In her fearless memoir, *The Pink Steering Wheel Chronicles: A Love Story*, author Laura Fahrenthold presents a moving portrait of marriage, motherhood and mourning as she captains a 1993 RV sprinkling her husband's ashes with their two young daughters and a stray dog in an epic quest for healing and understanding. Filled with insight and wit from a career in journalism, the story captures the family's adventures and misadventures, her deeply-layered love story, and her hilarious slice-of-life dispatches where the pink steering wheel becomes her spiritual GPS.

The Pink Steering Wheel Chronicles

Born into a Jewish ghetto in Hungary, as a child, Elie Wiesel was sent to the Nazi concentration camps at Auschwitz and Buchenwald. This is his account of that atrocity: the ever-increasing horrors he endured, the loss of his family and his struggle to survive in a world that stripped him of humanity, dignity and faith. Describing in simple terms the tragic murder of a people from a survivor's perspective, *Night* is among the most personal, intimate and poignant of all accounts of the Holocaust. A compelling consideration of the darkest side of human nature and the enduring power of hope, it remains one of the most important works of the twentieth century. New translation by Marion Wiesel, with a new introduction by Elie Wiesel.

The Yellow Wall Paper

Writing for Success

16 MILLION COPIES SOLD 'A book to read, to cherish, to debate, and one that will ultimately keep the memories of the victims alive' John Boyne, author of *The Boy in the Striped Pyjamas* A prominent Viennese psychiatrist before the war, Viktor Frankl was uniquely able to observe the way that both he and others in Auschwitz coped (or didn't) with the experience. He noticed that it was the men who comforted others and who gave away their last piece of bread who survived the

longest - and who offered proof that everything can be taken away from us except the ability to choose our attitude in any given set of circumstances. The sort of person the concentration camp prisoner became was the result of an inner decision and not of camp influences alone. Frankl came to believe man's deepest desire is to search for meaning and purpose. This outstanding work offers us all a way to transcend suffering and find significance in the art of living.

Housed on the campus of the University of Michigan in Ann Arbor, the University Musical Society is one of the oldest performing arts presenters in the country. A past recipient of the National Medal of Arts, the nation's highest public artistic honor, UMS connects audiences with wide-ranging performances in music, dance, and theater each season. Between 1987 and 2017, UMS was led by Ken Fischer, who over three decades pursued an ambitious campaign to expand and diversify the organization's programming and audiences—initiatives inspired by Fischer's overarching philosophy toward promoting the arts, "Everybody In, Nobody Out." The approach not only deepened UMS's engagement with the university and southeast Michigan communities, it led to exemplary partnerships with distinguished artists across the world. Under Fischer's leadership, UMS hosted numerous breakthrough performances, including the Vienna Philharmonic's final tour with Leonard Bernstein, appearances by then relatively unknown opera singer Cecilia Bartoli, a multiyear partnership with the Royal Shakespeare Company, and artists as diverse as Yo-Yo Ma, Jawole Willa Jo Zollar, Elizabeth Streb, and Nusrat Fateh Ali Khan. Though peppered with colorful anecdotes of how these successes came to be, this book is neither a history of UMS nor a memoir of Fischer's significant accomplishments with the organization. Rather it is a reflection on the power of the performing arts to engage and enrich communities—not by handing down cultural enrichment from on high, but by meeting communities where they live and helping them preserve cultural heritage, incubate talent, and find ways to make community voices heard.

From the beloved and award-winning author Junot Díaz, a spellbinding saga of a family's journey through the New World. A coming-of-age story of unparalleled power, *Drown* introduced the world to Junot Díaz's exhilarating talents. It also introduced an unforgettable narrator—Yunior, the haunted, brilliant young man who tracks his family's precarious journey from the barrios of Santo Domingo to the tenements of industrial New Jersey, and their epic passage from hope to loss to something like love. Here is the soulful, unsparing book that made Díaz a literary sensation.

"Spurious Correlations is the most fun you'll ever have with graphs."--Bustle
Military intelligence analyst and Harvard Law student Tyler Vigen illustrates the golden rule that "correlation does not equal causation" through hilarious graphs inspired by his viral website. Is there a correlation between Nic Cage films and swimming pool accidents? What about beef consumption and people getting struck by lightning? Absolutely not. But that hasn't stopped millions of people from going to tylervigen.com and asking, "Wait, what?" Vigen has designed software that scours enormous data sets to find unlikely statistical correlations. He began pulling the funniest ones for his website and has since gained millions of views, hundreds of thousands of likes, and tons of media coverage. Subversive and clever, *Spurious Correlations* is geek humor at its finest, nailing our obsession with data and conspiracy theory.

Atomic Habits

Do we consciously cause our actions, or do they happen to us? Philosophers, psychologists, neuroscientists, theologians, and lawyers have long debated the existence of free will versus determinism. With the publication of *The Illusion of Conscious Will* in 2002, Daniel Wegner proposed an innovative and provocative

answer: the feeling of conscious will is created by the mind and brain; it helps us to appreciate and remember our authorship of the things our minds and bodies do. Yes, we feel that we consciously will our actions, Wegner says, but at the same time, our actions happen to us. Although conscious will is an illusion ("the most compelling illusion"), it serves as a guide to understanding ourselves and to developing a sense of responsibility and morality. Wegner was unable to undertake a second edition of the book before his death in 2013; this new edition adds a foreword by Wegner's friend, the prominent psychologist Daniel Gilbert, and an introduction by Wegner's colleague Thalia Wheatley. Approaching conscious will as a topic of psychological study, Wegner examines cases both when people feel that they are willing an act that they are not doing and when they are not willing an act that they in fact are doing in such phenomena as hypnosis, Ouija board spelling, and dissociative identity disorder. Wegner's argument was immediately controversial (called "unwarranted impertinence" by one scholar) but also compelling. Engagingly written, with wit and clarity, *The Illusion of Conscious Will* was, as Daniel Gilbert writes in the foreword to this edition, Wegner's "magnum opus."

New York Times bestselling author Walter Dean Myers traveled back to his roots in this memoir that is gripping, funny, and ultimately unforgettable. Don't miss this memoir by a former National Ambassador of Books for Young People! As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Here, in his own words, is the story of one of the most important voices of our time.

The Illusion of Conscious Will

If the thought of vacationing with your parents makes you cringe, fear no more! Help is here! *Planes, Canes, and Automobiles: Connecting with Your Aging Parents through Travel* is a gold mine of practical advice, funny anecdotes, and tales of triumphs and travails from Val Grubb, who has traveled more than 300,000 miles (and counting!) with her 84-year old mother over the past twenty years. When planning a recent trip overseas, however, Grubb realized that her mom's physical and mental capabilities had suddenly changed. Her mom now needed a wheelchair, for example, and was afraid to travel alone (even on short flights to meet her daughter for a long trip together). Grubb set out to find suggestions for handling these changes and after much research was struck by the lack of resources to help people plan vacations with an aging friend or family member. She couldn't find any comprehensive information that shed light on the nuances of globetrotting with aging parents.

Places Aztec civilization and history in the context of world history Montezuma (ca. 1466-1520), who had been educated as a priest and had served well as a military commander, ascended to the Aztec throne in about 1502 on the basis of his military record and reputation for piety. As Peter G. Tsouras demonstrates, almost immediately Montezuma transformed himself from a man of good judgment to a pitiless autocrat. He killed indiscriminately at home and waged wars of conquest against his neighbors, adding territory in contemporary Honduras and Nicaragua to his empire. In 1519, Hernán Cortés arrived in Mexico at the head of a Spanish expedition. Montezuma believed the invaders to be gods fulfilling the prophecy that the god Quetzalcoatl would return. He failed to resist and cautiously offered gifts. As a result, Cortés and the conquistadors marched on the capital and seized Montezuma. The monarch fell, surrendering his power, wealth, and even the sovereignty of his people, almost gladly. He became a puppet of the Spaniards and finally allied himself in battle against his own people. When the emperor's brother at last led an uprising, the ungrateful Spaniards killed Montezuma. Against the backdrop of ancient Mexico's rich cultural heritage, Tsouras captures the tragedy that befell Mexico during Montezuma's reign.

"Look, Mick," he said, "you're going to find out from somebody in the gym, so you might as well find out from me. Those supplements you're taking? They might get you a little bigger, but just a little. If you're after serious results, there's other stuff

that produces better results much faster, stuff that a lot of guys in the gym use.” “What other stuff?” “You know what I’m talking about—gym candy.” Runningback Mick Johnson has dreams: dreams of cutting back, finding the hole, breaking into the open, and running free with nothing but green grass ahead. He has dreams of winning and of being the best. But football is a cruel sport. It requires power, grace, speed, quickness, and knowledge of the game. It takes luck, too. One crazy bounce can turn a likely victory into sudden defeat. What elite athlete wouldn’t look for an edge? A way to make him bigger, stronger, faster? This novel explores the dark corners of the heart of a young football player as he struggles for success under the always glaring—and often unforgiving—stadium lights.

Frankenstein; or, The Modern Prometheus is a novel written by Mary Shelley about a creature produced by an unorthodox scientific experiment. Shelley started writing the story when she was nineteen, and the novel was published when she was twenty-one. The first edition was published anonymously in London in 1818. Shelley's name appears on the second edition, published in France in 1823. The original 1818 'Uncensored' Edition of *Frankenstein* as first published anonymously in 1818. This original version is much more true to the spirit of the author's original intentions than the heavily revised 1831 edition, edited by Shelley, in part, because of pressure to make the story more conservative. Many scholars prefer the 1818 text to the more common 1831 edition. Mary Wollstonecraft Shelley (1797–1851) was an English novelist, short story writer, dramatist, essayist, biographer, and travel writer, best known for her Gothic novel *Frankenstein; or, The Modern Prometheus*.

In *Writing Anthropology*, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one's writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities.
