If God exists, and God is all powerful and good, why did God create an imperfect world? Does religion have a credible answer? Morality, as secularists know, does not require a deity. Blind faith, as atheists know, often leads to hatred and war. Taking scriptural stories as literal history, as scientists know, borders on the nonsensical. There has to be more. And there is. In their most important sense, these are symbolic psychological stories. Everything that happens - the wars, the joys, the obstacles that are overcome - must occur in one's own soul. In other words, all the great myths and scriptures are how-to manuals for Initiation. In this groundbreaking work, Andrew Cort describes the inner journey of Creation and Return that is revealed by the Greek Myths, the Torah, the Gospels and the Qur'an. He demonstrates the stunning unity of our western religious traditions, whose

common aim is to enlighten the soul and restore a sense of meaning to our lives and culture.

1929. For Lady Edith Parfitt, the financial crash unravels her comfortable life in a matter of hours. Her family's money disappears overnight. Her father is found dead – the cause, suicide – and her brother has been keeping a secret from her which breaks up their family and shatters the bond between them forever. Edith is forced to start again from scratch. Everything she has dreamed, hoped and planned for seems to have come to nothing. 1942. Britain is at war. The Blitz, rationing, food shortages and everything is a struggle. For Edith, living in Bath, there is only one consolation. Bath has not been bombed. She is working as a secretary and living in a small flat that makes her feel safe. But despite not being bombed, Edith has other problems. A young junior secretary in Edith's office confides that she is pregnant and unmarried. An encounter with a grieving widow in a park has a major impact on Edith's life and changes its course permanently. Then one night the bombs begin to fall 1952. Edith is finally settled. She is now a teacher, has a house and a cottage garden deep in the heart of Wiltshire. But then her peaceful life is shattered when the worst flood Britain has ever suffered strikes her old home in Devon and Edith's dearest friend is reported missing. Now Edith faces her biggest test yet; she must return to Devon and try to find her friend. When she arrives

back home, her past returns to haunt her and the dying days of 1929 begin to replay. As Edith searches for her friend, a dramatic discovery gives her one last chance to lay the past to rest. Edith's Return to Devon is a gripping work of historical fiction for today's austerity-driven society that will appeal to all ages and deals with harrowing issues like family break-ups, unplanned pregnancy and issues of sexuality. Daniel Pitt takes inspiration from books by Agatha Christie and Lady Antonia Fraser.

Ghost Citizens

The redesign and revitalization of traditional urban centers is the cutting edge of contemporary urban planning, as evidenced by the intense public and professional attention to the rebuilding of city cores from Berlin to New York City's "Ground Zero." Spanish and Latin American cities have never received the recognition they deserve in the urban revitalization debate, yet they offer a very relevant model for this "return to the center." These cultures have consistently embraced the notion of a city whose identity is grounded in its organic public spaces: plazas, promenades, commercial streets, and parks that invite pedestrian traffic and support a rich civic life. This groundbreaking book explores Spanish, Mexican, and Mexican-American border cities to learn what these urban areas can teach us about effectively using central public spaces to foster civic interaction, neighborhood identity, and a sense of place. Herzog weaves the book around case studies of Madrid and Barcelona, Spain; Mexico City and Querétaro, Mexico; and the Tijuana-San Diego border metropolis. He examines how each of these urban areas was formed and grew through time, with attention to the design lessons of key public spaces. The book offers original and incisive discussions that challenge current urban thinking about politics and public space, globalization, and the future

of privatized communities, from gated suburbs to cyberspace. Herzog argues that well-designed, human-scaled city centers are still vitally necessary for maintaining community and civic life. Applicable to urban renewal projects around the globe, Herzog's book will be important reading for planners, architects, designers, and all citizens interested in creating more livable cities.

Dorothy Saves the Emerald City

Practical Forms of the Supreme Court

For countless years the enigmatic city of Klagan had rested beneath the racing moons of ancient Mars. Forbidden, guarded, sheltered in the cup of the Blue Mountains and surrounded by waterless desert. It rested there, a place of a thousand rumours and whispered fantasies, and gave birth to muttered tales of incredible wealth and riches. To this city came Halmar, the guide; Lorna, the dancer from Venus; and the man called Smith. Defying the ban of the Terran Authorities, the fanatical Drylanders, and the harsh desert, they reached the crystal walls of the strange city. There they found a tremendous mystery, the deserted artefacts of a vanquished civilisation - and found themselves snared in an incredible trap. For Klagan was more than a city. It was. . . What it was and how

the intrepid adventurers solved the incredible secret of the mysterious city makes this an exciting tale of science and plausible speculation, action and human motivations.

Return to Meaning

'The return of the serpents of wisdom' is an unprecedented work on ancient secret societies and lost civilizations. According to ancient records, the patriarchs and founders of the early civilizations in Egypt, India, China, Peru, Mesopotamia, Britain, and the Americas were colonized by the Serpents of Wisdom - spiritual masters associated with the original serpent - who arrived in these lands after abandoning their beloved homelands and crossing great seas. While bearing names denoting 'snake' or 'dragon' (such as Naga, Lung, Djedhi, Amaru, Quetzalcoatl, Adder, etc.), these Serpents of Wisdom directed the construction of dazzling civilizations where they and their descendants served as priest-kings and enlightened healers of mystery school traditions.

In his fourteenth collection of poetry, Pulitzer Prize and National Book Award winner James Tate continues exploring his own peculiar brand of poetry, transforming our everyday world, a world where women give birth to wolves, wild babies are found in gardens, and Saint Nick visits on a hot July day. Tate's signature style draws on a marvelous variety of voices and characters, all of which

sound vaguely familiar, but are each fantastically unique, brilliant, and eccentric. Yet, as Charles Simic observed in the New York Review of Books, "With all his reliance on chance, Tate has a serious purpose. He's searching for a new way to write a lyric poem." He continues, "To write a poem out of nothing at all is Tate's genius. For him, the poem is something one did not know was there until it was written down. . . . Just about anything can happen next in this kind of poetry and that is its attraction. . . . Tate is not worried about leaving us a little dazed. . . . He succeeds in ways for which there are a few precedents. He makes me think that anti-poetry is the best friend poetry ever had."

City of God is an enduringly significant work in the history of Christian thought, by one of its central figures. Written as an eloquent defence of the faith at a time when the Roman Empire was on the brink of collapse, this great theological and philosophical work by St Augustine, bishop of Hippo, examines the ancient pagan religions of Rome, the arguments of the Greek philosophers and the revelations of the Bible. Pointing the way forward to a citizenship that transcends worldly politics and will last for eternity, City of God is one of the most influential documents in the development of Christianity. Yorkshire Returns of the 1851 Census of Religious Worship: Introduction, City of York and East Riding

In the mid-twentieth century, the Church of Jesus Christ of Latter-day Saints (LDS) returned to Nauvoo, Illinois, home to the thriving religious community led by Joseph Smith before his murder in 1844. The quiet farm town became a major Mormon heritage site visited annually by tens of thousands of people. Yet Nauvoo's dramatic restoration proved fraught with conflicts. Scott C. Esplin's social history looks at how Nauvoo's different groups have sparred over heritage and historical memory. The Latter-day Saint project brought it into conflict with the Community of Christ, the Midwestern branch of Mormonism that had kept a foothold in the town and a claim on its Smith-related sites. Non-Mormon locals, meanwhile, sought to maintain the historic place of ancestors who had settled in Nauvoo after the Latter-day Saints' departure. Examining the recent and present-day struggles to define the town, Esplin probes the values of the local groups while placing Nauvoo at the center of Mormonism's attempt to carve a role for itself within the greater narrative of American history.
