Allie All Along

This monograph reviews all relevant technologies based on mass spectrometry that are used to study or screen biological interactions in general. Arranged in three parts, the text begins by reviewing techniques nowadays almost considered classical, such as affinity chromatography and ultrafiltration, as well as the latest techniques. The second part focusses on all MS-based methods for the study of interactions of proteins with all classes of biomolecules. Besides pull down-based approaches, this section also emphasizes the use of ion mobility MS, capture-compound approaches, chemical proteomics and interactomics. The third and final part discusses other important technologies frequently employed in interaction studies, such as biosensors and microarrays. For pharmaceutical, analytical, protein, environmental and biochemists, as well as those working in pharmaceutical and analytical laboratories.

Reasons to Stay Alive

Navigating between the Indian traditions they've inherited and the baffling new world, the characters in Jhumpa Lahiri's elegant, touching stories seek love beyond the barriers of culture and generations. In "A Temporary Matter," published in The New Yorker, a young Indian-American couple faces the heartbreak of a stillborn birth while their Boston neighborhood copes with a nightly blackout. In the title story, an interpreter guides an American family through the India of their ancestors and hears an astonishing confession. Lahiri writes with deft cultural insight

reminiscent of Anita Desai and a nuanced depth that recalls Mavis Gallant. She is an important and powerful new voice.

Skin Game

“A gripping political thriller readers may find hard to put down.”—Dallas Morning News Keita Ali is an elite runner living in Zantoroland, a poor, fictional island that is erupting in political violence. When his father, a journalist, is murdered, Keita escapes to the wealthy nation of Freedom State—an imagined country much like our own. A stateless refugee without documentation, Keita must hide from the authorities even as he races marathons to support himself and ransom his sister who has been kidnapped. This tension-filled novel by the best-selling author of *Someone Knows My Name* is an astute exploration of dislocation, starting all over again, and the desperate need for home and community.

Fast Food Nation

Since her award-winning debut novel, *Minaret*, Leila Aboulela has been praised by J.M. Coetzee, Ali Smith, Aminatta Forna, and Anthony Marra among others for her rich and nuanced depictions of Islamic spiritual and political life. Her latest collection, *Elsewhere, Home*, draws us ineluctably into the lives of immigrants at home and abroad as they forge new identities and reshape old ones. A young woman’s encounter with a former classmate elicits painful reminders of her former life in Khartoum. A wealthy young Sudanese woman studying in Aberdeen begins an unlikely friendship with one of her Scottish classmates. A woman experiences an evolving relationship to her favorite writer, whose portrait of their shared culture both reflects and conflicts with her own sense of identity. Shuttling between the dusty, sun-baked streets of Khartoum and the university halls and cramped apartments of Aberdeen and London, *Elsewhere, Home* explores, with subtlety and restraint, the profound feelings of yearning, loss, and alienation that come with leaving one’s homeland in pursuit of a different life.

Hunting LeRoux

Maajid Nawaz spent his teenage years listening to American hip-hop and learning about the radical Islamist movement spreading throughout Europe and Asia in the 1980s and 90s. At 16, he was already a ranking member in Hizb ut-Tahrir, a London-based Islamist group. He quickly rose through the ranks to become a top recruiter, a charismatic spokesman for the cause of uniting Islam's political power across the world. Nawaz was setting up satellite groups in Pakistan, Denmark, and Egypt when he was rounded up in the aftermath of 9/11 along with many other radical Muslims. He was sent to an Egyptian prison where he was, fortuitously, jailed along with the assassins of Egyptian President Anwar Sadat. The 20 years in prison had changed the assassins' views on Islam and violence; Maajid went into prison preaching to them about the Islamist cause, but the lessons ended up going the other way. He came out of prison four years later completely changed, convinced that his entire belief system had been wrong, and determined to do something about it. He met with activists and heads of state, built a network, and started a foundation, Quilliam, funded by the British government, to combat the rising Islamist tide in Europe and elsewhere, using his intimate knowledge of recruitment tactics in order to reverse extremism and persuade Muslims that the 'narrative' used to recruit them (that the West is evil and the cause of all of Muslim suffering), is false. *Radical*, first published in the UK, is a fascinating and important look into one man's journey out of extremism and into something else entirely. This U.S. edition contains a "Preface for US readers" and a new, updated epilogue.

How Beautiful the Ordinary

Fledgling, Octavia Butler's last novel, is the story of an apparently young, amnesiac girl whose alarmingly un-human needs and abilities lead her to a startling conclusion: she is in fact a genetically modified, 53-year-old vampire. Forced to discover what she can about her stolen former life, she must at the same time learn who wanted—and still wants—to destroy her and those she cares for, and how she can save herself. *Fledgling* is a captivating novel that tests the limits

of "otherness" and questions what it means to be truly human.

The History of British India

Justice Hall

"The Snakes is many things--a parable and an ancient drama where a father's greed devours his children, a police procedural, an avid take on tabloid venality, and a bitter comedy, superbly observed. Sadie Jones writes with pitiless aplomb and corrosive intelligence."--Louise Erdrich A chilling page-turner and impossible to put down, THE SNAKES is Sadie Jones at her best: breathtakingly powerful, brilliantly incisive, and utterly devastating. This gripping novel by Sadie Jones tells the tense and violent story of the Adamsons, a dysfunctional English family, with exceptional wealth, whose darkest secrets come back to bite them. Set mostly in rural France during contemporary times, THE SNAKES is an all-consuming read and a devastating portrait of how money corrupts, and how chance can deal a deadly hand. THE SNAKES exposes the damage wreaked by parents on children as observed by a new member of the family, Dan, a mixed-race man from Peckham

who marries Bea, the daughter who refuses to take any of her father's filthy money. But when Bea's brother Alex (who runs a shabby hotel in Paligny, France) dies suddenly in unexplained circumstances, the confusion and suspicion which arise bring other dark family secrets--and violence--to the surface. And none of the family, even the good members, go untouched.

Fledgling

One of Literary Hub's Favorite Books of the Year A haunted, surreal debut novel about an otherworldly young woman, her father, and her lover that culminates in a shocking moment of betrayal—one that upends our understanding of power, predation, and agency. Ada and her father, touched by the power to heal illness, live on the edge of a village where they help sick locals—or “Cures”—by cracking open their damaged bodies or temporarily burying them in the reviving, dangerous Ground nearby. Ada, a being both more and less than human, is mostly uninterested in the Cures, until she meets a man named Samson. When they strike up an affair, to the displeasure of her father and Samson's widowed, pregnant sister, Ada is torn between her old way of life and new possibilities with her lover—and eventually comes to a decision that will forever change Samson, the town, and the Ground itself. Follow Me to Ground is fascinating and frightening, urgent and propulsive. In Ada, award-winning author Sue Rainsford has created an utterly bewitching heroine, one who challenges conventional ideas of womanhood and the secrets of the body. Slim but authoritative, Follow Me to Ground lingers long after its final page, pulling the reader into a dream between fairy tale and nightmare, desire and delusion, folktale and warning.

Elsewhere Home

A girl thought to be a boy steals her sister's skirt, while a boy thought to be a girl refuses to wear a cornflower blue dress. One boy's love of a soldier leads to the death of a stranger. The present takes a bittersweet journey into the past when a man revisits the summer school where he had "an accidental romance." And a forgotten mother writes a poignant letter to the teenage daughter she hasn't seen for fourteen years. Poised between the past and the future are the stories of now. In nontraditional narratives, short stories, and brief graphics, tales of anticipation and regret, eagerness and confusion present distinctively modern views of love, sexuality, and gender identification. Together, they reflect the vibrant possibilities available for young people learning to love others—and themselves—in today's multifaceted and quickly changing world.

The Land and the Book

#1 NEW YORK TIMES BESTSELLER • A bold work from the author of *The Black Swan* that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one's own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights:

- For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations.
- Ethical rules aren't universal. You're part of a group larger than you, but it's still smaller than humanity in general.
- Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others.
- You can be an intellectual yet still be an idiot. "Educated philistines" have been wrong on everything from Stalinism to Iraq to low-carb diets.
- Beware of complicated solutions (that someone was paid to find). A simple barbell can build

muscle better than expensive new machines. • True religion is commitment, not just faith. How much you believe in something is manifested only by what you're willing to risk for it. The phrase "skin in the game" is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it's also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, "The symmetry of skin in the game is a simple rule that's necessary for fairness and justice, and the ultimate BS-buster," and "Never trust anyone who doesn't have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them."

Matt Haig's accessible and life-affirming memoir of his struggle with depression, and how his triumph over the illness taught him to live. From the internationally bestselling author of *How To Stop Time* and *Notes on a Nervous Planet*. "Destined to become a modern classic." —Entertainment Weekly Like nearly one in five people, Matt Haig suffers from depression. *Reasons to Stay Alive* is Matt's inspiring account of how, minute by minute and day by day, he overcame the disease with the help of reading, writing, and the love of his parents and his girlfriend (and now-wife), Andrea. And eventually, he learned to appreciate life all the more for it. Everyone's lives are touched by mental illness: if we do not suffer from it ourselves, then we have a friend or loved one who does. Matt's frankness about his experiences is both inspiring to those who feel daunted by depression and illuminating to those who are mystified by it. Above all, his humor and encouragement never let us lose sight of hope. Speaking as his present self to his former self in the depths of depression, He is adamant that the oldest cliché is the truest—there is light at the end of the tunnel. He teaches us to celebrate the small joys and moments of peace that life brings, and reminds us that there are always reasons to stay alive.

Red Carpets and Other Banana Skins

"Naqvi's fast-paced plot, foul-mouthed erudition and pitch-perfect dialogue make for a stellar debut." —Publishers Weekly (Starred Review) They are renaissance men. They are bons vivants. They are three young Pakistani men in New York City at the turn of the millennium: AC, a gangsta-rap-spouting academic; Jimbo, a hulking Pushtun DJ from the streets of Jersey City; and Chuck, a wideeyed kid, fresh off the boat from the homeland, just trying to get by. Things start coming together for Chuck when he unexpectedly secures a Wall Street gig and begins rolling with socialites and scenesters flanked by his pals, who routinely bring down the house at hush-hush downtown haunts. In a city where origins matter less than the talent for self-invention, the three Metrostanis have the guts to claim the place as their own. But when they embark on a road trip to the hinterland weeks after 9/11 in search of the Shaman, a Gatsbyesque compatriot who seemingly disappears into thin air, things go horribly wrong. Suddenly, they find themselves in a changed, charged America. Rollicking, bittersweet, and sharply observed, *Home Boy* is at once an immigrant's tale, a mystery, and a story of love and loss, as well as a unique meditation on Americana and notions of collective identity. It announces the debut of an original, electrifying voice in contemporary fiction. From the Hardcover edition.

Girl Heart Boy: No Such Thing as Forever

When Feral House first published the award-winning *Lords of Chaos: The Bloody Rise of the Satanic Metal Underground*, little was known about the "black metal" genre of music, or how many of its members were involved in the murder of citizens, the torching of churches, or its link to Fascist ideas. We've all heard about the racist form of skinhead punk music, but little do we know of the groups involved, and how they got involved in right-wing political movements. *The White Nationalist Skinhead Movement* is the first book to provide much more than mere photographs of the scene, documenting the bands, their members, the releases, shows, and infamous events. Robert Forbes and Eddie Stampton can authoritatively speak of the movement, obtaining first-hand material from members of the scene. This book covers both British and American bands, and even if you revile the movement, its ideas, and its music, this is an important piece of pop culture history. Feral House's controversial *Lords of Chaos* has sold over one hundred thousand copies.

The Illegal: A Novel

Doing It

With a foreword by four-time Oscar nominated filmmaker Michael Mann. The story of Paul LeRoux, the twisted-genius entrepreneur and cold-blooded killer who brought revolutionary innovation to international crime, and the exclusive inside story of how the DEA's elite, secretive 960 Group brought him down. Paul LeRoux was born in Zimbabwe and raised in South Africa. After a first career as a pioneering cybersecurity entrepreneur, he plunged hellbent into the dark side, using his extraordinary talents to develop a disruptive new business model for transnational organized crime. Along the way he created a mercenary force of ex-U.S. and NATO sharpshooters to carry out contract murders for his own pleasure and profit. The criminal empire he built was Cartel 4.0, utilizing the gig economy and the tools of the Digital Age: encrypted mobile devices, cloud sharing and novel money-laundering techniques. LeRoux's businesses, cyber-linked by his own dark worldwide web, stretched from Southeast Asia across the Middle East and Africa to Brazil; they generated hundreds of millions of dollars in sales of arms, drugs, chemicals, bombs, missile technology and murder. He dealt with rogue nations—Iran and North Korea—as well as the Chinese Triads, Somali pirates, Serb mafia, outlaw bikers, militants, corrupt African and Asian officials and coup-plotters. Initially, LeRoux appeared as a ghost image on law enforcement and intelligence radar, an inexplicable presence in the middle of a variety of criminal endeavors. He was Netflix to Blockbuster, Spotify to Tower Records. A bold disruptor, his methods brought international crime into the age of innovation, making his operations barely detectable and LeRoux nearly invisible. But he gained the attention of a small band of bold, unorthodox DEA agents, whose brief was tracking down drugs-and-arms trafficking kingpins who contributed to war and global instability. The 960 Group, an element of the DEA's Special Operations Division, had launched some of the most complex, coordinated and dangerous operations in the agency's history. They used unorthodox methods and undercover informants to penetrate LeRoux's inner circle and bring him down. For five years Elaine Shannon immersed herself in LeRoux's shadowy world. She gained exclusive access to the agents and players, including undercover operatives who looked LeRoux in the eye on a daily basis. Shannon takes us on a shocking tour of this dark frontier, going deep into the operations and the mind of a singularly visionary and frightening figure—Escobar and Victor Bout along with the innovative vision of Steve Jobs rolled into one. She puts you in the room with these people and their moment-to-moment encounters, jeopardy, frustration, anger and small victories, creating a narrative with a breath-taking edge, immediacy and a stranger-than-fiction reality. Remarkable, disturbing, and utterly engrossing, *Hunting LeRoux* introduces a new breed of criminal spawned by the savage, greed-exalting underside of the Age of Innovation—and a new kind of true crime story. It is a look into the future—a future that is dark.

The Lovely Bones

A blockbuster collection from one of Ireland's most exciting young voices. "Sharp and lively . . . a rough, charged, and surprisingly fun read." whose fate took a downturn with the Celtic Tiger, a desolate spot where buffoonery and tension simmer and erupt, and booze-sodden boredom fills the corners of every pub and nightclub. What seems to be about sorrow and foreboding turns into an adventure, instead, in the tender art of the unexpected." —Anne Enright, Man Booker Prize Award-winning author "Sometimes comic, sometimes melancholy, *Young Skins* touches the heart, as well as the mind." —Irish American Post
