ONE MAN BELIEVES HE CAN GAIN CONTROL OF THE MOST POWERFUL NAVAL

FORCE IN THE WORLD — AND HIS ENEMY WILL NEVER KNOW! While the two superpowers are apparently relaxing under the spirit of glasnost, Nicholas Koniev, a Soviet strategic and technical genius and a Spetznaz-trained warrior, is leading a near-suicidal mission into the American submarine base of Bangor, Washington — home of the vital Trident missile subs. He appears to be using mini-subbs to seed the harbor with sonar-activated mines that will deny the Tridents access to the Pacific, but appearances are deceiving. His actual mission is a one-man quest to neutralize the Trident system forever. Bernie Ryng, a seasoned Navy SEAL with a string of legendary exploits to his credit, is heading a small, elite team of SEALs and trained dolphins to reinforce the Tridents' security. A beautiful Englishwoman on a lonely island is the only human being who may be able to help Koniev escape. As Ryng closes in, Koniev alone knows that there are two prizes he's after...

### **Men's Health**

Practically every crime now involves some aspect of digital evidence. This is the most recent volume in the Advances in Digital Forensics series. It describes original research results and innovative applications in the emerging discipline of digital

forensics. In addition, it highlights some of the major technical and legal issues related to digital evidence and electronic crime investigations. This book contains a selection of twenty-eight edited papers from the Fourth Annual IFIP WG 11.9 Conference on Digital Forensics, held at Kyoto University, Kyoto, Japan in the spring of 2008.

Ansel Adams (1902-1984) produced some of the 20th century's most iconic photographic images and helped nurture the art of photography through his

creative innovations and peerless technical mastery. The Print--the third volume in Adams' celebrated series of books on photographic techniques--has taught generations of photographers how to explore the artistic possibilities of printmaking. Examples of Adams' own work clarify the principles discussed. This classic handbook distills the knowledge gained through a lifetime in photography and remains as vital today as when it was first published. The Print takes you step-by-step--from designing and furnishing a darkroom to mounting and displaying your photographs, from making your first print to mastering advanced techniques, such as developer modifications, toning and bleaching, and burning and dodging. Filled with indispensable darkroom techniques and tips, this amply illustrated guide shows how printmaking--the culmination of photography's creative process--can be used expressively to enhance an image. "Adams is a clear-thinking writer whose concepts cannot but help the serious photographer." - New York Times "A master-class kind of guide from an undisputed master." - Publishers Weekly Over 1 million copies sold. Publisher's Note: This ebook of The Print works best as a digital companion to the print edition. The ebook was produced by electronically scanning and digitizing a print edition, and as a result, your reading device may display images with halftone or moiré patterns.

### Backpacker

International Bestseller All places are not created equal. In this groundbreaking book, Richard Florida shows that where we live is increasingly a crucial factor in our lives, one that fundamentally affects our professional and personal prospects. As well as explaining why place matters now more than ever, *Who's Your City?* provides indispensable tools to help you choose the right place for you. It's a cliché of the information age that globalization has made place irrelevant, that one can telecommute as effectively from New Zealand as New York. But it's not true, Richard Florida argues, relying on twenty years of innovative research in urban studies, creativity, and demographic trends. In fact, as new units of economic growth called mega-regions become increasingly specialized, the world is becoming more and more "spiky" — divided between flourishing clusters of talent, education and competitiveness, and moribund "valleys." All these places have personalities, Richard Florida explains in the second half of *Who's Your City?*, and happiness depends on finding the city in which you can balance your personal and career goals to thrive. More people than ever before now have the opportunity to choose where to live, but at different points in our lives we need different kinds of

places, he points out — what a couple of recent college graduates want from their city isn't necessarily what a retiree is looking for. You have to find the place that suits you best: a boho-burb neighbourhood isn't likely to be the best fit for patio man. So, for the first time, *Who's Your City?* ranks cities by their fitness for various life stages, rating the best places for singles, young families, and empty nesters. It summarizes the key factors that make place matter to different kinds of people, from professional opportunities to the closeness of family to how well it matches their lifestyle, and provides an in-depth series of steps to help you choose the right place wisely. Sparkling with Richard Florida's signature intellectual originality, *Who's Your City?* moves from insights to studies to personal anecdotes, from a startling "Singles Map" of the United States to surprising data on the difference aesthetics makes to people's sense of place. A perceptive and transformative book, it is both a brilliant exploration of the fundamental importance of place and an essential guide to making what may be the most important decision of your life.

Low cost, small trim size, and concise coverage make this research guide a valuable but non-intrusive supplement to a core text or anthology in any college course that requires a research paper. Coverage of Internet sources includes attention to critical evaluation of these sources and tips for using discipline-specialized search engines. Chapter on preparing electronic projects explains

methods for incorporating slide presentations, web sites, web pages, and digital graphics into the research paper. Increased coverage of the library's electronic resources, including academic databases. A new chapter 5 focuses on avoiding plagiarism and practicing academic integrity. New chapters 6 and 7 help students identify the best sources, evaluate them for relevancy, authority, and accuracy and to create notes that paraphrase, quote, and summarize effectively. Complete and up-to-date coverage of four documentation systems -- MLA, APA, CBE, and Chicago style -- also includes coverage of electronic sources according to the latest editions of these respective style manuals.

### **PC Mag**

For as long as man has consciously existed - really lived - we have questioned the nature and purpose of our own existence; why are we here? What does it mean to be human? This is a photographic interpretation of the complexity and the idea of man abstracted from the individual, in the form of a series of candid observations. It's a documentary, street photography journal and a philosophical work with a twist.

The story takes place on the rapidly advancing frontier of New York State and features an elderly Leatherstocking (Natty Bumppo), Judge Marmaduke Temple of Templeton (whose life parallels that of the author's father Judge William Cooper), and Elizabeth Temple (based on the author's sister, Hannah Cooper), daughter of the fictional Templeton. The story begins with an argument between the judge and

Leatherstocking over who killed a buck.
