Imagine if food fell from the sky like rain... wouldn't it be great? Or would it? This is what happened in the tiny town of Chewandswallow. In many ways it was much the same as any other small town, except for the weather... which came three times a day, at breakfast, lunch and dinner. Sometimes it rained soup and juice, or snowed mashed potatoes, once or twice it even blew up a storm of hamburgers. Life was pretty delicious in Chewandswallow...until the weather took a turn for the worse!

Differentiated Spelling Practice, Grade 1

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single

letters in non-final syllables.
