### No One Like Him

For over 40 years, J. I. Packer's classic has been an important tool to help Christians around the world discover the wonder, the glory and the joy of knowing God. Explaining both who God is and how we can relate to him, this thought-provoking work seeks to transform and enrich the Christian understanding of God. Ebook edition includes both Knowing God and the Knowing God Study Guide.

### The Doctrine of God

Most Christians believe God is in control, but they are unsure of how to reconcile that control with their struggles with sin, the command to evangelize, and the immense suffering in the world and their own lives. Laing offers an introduction to the doctrine of providence based on the theory of middle knowledge, first articulated in the sixteenth century. This view describes how creatures have true free will and God has perfect knowledge of what each creature could and would do in any circumstance. Middle knowledge helps answer the most perplexing theological questions: predestination and salvation, the existence of evil, divine and human authorship of Scripture, and science and the Christian faith. Laing provides extensive biblical support as well as practical applications for this theology.

### Personal Knowledge

### The Knowledge of God

If we were to compile the biggest questions pertaining to life, we would face some daunting submissions: Does God exist? What is God like? How will it all end? In this

accessible book Erik Thoennes—a preaching pastor and theology professor—asks and answers 15 of the most important questions we can ask about God, the Bible, Jesus, and the church. Readers will find his answers clear, helpful, and above all biblical. Life's Biggest Questions is a great resource for new Christians and for those looking for concise ways to answer difficult questions. Each chapter concludes with a Scripture verse for meditation and memorization, questions for application and discussion, and suggestions for further study.

### **The Doctrine of the Knowledge of God**

#### **A Stranger in the House of God**

Emil Brunner discusses the importance of revelation as the foundation of Christian theology in relation to reason as the basis of Western civilization.

#### **That Jesus Christ Was Born a Jew**

This work is written with a law enforcement officer's investigative mindset and from the perspective of a prisoner. I discovered through a survey of Christian bookstores that no books were exclusively on or about repentance, but most only touched on the topic. The only author who had anything to say about repentance beyond a mere mention was Charles G. Finney in Finney's Systematic Theology. This 600-page work transformed my thinking and influenced my investigation. This book discusses spiritual leadership without bashing any spiritual leader. It points out carnality without castigating any particular ministry or denomination. Hundreds of illustrations will familiarize the reader with revelations about repentance and carnality. These illustrations, like parables, contain revolutionary truths that are true to Scripture, reason, and life, so that Repentance: The Doctrine of God may become one harmonious revelation! Warning: As you read this book, you will encounter deep-seated carnality residing within the blackened depths of your soul, and it will not want to be exposed! But take heart? Almighty God will accompany you on this journey for the complete regeneration of your soul.

#### **The Doctrine of God**

Distinguished scholar Matthew Levering examines the doctrine of creation and its contemporary theological implications, critically engaging with classical and modern views in dialogue with Orthodox and Reformed interlocutors, among

others. Moving from the Trinity to Christology, Levering takes up a number of themes pertaining to the doctrine of creation and focuses on how creation impacts our understandings of both the immanent and the economic Trinity. He also engages newer trends such as ecological theology.

## **God, Time, and Knowledge**

A biblical, clear, cogent, accessible, comprehensive, and practical summary of Christian belief by one of the most important and original American theologians of the last hundred years.

## **Way to Divine Knowledge**

## **The Difficult Doctrine of the Love of God**

John C. Peckham introduces and engages with major questions about God's nature and how God relates to the world. Does God change? Does God have emotions? Can God do anything? Does God know the future? Does God always attain what God desires? And is God entirely good? This textbook provides a clear and concise overview of the issues involved in these and other questions, exploring prominent contemporary approaches to the main issues relative to how to conceive of the God-world relationship within Christian theology. In so doing, Peckham surveys a range of live options regarding each of the primary questions, briefly considering where each falls within the spectrum of the Christian tradition and providing clear and readily understandable explanations of the technical issues involved. The result is a stimulating survey of the most prominent options in Christian theology relative to divine attributes and the God-world relationship, offered in an accessible format for students. Designed for classroom use this volume includes the following features: - study questions for each chapter - suggestions for further reading for each chapter - glossary

## **The Doctrine of God**

"Eerdmans' third edition of Dowey's *The Knowledge of God in Calvin's Theology* is both a welcomed and noteworthy publishing event, welcomed because its publication makes available for a new generation Dowey's substantive analysis of Calvin's thought and noteworthy because its author's breadth of scholarship, then and now, endows the work, with its expanded appendices, with a lively, penetrating, and judicious perspective from which to assess Calvin's theological genius. With incisive clarity, Dowey both explains and criticizes Calvin's principle of the duplex *cognitio domini*, illuminating how the Reformer's concept of the knowledge of God the Creator and the knowledge of God the Redeemer controls and contributes to the whole of Calvin's thought. Although first published over forty years ago, Dowey's comprehensive study still remains the best on the subject." - *Theology Today*

## **Calvin's Doctrine of the Knowledge of God**

Frame explores our relationship with God as a knowing relationship. He writes, "We tend to forget how often in Scripture God performs His mighty acts so that men will 'know' that He is Lord." He thus examines our knowledge of God as it relates to our knowledge of ourselves and of the world in which we live. Reflecting his conviction that theology is the application of Scripture to life in all situations, Frame combines trenchant analysis of theological, apologetical, and epistemological issues with refreshingly practical insights for living in the knowledge of God. -- Publisher's description.

## **Engaging the Doctrine of Creation**

Growing up the son of agnostics, John Koessler saw a Catholic church on one end of the street and a Baptist on the other. In the no-man's land between the two, this curious outsider wondered about the God they worshipped—and began a lifelong search to comprehend the grace and mystery of God. *A Stranger in the House of God* addresses fundamental questions and struggles faced by spiritual seekers and mature believers. Like a contemporary *Pilgrim's Progress*, it traces the author's journey and explores his experiences with both charismatic and evangelical Christianity. It also describes his transformation from religious outsider to ordained pastor. John Koessler provides a poignant and often humorous window into the interior of the soul as he describes his journey from doubt and struggle with the church to personal faith.

## **The Doctrine and Covenants of the Church of Jesus Christ of Latter-day Saints**

First published in 2012. Routledge is an imprint of Taylor & Francis, an informa company.

## **Church Dogmatics**

The third volume of Frame's *Theology of Lordship* series, this book focuses on biblical ethics. In an age of ethical relativism and suspicion of authority, how can we know what is good, virtuous, or just? Frame surveys non-Christian ethical traditions before setting forth a solidly Christian ethical method. By clarifying biblical norms, life situations, and personal dimensions, he presents a model for decision making that honors God in all aspects of life. Discussions range from natural law and conflict of duties to detailed explorations of the Ten Commandments in connection with questions surrounding worship, the Sabbath, church and state, respect for life and truth, sexuality, and the relation of Christ to culture.

## **The Doctrine of God**

This volume, the ninth on Islamic material to be published in the *Classics of Western Spirituality* series, brings to light a highly significant but little known area

of Islamic spirituality. Editor John Renard has assembled here a volume of texts, most translated here for the first time, culled from the great Sufi manuals of spirituality, on the theme of the complex and multi-faceted role of knowledge in relation to the spiritual life. He presents excerpts on knowledge from the works of nine major Muslim teachers, most translated from Arabic, but also including important texts from Persian originals. The Introduction offers a survey of the development of Sufi modes of knowing through the thirteenth century in their broader context, and then focuses on the manuals or compendia of Sufi spirituality treated here. Historical notes provide brief identifications of many of the individual sources and personalities mentioned throughout the treatises.

## **Perspectives on the Doctrine of God**

Classical Calvinist, Modified Calvinist, Classical Armenian, and Open Theist views are evenly and productively discussed in Perspectives on the Doctrine of God.

## **Middle Knowledge**

## **Knowing God**

This special edition of the Lectures on Faith from Zion's Camp Books is formatted for convenience on an eReader, with more than 100 internal links to scriptures and citations. We hope it will give you a great reading experience! The Lectures on Faith were originally prepared as materials for the School of the Prophets in Kirtland, Ohio in 1834 and were included in the Doctrine and Covenants from 1835 to 1921. Although the Lectures on Faith have never been accepted as revelation by the body of the church (and so were removed from the Doctrine and Covenants in 1921), they contain important doctrinal insights that can help anyone seeking to learn more about faith and come closer to Heavenly Father and Jesus Christ. President Joseph Fielding Smith noted, "I suppose that the rising generation knows little about the Lectures on Faith. . . . In my own judgment, these Lectures are of great value and should be studied. . . . I consider them to be of extreme value in the study of the gospel of Jesus Christ." (Joseph Fielding Smith, *Seek Ye Earnestly*. Salt Lake City: Deseret Book, 1970.) Elder Bruce R. McConkie of the Quorum of the Twelve Apostles has stated the lectures contain "some of the best lesson material ever prepared on the Godhead; on the character, perfections, and attributes of God; on faith, miracles, and sacrifice. They can be studied with great profit by all gospel scholars." (Bruce R. McConkie, *Mormon Doctrine*. Salt Lake City: Bookcraft, 1966.)

## **Perspectives on the Doctrine of God**

## **Thomas Aquinas and Karl Barth**

## **A Treatise Concerning the Principles of Human Knowledge**

Readers familiar with Frame's analysis of historic doctrines and current questions will welcome this long-awaited second installment in the Theology of Lordship series. Here he examines the attributes, acts, and names of God in connection with a full spectrum of relevant theological, ethical, and spiritual issues.

## **Knowledge of God in Classical Sufism**

In *God, Time, and Knowledge*, William Hasker explores the major issues concerning God's knowledge of the future in relation to time and human freedom: divine foreknowledge, middle knowledge, and divine timelessness. Although he focuses on discussions that have taken place within analytic philosophy in the last thirty years, Hasker also places the issues within the context of the history of philosophical and theological reflection on these matters. Proceeding from a libertarian standpoint, Hasker begins by providing a series of arguments against the possibility of middle knowledge. He next considers and rejects all of the major methods by which the compatibility of foreknowledge and freedom have been defended: the contention that facts about God's past beliefs are soft (or relational) facts about the past, the claim that we have counterfactual power over the past, and the belief that we have the power to bring about or even cause past events. Hasker then carefully examines the notion of God as timelessly eternal and finds it provisionally intelligible; nevertheless, he charges that the doctrine of divine timelessness is inadequately motivated apart from the Augustinian-Neoplatonic metaphysics that was its historical source. He concludes by arguing for a view according to which the future is open and divine providence involves risk-taking. Lucidly and engagingly written, *God, Time, and Knowledge* is a significant contribution to the contemporary debate over freedom and foreknowledge. It will generate discussion and controversy among philosophers of religion, metaphysicians, and theologians.

## **Life's Biggest Questions**

### **Revelation and Reason**

Internationally acclaimed scholars offer a progress report on current evangelical thinking about God's being and attributes in light of current controversies.

### **God, Knowledge, and Mystery**

How do we know God? Can we know God as he is in himself? Theologians have argued for the role of natural and supernatural revelation, while others have argued that we know God only on the basis of the incarnation. In this SCDS volume, Steven J. Duby casts a vision for integrating natural theology, the incarnation, and metaphysics in a Christian description of God in himself .

### **Catechism of the Catholic Church**

### **Systematic Theology**

The key to the doctrine of the Trinity is the combination of transcendence and personality in the biblical portrayal of God. This idea is traced through Old Testament, New Testament, the Church Fathers, medieval scholasticism, the Reformation and early modern theology, and three 20th century theologians (Barth, Pannenberg, and Macquarrie).

## **Engaging the Doctrine of God**

'The Word of God' is a multi-faceted concept. God speaks but Word is one of Jesus's names. God's personal communications take other forms, through prophets, apostles, and the written Word. Frame investigates them all. --from publisher description

## **The Knowledge of God in Calvin's Theology**

Many contemporary theologians claim that the classical picture of God painted by Augustine and Aquinas is both outmoded and unbiblical. But rather than abandoning the traditional view completely, John Feinberg seeks a reconstructed model—one that reflects the ongoing advances in human understanding of God's revelation while recognizing the unchanging nature of God and His Word. Feinberg begins by exploring the contemporary concepts of God, particularly the openness and process views, and then studies God's being, nature, and acts—all to articulate a mediating understanding of God not just as the King, but the King who cares! Part of the Foundations of Evangelical Theology series.

## **The Divine Foreknowledge**

In a book that will appeal to a general audience as well as philosophers of religion, a leading metaphysician tackles fundamental theological problems in a lucid and engaging manner. Peter van Inwagen begins with a provocative new introduction exploring the question of whether a philosopher such as himself is qualified to address theological matters. The chapters that follow take up the central problem of evil in a world created and sustained by God.

## **Belgic Confession**

Described by Pope Pius XII as the most important theologian since Thomas Aquinas, the Swiss pastor and theologian, Karl Barth, continues to be a major influence on students, scholars and preachers today. Barth's theology found its expression mainly through his closely reasoned fourteen-part magnum opus, Die Kirchliche Dogmatik. Having taken over 30 years to write, the Church Dogmatics is regarded as one of the most important theological works of all time, and represents the pinnacle of Barth's achievement as a theologian.

## **Lectures on Faith**

Analyzes the major phases of Karl Barth's Christological exegesis of Judaism. Contends that despite his lifelong opposition to antisemitism and racism (as a leader of the anti-Nazi Confessing Church and a strong supporter of the State of

Israel), Barth represents the broadest tradition of Christian Protestant dogmatic anti-Judaism, preserving and elaborating the controversial theology that has been standard in Christian apologetics since ancient times. Argues that a positive Christian theology of Judaism must begin by acknowledging the irreconcilable differences between the two religions, pleading for a theological recognition of an independent Judaism.

## **The Unity of Fichte's Doctrine of Knowledge**

Classical Calvinist, Modified Calvinist, Classical Armenian, and Open Theist views are evenly and productively discussed in Perspectives on the Doctrine of God.

## **Understanding the Doctrine of God's Time**

This book is a work of systematic theology that provides a fresh interpretation of Aquinas on the nature of theology, and uncovers and explores theological affinities between Aquinas and Protestant theologian Karl Barth.

## **The Doctrine of the Christian Life**

The doctrine of God is the foundation of Christian theology and the prerequisite of all true faith. This translation provides, in the words of Hendriksen, 'a spiritual treat' for the serious reader.
