The Fear That Divides Us

A House of My Own

Concise and Abridged Edition In this blistering polemic, veteran journalist Mick Hume presents an uncompromising defence of freedom of expression, which he argues is threatened in the West, not by jackbooted censorship but by a creeping culture of conformism and You-Can't-Say-That.

Remember the Distance that Divides Us

Patronage Politics Divides Us

Amber Haines is a woman haunted by God. Like Eve in the Garden, she craved the fruit that she thought would lead her to freedom. But the whispers of temptation led her instead down a devastating path toward isolation, dissatisfaction, and life-altering choices. In her most broken moment, Amber met God waiting for her in the fallout, freely offering her grace and life. This is a story of the God who makes himself known in broken places. In prose that is at once lyrical and utterly honest, a brave new voice takes readers on a windswept journey down the path of brokenness to healing, satisfaction, and true intimacy with God. Amber calls readers to dispense with the pretty bows we use to dress up our stories and instead trust God to take our untidy, unfinished lives and make them free, authentic, and whole. Anyone who struggles with doubt or holds secrets, anyone who feels marginalized or like she is missing something, will find in Amber a sister and an inviting voice back home, into the heart of God.

Bishop Foster's Heresy

Our Political Nature

North America is more a political and an economic invention than a place people call home. Nonetheless, the region shared by the United States and its closest neighbors, North America, is an intriguing frame for comparative American studies. *Continental Divides* is the first book to study the patterns of contact, exchange, conflict, and disavowal among cultures that span the borders of Canada, the United States, and Mexico. Rachel Adams considers a broad range of literary, filmic, and visual texts that exemplify cultural traffic across North American borders. She investigates how our understanding of key themes, genres, and periods within U.S. cultural study is deepened, and in some cases transformed, when Canada and Mexico enter the picture. How, for example, does the work of the iconic American writer Jack Kerouac read differently when his Franco-American origins and Mexican travels are taken into account? Or how would our conception of American modernism be altered if Mexico were positioned as a center of artistic and political activity? In this engaging analysis, Adams charts the lengthy and often unrecognized traditions of neighborly exchange, both hostile and amicable, that have left an imprint on North America's varied cultures.

Face to Face is about personal relationships. Everyone talks as though they want one, but most of us are missing the strategies to live with this intimacy, especially with God. This book is an invitation to explore the "ah-ha" moments of a theologian who believes that theology should be practical and speak to where we live. Drawing from years of study in theology, biblical studies, counseling, and addiction therapy, this book is a creative conversation about what is missing in our most important element in life--our relationships. Its simplicity does not diminish its depth in penetrating some of the most complex questions of our age.

The Vision of Peace

Thomas Jefferson envisioned a nation of citizens deeply involved in public life. Today Americans are lamenting the erosion of his ideal. What happened in the intervening centuries? Daniel Kemmis argues that our loss of capacity for public life (which impedes our ability to resolve crucial issues) parallels our loss of a sense of place. A renewed sense of inhabitation, he maintains —of community rooted in place and of people dwelling in that place in a practiced way—can shape politics into a more cooperative and more humanly satisfying enterprise, producing better people, better communities, and better places. The author emphasizes the importance of place by analyzing problems and possibilities of public life in a particular place— those northern states whose settlement marked the end of the old frontier. National efforts to “keep citizens apart” by encouraging them to develop open country and rely upon impersonal, procedural methods for public problems have bred stalemate, frustration, and alienation. As alternatives he suggests how western patterns of inhabitation might engender a more cooperative, face-to-face practice of public life. *Community and the Politics of Place* also examines our ambivalence about the relationship between cities and rural areas and about the role of corporations in public life. The book offers new insight

into the relationship between politics and economics and addresses the question of whether the nation-state is an appropriate entity for the practice of either discipline. The author draws upon the growing literature of civic republicanism for both a language and a vantage point from which to address problems in American public life, but he criticizes that literature for its failure to consider place. Though its focus on a single region lends concreteness to its discussions, *Community and the Politics of Place* promotes a better understanding of the quality of public life today in all regions of the United States.

That Which Divides Us

Kelly McGrail finds herself torn between wanting to stay sober and living a meaningful life or taking up the bottle to drown out the pain of feeling left behind by God. Her semi-normal four years of sobriety takes a down turn and her emotions fall into a devastating depression. Before she can do anything to stupid, a strange man comes to her (man or Angel?) and takes her on a journey that changes the course of her life and the lives of all beings on planet Earth.

Dangerously Divided

Draws on three national surveys on religion, as well as research conducted by congregations across the United States, to examine the profound impact it has had on American life and how religious attitudes have changed in recent decades.

Wild in the Hollow

Twenty-first century British kids are more comfortable with ethnic diversity than ever before. The 'mixed race' population is rising exponentially. In school playgrounds across Britain, kids are inventing a version of colour-blind, multi-ethnic interaction that should teach the adult world a thing or two - not least about the amazing, superdiverse generation that is to come. And yet, for over a decade, playgrounds and classrooms have endured unprecedented interference in the form of official racist-incident reporting, training on the importance of racial etiquette, and the reinforcement of racial identities. Such interference is viewed by modern day anti-racists as a necessary bulwark against the creeping influence of the far-right, 'Islamophobia', and more generally the supposed covert racism of the wider population. Many official policy documents written under the influence of this approach insist a failure to tackle racist behaviour at the earliest age will allow racism to incubate and grow. Here, 'racism' is something defined by the notion of what constitutes hate speech or wounding words. Often it can be detected from an entirely innocent phrase, so long as the phrase is perceived by the offence-taker or another party or policy as 'racist'. This mindset has, in recent years, permeated public discourse on the subject. Evidence of racism - such as a gaffe by a politician or celebrity, or a footballer's on-pitch insult - is always 'the tip of iceberg' (the moment that racist society breaks the surface and is revealed to all). The idea of a

hidden mass of racists in our midst explains the advent of a racism-watch approach that turns up the attenuator and trawls the nooks and crannies of everyday life for tell-tale signs. Moreover, PC anti-racism synthesises many of today's worst cultural trends: the erosion of free speech and of adult moral authority; the elevation of victimhood and of identity politics (particularly the reinstatement of racial identity); the misanthropic view of rotten, vulnerable humanity (where the state becomes purifier); the cult of child protection and the emergence of a degraded and vulgar conception of child development. It is with some irony, then, that modern day anti-racism can be argued as having taken over from old-fashioned racism as the dominant racialising force in British society.

Women in Sport

Born in Delaware's Brandywine Valley in 1807, Elizabeth Margaret Chandler was a young woman who was fully engaged in her time. Leaving comfort and middle-class Philadelphia wealth behind, she headed west in 1830 with brother, Thomas, and an aunt to begin a new life in the wilderness of the Michigan Territory. During the next four years, until her untimely death in November 1834, Chandler became a tireless local activist; at the same time, she participated aggressively in national political discussions about pressing social issues, in particular in the dialogue about the nascent women's movement and in the debates about Abolitionism as they began to develop in the 1820s and early 1830s. She was ladies' editor of Benjamin Lundy's Abolitionist Journal and a contemporary of William Lloyd Garrison. She wrote letters, articles, and poetry that appeared in the Abolitionist press, but at the same time she was a champion for public education at the local level. Within two years of her arrival in Michigan, she had established the territory's first anti-slave organization, the Logan Female Antislavery Society. This rich collection of personal letters, most written to family members during Chandler's brief life in Michigan, provides a remarkable view of the Northwest frontier in the 1830s, as well as profound insights into the ideology and origins of Abolitionism. Her letters also reveal much about the beliefs, attitudes, and actions of a remarkable young woman who some have seen as a precursor to the Grimké sisters.

Road Captain of the Devil's Dust Motorcycle Club, Bobby has the scars to prove just how dangerous his life is. He gives the world he knows hell and loves every

moment of it. Wearing a panty-dropping grin along the way, his fierce life has never been a problem for him, until her. Jessica is the only female who has him distracted in his game. After taking him to bed, she's the only woman to tell him to take a hike. Waking with her gone, he can't resist her pull. He's seen the marks on her body, ones which tell the horrors she's lived through. He's also seen the fear in her eyes when she lets herself become weak to his advances. Bobby has a decision to make. Can he help Jessica, or will it mean giving up his carefree life? Jessica, also known as Doc, lives life in fear. Years back, she ran to the Devil's Dust for protection, seeking the demise of her abusive, dominant husband. Her mind and soul tortured by her past, she can't allow herself to move forward. The only thing in her sight is her daughter's safety. Even if she has the attention of one particular tattooed biker, she can't succumb to his charm and drag her daughter back into a world of danger, no matter how much he thinks he can save her. Mistakes will be made. Fears will be faced. Pain will be remembered. Can Bobby and Jessica survive the dangers they bring upon themselves?

A Concordance to the Poems of Robert Browning

The poet's voice is clear, direct, yet artful. The sensibility that prevades these poems is that of a mature woman with an inquiring mind and a strong sense of family attachments. Almost every poem delivers a sidelong irony, a study in contrasts that is always overridden by the sense of common humanity shared by two disparate cultures.

This volume provides a cross-disciplinary examination of fear, that most unruly of our emotions, by offering a broad survey of the psychological, biological, and philosophical basis of fear in historical and contemporary contexts. The contributors, leading figures in clinical psychology, neuroscience, the social sciences, and the humanities, consider categories of intentionality, temporality, admixture, spectacle, and politics in evaluating conceptions of fear. Individual chapters treat manifestations of fear in the mass panic of the stock market crash of 1929, as spectacle in warfare and in horror films, and as a political tool to justify security measures in the wake of terrorist acts. They also describe the biological and evolutionary roots of fear, fear as innate versus learned behavior in both humans and animals, and conceptions of human "passions" and their self-mastery from late antiquity to the early modern era. Additionally, the contributors examine theories of intentional and non-intentional reactivity, the process of fear-memory coding, and contemporary psychology's emphasis on anxiety disorders. Overall, the authors point to fear as a dense and variable web of responses to external and internal stimuli. Our thinking about these reactions is just as complex. In response, this volume opens a dialogue between science and the humanities to afford a more complete view of an emotion that has shaped human behavior since time immemorial.

The Ineffable Glory

Two discourses [on 1 Kings xii. 16, and Matt. xxi. 43] on the state of the Country

Why did Donald Trump follow Barack Obama into the White House? Why is America so polarized? And how does American exceptionalism explain these social changes? In this provocative book, Mugambi Jouet describes why Americans are far more divided than other Westerners over basic issues, including wealth inequality, health care, climate change, evolution, gender roles, abortion, gay rights, sex, gun control, mass incarceration, the death penalty, torture, human rights, and war. Raised in Paris by a French mother and Kenyan father, Jouet then lived in the Bible Belt, Manhattan, and beyond. Drawing inspiration from Alexis de Tocqueville, he wields his multicultural sensibility to parse how the intense polarization of U.S. conservatives and liberals has become a key dimension of American exceptionalism—an idea widely misunderstood as American superiority. While exceptionalism once was a source of strength, it may now spell decline, as unique features of U.S. history, politics, law, culture, religion, and race relations foster grave conflicts. They also shed light on the intriguing ideological evolution of American conservatism, which long predated Trumpism. Anti-intellectualism, conspiracy-mongering, a visceral suspicion of government, and Christian fundamentalism are far more common in America than the rest of the Western world—Europe, Canada, Australia, and New Zealand. Exceptional America dissects the American soul, in all of its peculiar, clashing, and striking manifestations.

Angels take many shapes and forms - some familiar, some otherworldly, and some that we don't even recognize as angels. The angels in our lives may be corporeal - having tangible bodies, living among us as people we know or strangers we encounter. Or they may be ethereal - splashes of light, shapes of shadow, perhaps even beatific beings complete with halos and gossamer wings. Empowering Your Life with Angels shows readers how to recognize their own abilities to experience the presence of angels in their lives. Angels aren't here to grant every wish, but rather to provide guidance, direction, assurance, comfort, and protection in ways that help anyone grow and evolve. This new volume in the Empowering Your Life series provides exercises and meditations to help readers find and connect with their angels and spirit guides, and recognize their intervention in every aspect of their lives - love, work, health, and more. It also explores how readers can actually communicate with their angels through guided meditations, dreams, and other techniques. Readers are taught how to interpret the information received in angel

messages and put it to use in every aspect of their lives. The book also discusses how to heal emotions, as well as the physical and spiritual self with the help of angels - and how to become an angel yourself!

After a week of hiding the young men, Marianne is attacked by Lieutenant Herske, a Nazi officer, and is rescued by Charlie. She helps the Americans escape, but assumed the worst when she learns two Americans were killed trying to cross the border. As she pieces together her broken heart, Marianne decides the only way she can defy the Nazis is to join the Austrian resistance. The Thirty Years Peace

The Line that Divides

From the author of *The House on Mango Street*, a richly illustrated compilation of true stories and nonfiction pieces that, taken together, form a jigsaw autobiography—an intimate album of a beloved literary legend. From the Chicago neighborhoods where she grew up and set her groundbreaking *The House on Mango Street* to her abode in Mexico in a region where “my ancestors lived for centuries,” the places Sandra Cisneros has lived have provided inspiration for her now-classic works of fiction and poetry. But a house of her own, where she could truly take root, has eluded her. With this collection—spanning three decades, and including never-before-published work—Cisneros has come home at last. Ranging from the private (her parents’ loving and tempestuous marriage) to the political (a rallying cry for one woman’s liberty in Sarajevo) to the literary (a tribute to Marguerite Duras), and written with her trademark lyricism, these signature pieces recall transformative memories as well as reveal her defining artistic and

intellectual influences. Poignant, honest, deeply moving, this is an exuberant celebration of a life in writing lived to the fullest. From the Hardcover edition.

Offering a critical perspective, Media Literacy for Citizenship emphasizes the ability to analyze media messages as a fundamental component of engaged citizenship. The ten chapters of this text are divided into two sections: the first six chapters explore the landscape of the media today, and each of the final four chapters examines how the media presents specific issues, all of which are of vital importance to civil society. Each chapter forms a mini-lesson and encompasses three core elements: an essay on a subject area important to critical media literacy; a list of case examples that can be used for assignments; and a list of key terms common to all chapters and cases. The diverse topics of study and the rich pedagogy make this book a perfect resource for courses in communications, journalism, media studies, and education.

The Arsenal of Exclusion & Inclusion

Who gets to be where? The Arsenal of Exclusion & Inclusion examines some of the policies, practices, and physical artifacts that have been used by planners, policymakers, developers, real estate brokers, community activists, and other

urban actors in the United States to draw, erase, or redraw the lines that divide. The Arsenal inventories these weapons of exclusion and inclusion, describes how they have been used, and speculates about how they might be deployed (or retired) for the sake of more open cities in which more people have access to more places. With contributions from over fifty architects, planners, geographers, historians, and journalists, The Arsenal offers a wide-ranging view of the forces that shape our cities. by Interboro (Tobias Armborst, Daniel D'Oca, Georgeen Theodore)

Continental Divides

Patronage Politics Divides Us is the culmination of a research project that forms part of MISTRA's first suite of eight priority research projects. The research explores the relationship between patronage, poverty, and inequality with a particular focus on its impact on the conduct of local politics. The overall aim of the study was to explore the possibility of constituting public institutions in a manner that enables them to become legitimate arbiters between the various interests, rather than as instruments that are captured by contending interest groups for their own accumulation. Most importantly, this study was necessitated by the realization that postapartheid patronage politics has not received sufficient scholarly attention. The report is a profile of socioeconomic life in South Africa's various communities as experienced not only by locals but also by foreign-born residents. The findings provide a window on relationships between councilors, business interests, and local party organizations.
