All of his father's training couldn't prepare Kevin for this When a young boy joins his father on his first hunting trip, the rite of passage goes from a dream come true, to an unimaginable nightmare. After begging his father for years, Kevin is finally allowed to take part in the annual event. Although a young boy, Kevin is excited by the idea of losing himself with his father in nature while playing the part of a man. Kevin's father, Bryce, is a former Marine whose tracking skills have allowed him to have many successful excursions. Bryce's ability to find the deer before they find him, when coupled with his extensive outdoorsman survival skills, make him the perfect teacher for the inexperienced but eager Kevin. But even the most experienced hunters can make grave mistakes. When Bryce is seriously injured after an unexpected fall, Kevin must

navigate through unfamiliar woods alone, to find not only help, but also the courage to carry on.

Inside Alcatraz

It could have been considered a whirlwind event, but it was more like a hurricane of circumstances and political intrigue that brought him to the Galaef. No one at this level of government would take an interest in the myth of the Aeolian Master, unless there was some nefarious subplot lurking just below the surface. But why had they involved him--a nobody from an insignificant planet?

In the executive offices of the four major networks, sweeping changes are taking place and billions of dollars are at stake. Now Bill Carter, bestselling author of *The Late Shift*, goes behind the scenes to reveal the inner workings of the television industry, capturing the true portraits of the larger-than-life moguls and stars who make it such a cutthroat business. In a time of sweeping media change, the four major networks struggle for the attention of American viewers increasingly distracted by cable, video games, and the Internet. Behind boardroom doors, tempers flare in the search for hit shows, which often get on the air purely by accident. The fierce competition creates a pressure-cooker environment where anything can happen . . . NBC's fall from grace—Once the undisputed king of prime time, NBC plunged from first place to last place in the ratings in the course of a single season. What will be the price of that collapse—and who will pay it? CBS's slow and steady race to the top—Unlike NBC, CBS, under the leadership of CEO, Leslie Moonves, engineered one of the most spectacular turnarounds in television history. But in this ruthless world, you're only as good as last week's ratings ABC's surprising resurrection—*Lost* and *Desperate Housewives*—have brought ABC the kind of success it could only dream of in the past. So why don't the executives responsible for those hits work there any more? *The End of the News As We Know It*—In a stunningly short period of time, all three of the major network news anchors—Dan Rather, Tom Brokaw, and Peter Jennings—signed off, leaving executives scrambling for a way to keep network news relevant in an era of 24/7 information. *Crazy Like Fox*—They're outrageous, unconventional, and occasionally off-putting, but more and more people are watching Fox shows. Most of all they keep watching *American Idol*. How did Simon Cowell snooker himself into a huge payday? Stay tuned . . .

Based on more than two decades of first-hand research, an energetic foray into the political and cultural struggles over city space delves into the realms of street musicians, homeless punks, militant bicycle activists, high-risk "BASE jump" parachutists, skateboarders, outlaw radio operators, and hip-hop graffiti artists to document the daily battle over public life and space and to provide a compelling analysis of new urban politics.

The Universe Within

This magnificent volume explores the epochal transformations and unexpected continuities in the Byzantine Empire from the 7th to the 9th century. At the beginning of the 7th century, the Empire's southern provinces, the vibrant, diverse areas of North Africa and the eastern Mediterranean, were at the crossroads of exchanges reaching from Spain to China. These regions experienced historic upheavals when their Christian and Jewish communities encountered the emerging Islamic world, and by the 9th century, an unprecedented cross-fertilization of cultures had taken place. This extraordinary age is brought vividly to life in insightful contributions by leading international scholars, accompanied by sumptuous illustrations of the period's most notable arts and artifacts. Resplendent images of authority, religion, and trade embodied in precious metals, brilliant textiles, fine ivories, elaborate mosaics, manuscripts, and icons, many of them never before published highlight the dynamic dialogue between the rich array of Byzantine styles and the newly forming Islamic aesthetic. With its masterful exploration of two centuries that would shape the emerging medieval world, this illuminating publication provides a unique interpretation of a period that still resonates today.

The House That Rock Built

Set on an island in the South Pacific during the final days of World War II, when the tide has turned against Japan and the war has unmistakably become one of attrition, *The Breaking Jewel* offers a rare depiction of the Pacific War from the Japanese side and captures the essence of Japan's doomed imperial aims. The novel opens as a small force of Japanese soldiers prepares to defend a tiny and ultimately insignificant island from a full-scale assault by American forces. Its story centers on squad leader Nakamura, who resists the Americans to the end, as he and his comrades grapple with the idea of *gyokusai* (translated as "the breaking jewel" or the "pulverization of the gem"), the patriotic act of mass suicide in defense of the homeland. Well known for his antiestablishment and antiwar sentiments, Makoto Oda gradually and subtly develops a powerful critique of the war and the racist imperial aims that proved Japan's undoing.

Jesus: His Story in Stone is a reflection on still-existing stone objects that Jesus would have known, seen, or even touched. Each of the seventy short chapters is accompanied by a photograph taken on location in Israel. Arranged chronologically, the one-page meditations compose a portrait of Christ as seen through the significant stones in His life, from the cave where He was born to the rock of Calvary. The Aeolian Master Book One Revival

A cultural phenomenon for a decade, Friends ranked in the top ten for every year of its original run, an accomplishment unmatched by any other scripted series. And more than twenty-five years since its theme song promised “I’ll be there for you,” Rachel, Monica, Phoebe, Joey, Chandler, and Ross are still entertaining audiences around the world. As the characters maneuvered their ways through dating, love, and the occasional conflict, their loyalty to each other remained steadfast. In Friends: A Cultural History, Jennifer C. Dunn explores why the show immediately took hold of viewers and how the series remained must-see TV for so long. Dunn examines the cultural landscape that allowed a show not centered on traditional sitcom norms of family and career to become such a critical and commercial success. The author also addresses how the show’s complicated depictions of gender roles and class distinctions—as well as its lack of ethnic diversity—did not detract from its popularity. In addition to exploring memorable plotlines, cherished moments, and the quirks of the principal players, this book analyzes the show’s enduring cultural relevance. Featuring a discussion of the show’s 25 best episodes, Friends: A Cultural History offers an engaging look at the series that has resonated with generations of television viewers.

Finnikin of the Rock

The behind-the-scenes battle for the Rock Hall For 25 years, the Rock and Roll Hall of Fame has defined Cleveland's image as the "Rock and Roll Capital of the World." But while the Rock Hall has become an iconic landmark for the city of Cleveland and for fans of rock and roll around the world, it was just one missed phone call away from never being built in Cleveland. If the prominent singer and actress Leslie Gore hadn't contacted radio personality Norm N. Nite in August 1983, the Hall of Fame would not be in Cleveland--period. Earlier that summer, Gore had learned that the newly formed Rock and Roll Hall of Fame Foundation was looking for a city to house their planned museum honoring the history of rock. Gore knew that a year earlier, Nite had pitched an idea for a similar museum, so she reached out to let him know that other figures in the music industry were working to turn his dream into a reality. Nite immediately joined the project's Rules and Nominating Committee and spearheaded the campaign to bring the museum to Cleveland. At the time, the search committee was considering several other cities, including Memphis, Detroit, and New York, but Nite argued that the city's deep historical connection to rock music through Alan Freed and the Moondog Coronation Ball made Cleveland the perfect location. He began lobbying local and state politicians, fundraising with music moguls and civic leaders, and promoting the museum to the broader Cleveland public. As fans got involved, especially with their overwhelming response to a USA Today phone poll, Nite's campaign to bring the Hall to Cleveland was ultimately successful. This book, told from Nite's insider perspective, draws on both first-person accounts and exclusive interviews with influential business leaders, government officials, and giants of the music industry. A detailed record of the Rock Hall's inception and creation, *The House That Rock Built* becomes a true tribute to the people who made it happen--through Herculean efforts--and to the music it celebrates.

NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.
