### Resolution Trust Corporation V. M & L Investments

Electronic commerce is here to stay. No matter how big the dot-com crisis was or how far the e-entrepreneurs' shares fell in the market, the fact remains that there is still confidence in electronic trading. At least it would appear that investors are confident in e-companies again. However, not only trust of venture capitalists is of importance -- consumers also have to have faith in on-line business. After all, without consumers there is no e-business. Interacting lawyers, technicians and economists are needed to create a trustworthy electronic commerce environment. To achieve this environment, thorough and inter-disciplinary research is required and that is exactly what this book is about. Researchers of the project Enabling Electronic Commerce from the Dutch universities of Tilburg and Eindhoven have chosen a number of e-topics to elaborate on trust from their point of view. This volume makes clear that the various disciplines can and will play a role in developing conditions for trust and thus contribute to a successful electronic market.

Dispute management in the U.S. currently accepts workplace conflicts as a necessary part of organizational life. Having an effective dispute management system means providing the methods to resolve a dispute that matches the type and stage to which it has progressed while also serving the needs of those who use the system. Contributors to this collection provide a variety of viewpoints, including international perspectives, that help explain why employers who are committed to effective dispute management will use a combination of preventive and remedial dispute resolution mechanisms to address conflicts based primarily on interests, rights, or power. Several essays also investigate how the interpersonal nature of a relationship between people determines the method selected to handle disputes, the impact of the lens of gender on our thinking about negotiation as a social activity for problem solving, and the tension between self-interest and fairness in negotiation and the use of justifications and impression management to resolve this tension.

### **Trust and Risk in Internet Commerce**

Trust is an important factor in risk management, affecting judgements of risk and benefit, technology acceptance and other forms of cooperation. In this book the world's leading risk researchers explore all aspects of trust as it relates to risk management and communication. Drawing on a wide variety of disciplinary approaches and empirical case studies (on topics such as mobile phone technology, well-known food accidents and crises, wetland management, smallpox vaccination, cooperative risk management of US forests and the disposal of the Brent Spar oil drilling platform), this is the most thorough and up-to-date examination of trust in all its forms and complexities. The book integrates diverse research traditions and provides new insights into the phenomenon of trust. Factors that lead to the establishment and erosion of trust are identified. Insightful analyses are provided for researchers and students of environmental and social science and professionals engaged in risk management and communication in both public and private sectors. Do you feel like your career exists somewhere between your last sale and your next one? Are you always searching for the way to bridge the gap and create long-

term success? Does it seem that somehow your life is only about your ability to perform on the job? For too long you have bought into the idea that the business you do and the life you lead are completely separate. What Todd Duncan has learned in his twenty-two years of sales is the polar opposite: When you discover how to connect who you are and what you are about in your selling career, the results will be phenomenal and long-lasting. No matter what industry you work in or what type of sales position you hold, adopting the practical principles in High Trust Selling will open the door to a new way of thinking and a life beyond your wildest expectations. “Long-term sales success happens when high trust exists—when you are a trustworthy salesperson running a trustworthy sales business, and when it’s clear to your clients that you are a person of integrity who will not only do what you say but who also has the means to deliver.” —Todd Duncan

In a world governed by speed, the Internet plays a growing role in many of today's innovations, and the resolution of disputes using electronic means of communication may soon be part of everyday legal practice. This book offers a survey of the current state of play in online dispute resolution, from the methods and information technology currently in use to the range of regulatory solutions proposed by shareholders. Taking their analysis a step further, the authors also address this new field's most pressing issues, including possible amendments of existing legislation, treaties, and arbitration and other ADR rules. Online Dispute Resolution: Challenges for Contemporary Justice is an in-depth study of online dispute resolution today, discussing among other topics: the different methods of ODR; fields of use; ways to bring parties to online dispute resolution; validity and effects of clauses entered into online and providing for online mediation or arbitration; issues surrounding electronic communications and evidence in arbitration; and, enforcement of online dispute resolution outcomes, both through court proceedings and built-in enforcement mechanisms. This book also covers issues related to security and e-commerce in general. As a special feature, it contains a section on existing online dispute resolution providers, complete with interviews and statistics. Online Dispute Resolution: Challenges for Contemporary

Justice is a significant resource for legal counsel, to arbitral institutions, ODR and ADR service providers, governments and governmental and non-governmental organizations, as well as to those with a more academic interest. This book will provide a greater understanding of online dispute resolution to persons in the fields of arbitration and ADR, e-commerce, intellectual property, civil procedure, international law, international trade and commerce, and information technology.

Social Work Approaches to Conflict Resolution helps readers understand the nature and causes of conflict and offers suggestions for coping with conflict effectively. It is based on two assumptions: that conflict is a basic part of the life of normal human beings, groups, organizations, communities, and nations, and that resolving conflict is part of the ongoing interventions of all social workers. A practical text for theory-practicum courses for MSW and doctoral students, it is filled with information also useful to therapists, group workers, community workers, administrators, scholars in the social sciences, practitioners in other helping professions, and trainers in the emerging field of conflict resolution itself. Deliberately linking conflict resolution and systems analysis, Social Work Approaches to Conflict Resolution tackles a number of related themes to help you see the connections between topics not normally presented together in social work literature. You'll see how unmet needs may cause conflict to evolve and escalate and learn about the connections between strongly held feelings and the destructive relations that have developed between diverse ethnic peoples in many parts of our planet. Author Benyamin Chetkow-Yanoov draws on his own background of being a minority as well as his experience in Arab-Jewish reconciliation in Israel as he offers readers thorough explanations of: a systems model for analyzing conflict problem-solving versus resolving conflict how value clashes and victimization are some of the basic causes of conflict escalation 9 professional roles required for resolving conflicts the effectiveness of volunteers in conflict resolution teaching conflict resolution skills to various audiences trends in the evolution of voluntary conflict resolution efforts You can apply much of what you learn in Social Work Approaches to Conflict Resolution not only to your professional life but also to your personal relationships and experiences. Also,

since victimized people and groups are major contributors to the perpetuation and escalation of conflict, the book suggests 10 steps for helping victims free themselves from repeated conflict-generating behaviors.

The Cayman Islands is one of the world's leading jurisdictions for the establishment of offshore trusts. However, it is not easy for a practitioner to approach the drafting of a Cayman Islands trust instrument with confidence. This eminently practical book solves that problem to near perfection. Arranged as a collection of precedents, with each provision of every precedent explained in detail, *Drafting Cayman Islands Trusts*, could hardly make the drafting process easier. The drafter learns the advantages and potential pitfalls associated with each provision as he or she prepares to draft it. The authors provide specific language, although individual variations (based on the authors' expert guidance) are encouraged. The precedents covered including the following: Discretionary trusts (with and without protectors) Interest in possession trust Reserved powers trust Charitable trust STAR trusts Appointments and retirements of trustees For additional convenience, the precedents are also provided in Word format on a CD-ROM that comes with the book. The detailed annotation answers such key questions as the following: Are hostile beneficiaries clauses valid? Do automatic flee clauses work? What powers can a settlor reserve? How can STAR trusts be used to protect trustees holding high-risk assets? Would STAR trusts be recognised in other jurisdictions? How can one restrict a beneficiary's right to information and trust documents? Can the appointment of a foreign trustee discharge a retiring Cayman trustee? What indemnities should retiring trustees request from successors? As a systematic approach to drafting Cayman Islands trusts, this book will be of immeasurable day-to-day value to practitioners and administrators alike. James Kessler QC is a leading practitioner at the Revenue bar. He is the author of *Drafting Trusts and Wills*; *Trusts, Taxation of Foreign Domiciliaries*, and *Taxation of Charities*. He is a founder member of STEP and founder of the Trusts Discussion Forum. Tony Pursall is a Cayman Islands attorney-at-law, who practices from the London office of Maples and Calder. He is a member of the STEP International Committee and of the City of London branch committee of STEP. He is the author of the Cayman Islands section of the World Trust Survey for *Trusts and Trustees* and is a contributor to the Cayman Islands section of *Planning and Administration of Offshore and Onshore Trusts*. "All those who work with Cayman Islands trusts, here or abroad, should leap to their feet and applaud James Kessler and Tony Pursall for this splendid work." The most cutting-edge read on CDO and credit market structures *Collateralized Debt Obligations and Structured Finance* provides a state-of-the-art look at the exploding CDO and structured credit products market. Financial expert Janet

Tavakoli examines securitization topics never before seen in print, including the huge increase in the CDO arbitrage created by synthetics; the tranches most at risk from this new technology; dumping securitizations on bank balance sheets; the abuse of offshore vehicles by companies such as Enron; and securitizations made possible by new securitization techniques and the introduction of the Euro. This valuable guide comprehensively covers one of the fastest growing markets on Wall Street, predicting where new bank regulations and other developments may lead to product growth or product extinction. While providing an overview of the market and its dynamic growth, Collateralized Debt Obligations and Structured Finance explores the types of products offered, hedging techniques, and valuation and risk/return issues associated with investment in CDOs and synthetic CDOs. Janet M. Tavakoli, MBA (Chicago, IL), has over eighteen years of experience trading, structuring, and marketing derivatives and structured products with major financial institutions in New York and London. She is also the author of *Credit Derivatives and Synthetic Structures*, now in its Second Edition (0-471-41266-X).
