Assesses the impact of the Civil War

The Pursuit of God with Study Guide

Writing guides abound, but *The Simple Math of Writing Well* is one of a kind. Readers will find its practical approach affirming, encouraging, and informative, and its focus on the basics of linguistic structure releases 21st-century writers to embrace the variety of mediums that define our internet-connected world. As Harrop reminds us in the opening chapters of her book, we write more today than ever before in history: texts, emails, letters, blogs, reports, social media posts, proposals, etc. *The Simple Math of Writing Well* is the first guide that directly addresses the importance of writing well in the Google age.

The Last Economic Superpower: The Retreat of Globalization, the End of American Dominance, and What We Can Do About It

Dewey. Bellow. Strauss. Friedman. The University of Chicago has been the home of some of the most important thinkers of the modern age. But perhaps no name has been spoken with more respect than Turabian. The dissertation secretary at Chicago for decades, Kate Turabian literally wrote the book on the successful completion and submission of the student paper. Her *Manual for Writers of Research Papers, Theses, and Dissertations*, created from her years of experience with research projects across all fields, has sold more than seven million copies since it was first published in 1937. Now, with this seventh edition, Turabian's *Manual* has undergone its most extensive revision, ensuring that it will remain the most valuable handbook for writers at every level—from

first-year undergraduates, to dissertation writers apprehensively submitting final manuscripts, to senior scholars who may be old hands at research and writing but less familiar with new media citation styles. Gregory G. Colomb, Joseph M. Williams, and the late Wayne C. Booth—the gifted team behind *The Craft of Research*—and the University of Chicago Press Editorial Staff combined their wide-ranging expertise to remake this classic resource. They preserve Turabian’s clear and practical advice while fully embracing the new modes of research, writing, and source citation brought about by the age of the Internet. Booth, Colomb, and Williams significantly expand the scope of previous editions by creating a guide, generous in length and tone, to the art of research and writing. Growing out of the authors’ best-selling *Craft of Research*, this new section provides students with an overview of every step of the research and writing process, from formulating the right questions to reading critically to building arguments and revising drafts. This leads naturally to the second part of the *Manual for Writers*, which offers an authoritative overview of citation practices in scholarly writing, as well as detailed information on the two main citation styles (“notes-bibliography” and “author-date”). This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples, including guidance on citing electronic sources. The final section of the book treats issues of style—the details that go into making a strong paper. Here writers will find advice on a wide range of topics, including punctuation, table formatting, and use of

quotations. The appendix draws together everything writers need to know about formatting research papers, theses, and dissertations and preparing them for submission. This material has been thoroughly vetted by dissertation officials at colleges and universities across the country. This seventh edition of Turabian's Manual for Writers of Research Papers, Theses, and Dissertations is a classic reference revised for a new age. It is tailored to a new generation of writers using tools its original author could not have imagined—while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian.

Singular Texts/plural Authors

A NEW YORK TIMES NOTABLE BOOK Named a best book of the year by the New York Times, NPR, Huffington Post, The A.V. Club, The San Francisco Chronicle, The Guardian, Refinery29, Town & Country, Harper's Bazaar, NYLON, BookRiot. "Kitamura's prose gallops, combining Elena Ferrante-style intricacies with the tensions of a top-notch whodunit." --Elle This is her story. About the end of her marriage. About what happened when Christopher went missing and she went to find him. These are her secrets, this is what happened A young woman has agreed with her faithless husband: it's time for them to separate. For the moment it's a private matter, a secret between the two of them. As she begins her new life, she gets word that Christopher has gone missing in a remote region in the rugged south of Greece; she reluctantly agrees to go look for him, still keeping their split to

herself. In her heart, she's not even sure if she wants to find him. As her search comes to a shocking breaking point, she discovers she understands less than she thought she did about her relationship and the man she used to love. A searing, suspenseful story of intimacy and infidelity, *A Separation* lays bare what divides us from the inner lives of others. With exquisitely cool precision, Katie Kitamura propels us into the experience of a woman on edge, with a fiercely mesmerizing story to tell.

A House Divided

A major problem in the local church today is lack of leadership. Simply put, we have more needs than we have leaders to meet those needs. So, how do we train better leaders faster? The truth is, very few churches really have a well-thought-out leadership development plan. Growth requires continually adding healthy new leaders, who carry the church culture forward and embody its core values. Everyone knows it, but how do we achieve it? In *Empowering Leadership* author and leadership consultant Michael Fletcher says leaders like this can't simply be bought, nor can they be hired from someone else's leadership assembly line. Developing leaders at every level, to create an environment that attracts potential leaders, and to build better leaders faster, an organization needs more than a pipeline. It needs a culture that develops leaders organically. Finding the right kind of leaders to guide your church on a path of continual growth comes out of keeping the right focus, and that focus is not just on the leaders. In fact, as Fletcher

says, It isn't about the leader. It never was about the leader. It will never be about the leader. It will always and only be about Jesus and his people. It's about the people. True leadership development includes the often messy, but necessary, interaction of life upon life. So hiring pastors and key staff roles from within the church is the very best policy—people who "breathe" the culture of the church and who have helped create the culture you want to maintain. If your church or organization needs a good leadership development structure, then you're holding the right book. Empowering Leadership details Michael's greatest insights on how to build better leaders faster by creating a leadership development culture in your church or organization—naturally, organically, continually. Empower your church or organization through great leadership. This book will show you how!

A Manual for Writers of Term Papers, Theses, and Dissertations

Nancy Vyhmeister's Quality Research Papers is fast becoming a standard reference textbook for writing research papers in the field of religion and theology. It takes the student from the beginning assignment of a paper through the research phase to the finished paper. This second edition gives improvements and added material for such things as the expanding field of online research and doing church-related research in a professional manner. Resources for doing research are updated throughout the book.

Implementing the Information Literacy Framework

The crusades were a quintessentially medieval phenomenon, which both defined and reflected the unique social forces that characterized Europe in the Middle Ages. In this fascinating book, Thomas F. Madden places the crusades within the medieval social, economic, religious, and intellectual environments that gave birth to the movement and nurtured it for centuries. He also examines the impact of the Crusades on the Islamic societies which were their primary target, as well as discussing their implications for the Christian Byzantine East. This book will provide students with an up-to-date and accessible introduction to both the Crusades and medieval history.

Splitting the Difference

Hindu and Greek mythologies teem with stories of women and men who are doubled. This text recounts and compares a range of these. The comparisons show that differences in gender are more significant than differences in culture.

A Separation

"Why write together?" the authors ask. They answer that question here, in the first book to combine theoretical and historical explorations with actual research on collaborative and group writing. Lisa Ede and Andrea Lunsford challenge the assumption that

writing is a solitary act. That challenge is grounded in their own personal experience as long-term collaborators and in their extensive research, including a three-stage study of collaborative writing supported by the Fund for the Improvement of Post-Secondary Education. The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single-authored work. They conclude with the injunction: "Today and in the twenty-first century, our data suggest, writers must be able to work together. They must, in short, be able to collaborate."

MLA Handbook for Writers of Research Papers

Implementing the Information Literacy Framework: A Practical Guide for Librarians is written with three types of people in mind: librarians, classroom educators, and students. This book and its website address the implementation of the Association of College and Research Libraries' Framework of Information Literacy in Higher Education. One of the few books written jointly by an academic librarian and a classroom faculty member, Implementing the Information Literacy Framework packs dozens of how-to ideas and strategies into ten chapters specifically intended for librarians and classroom instructors. If you have been waiting for a no-nonsense, carefully explained, yet practical source for implementing the Framework, this book is for you, your colleagues, and

your students, all in the context of a discipline-specific, equal collaboration between the library liaison and classroom educator. Implementing the Information Literacy Framework gives you the tools and strategies to put into practice a host of Framework-based information literacy experiences for students and faculty, creating a campus culture that understands and integrates information literacy into its educational mission.

Mastering Academic Writing

THE RESEARCH WRITER helps students transition from writing the research paper to doing research writing, from reporting information to working with ideas. The subtitle--Curiosity, Discovery, Dialogue--signals this shift: this handbook promotes research as a curiosity-driven activity that leads to discoveries that are then shared through various types of dialogue. With this practical and reader-friendly handbook, students will learn the research and writing skills needed for any research project and will be able to apply and transfer these skills to their own disciplines. Students can use THE RESEARCH WRITER to become more intelligent, ethically aware researchers, able not just to avoid plagiarism but to write with credibility while navigating the twenty-first century digital landscape. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Chicago Manual of Style

The recapture of Jerusalem, the siege of Acre, the fall of Tripoli, the effect in Baghdad of events in Syria; these and other happenings were faithfully recorded by Arab historians during the two centuries of the Crusades. First published in English in 1969, this book presents 'the other side' of the Holy War, offering the first English translation of contemporary Arab accounts of the fighting between Muslim and Christian. Extracts are drawn from seventeen different authors encompassing a multitude of sources: The general histories of the Muslim world, The chronicles of cities, regions and their dynasties Contemporary biographies and records of famous deeds. Overall, this book gives a sweeping and stimulating view of the Crusades seen through Arab eyes.

The Simple Math of Writing Well

When Kate L. Turabian first put her famous guidelines to paper, she could hardly have imagined the world in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*—also known as “Turabian”—remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous

editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released Chicago Manual of Style, 17th edition, as well as with the latest edition of *The Craft of Research*. Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes-bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project. Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines.

Primate Conservation Biology

An updated and thoroughly revised edition of the classic text considers questions of continuity and

change in America's defense policy in the face of a global climate beset by geopolitical tensions, rapid technological change, and terrorist violence.

A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition

Democracy and Other Neoliberal Fantasies is an impassioned call for the realization of a progressive left politics in the United States. Through an assessment of the ideologies underlying contemporary political culture, Jodi Dean takes the left to task for its capitulations to conservatives and its failure to take responsibility for the extensive neoliberalization implemented during the Clinton presidency. She argues that the left's ability to develop and defend a collective vision of equality and solidarity has been undermined by the ascendance of "communicative capitalism," a constellation of consumerism, the privileging of the self over group interests, and the embrace of the language of victimization. As Dean explains, communicative capitalism is enabled and exacerbated by the Web and other networked communications media, which reduce political energies to the registration of opinion and the transmission of feelings. The result is a psychotic politics where certainty displaces credibility and the circulation of intense feeling trumps the exchange of reason. Dean's critique ranges from her argument that the term democracy has become a meaningless cipher invoked by the left and right alike to an analysis of the fantasy of free trade underlying

neoliberalism, and from an examination of new theories of sovereignty advanced by politicians and left academics to a look at the changing meanings of “evil” in the speeches of U.S. presidents since the mid-twentieth century. She emphasizes the futility of a politics enacted by individuals determined not to offend anyone, and she examines questions of truth, knowledge, and power in relation to 9/11 conspiracy theories. Dean insists that any reestablishment of a vital and purposeful left politics will require shedding the mantle of victimization, confronting the marriage of neoliberalism and democracy, and mobilizing different terms to represent political strategies and goals.

George Washington Williams

“We have fun and we enjoy each other’s company, so why shouldn’t we just move in together?”—Lauren, from *Cohabitation Nation* Living together is a typical romantic rite of passage in the United States today. In fact, census data shows a 37 percent increase in couples who choose to commit to and live with one another, forgoing marriage. And yet we know very little about this new “normal” in romantic life. When do people decide to move in together, why do they do so, and what happens to them over time? Drawing on in-depth interviews, Sharon Sassler and Amanda Jayne Miller provide an inside view of how cohabiting relationships play out before and after couples move in together, using couples’ stories to explore the he said/she said of romantic dynamics. Delving into hot-button issues, such as housework, birth control,

finances, and expectations for the future, Sassler and Miller deliver surprising insights about the impact of class and education on how relationships unfold. Showcasing the words, thoughts, and conflicts of the couples themselves, *Cohabitation Nation* offers a riveting and sometimes counterintuitive look at the way we live now.

Some of Tim's Stories

Focussing on research-related assignments, this book helps you navigate the potential pitfalls of academic writing through the experience of students who face the same challenges you do. Packed with hands-on exercises and insightful feedback, this workbook gives you the practice you need to fine tune your academic writing. Using their years of experience coaching students, the authors help you to: Develop and hone arguments Organise and interpret source material Write effective research proposals Follow academic conventions with confidence Complete collaborative writing projects. Encouraging and empowering, this book provides support as you progress through years of academic study, allowing you to develop your skills beyond the basics and master academic writing at an advanced level. SAGE Study Skills are essential study guides for students of all levels. From how to write great essays and succeeding at university, to writing your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills hub for tips, resources and videos on study success!

A Manual for Writers of Research Papers, Theses, and Dissertations, Ninth Edition

National Best Seller From the best-selling author and Pulitzer Prize winner, a powerful nonfiction debut—an “honest, engaging, and very moving account of a writer searching for herself in words.” —Kirkus Reviews (starred) *In Other Words* is a revelation. It is at heart a love story—of a long and sometimes difficult courtship, and a passion that verges on obsession: that of a writer for another language. For Jhumpa Lahiri, that love was for Italian, which first captivated and capsized her during a trip to Florence after college. Although Lahiri studied Italian for many years afterward, true mastery always eluded her. Seeking full immersion, she decides to move to Rome with her family, for “a trial by fire, a sort of baptism” into a new language and world. There, she begins to read, and to write—initially in her journal—solely in Italian. *In Other Words*, an autobiographical work written in Italian, investigates the process of learning to express oneself in another language, and describes the journey of a writer seeking a new voice. Presented in a dual-language format, this is a wholly original book about exile, linguistic and otherwise, written with an intensity and clarity not seen since Vladimir Nabokov: a startling act of self-reflection and a provocative exploration of belonging and reinvention.

The Making of the American Essay

Uses case studies to discuss the successes and failures of academic libraries working to create the

Information Commons.

In Other Words

New York Times Book Review Notable Book of the Year The Social Organization of Sexuality reports the complete results of the nation's most comprehensive representative survey of sexual practices in the general adult population of the United States. This highly detailed portrait of sex in America and its social context and implications has established a new and original scientific orientation to the study of sexual behavior.

Quality Research Papers

Provides guidelines and examples for handling research, outlining, spelling, punctuation, formatting, and documentation.

Arab Historians of the Crusades (Routledge Revivals)

Yves Bonnefoy, celebrated translator and critic, is widely considered the most important and influential French poet since World War II. Named to the College de France in 1981 to fill the chair left vacant by the death of Roland Barthes, Bonnefoy was the first poet honored in this way since Paul Valery. Winner of many awards, including the Prix Goncourt in 1987 and the Hudson Review's Bennett Award in 1988, he is the author of six critically acclaimed books of poetry. Spanning four decades and drawing on all of

Bonnefoy's major collections, this selection provides a comprehensive overview of and an ideal introduction to his work. The elegant translations, many of them new, are presented in this dual-language edition alongside the original French. Several significant works appear here in English for the first time, among them, in its entirety, Bonnefoy's 1991 book of verse, *The Beginning and the End of the Snow*, the 1988 prose poem *Where the Arrow Falls*, and an important long poem from 1993, "Wind and Smoke." Together with poems from such classic volumes as "In the Lure of the Threshold", these new works shed light on the growth as well as the continuity of Bonnefoy's work. John Naughton's detailed introduction looks at the evolution of Bonnefoy's poetry from the 1953 publication of "On the Motion and Immobility of Douve", which immediately established his reputation as one of France's leading poets, through the 1993 publication of *The Wandering Life* and its centerpiece "Wind and Smoke." "This is a comprehensive selection that contains examples of work spanning [Bonnefoy's] full career of forty years, from the ground-breaking "Du Mouvement et de l'Immobilité de Douve" through the celebratory "Pierre Ecrite" to the magical winter landscapes of America's East Coast and an unsettling reworking of myth in the recent "La Vie Errante" . . . The translations, which are the work of a variety of hands, including Galway Kinnell, Emily Grosholz and Anthony Rudolf, nevertheless fit well together and all are sensitive to the register and subtleties of both languages, while the introductory essay by John Naughton expertly explains Bonnefoy's importance as a poet and the influences which have shaped him. This is definitely a volume worth having, for layman

and French specialist alike."—Hilary Davies, *Times Literary Supplement* "Anyone not familiar with Bonnefoy's work will benefit from the background information and explanations given by John Naughton in his excellent introduction The book as a whole provides an excellent introduction to Bonnefoy's poetry and to his concerns of a lifetime."—Don Rodgers, *Poetry Wales*

New and Selected Poems

The Risks and Rewards for the West in the Coming Multipolar World "A marked shift has occurred in the tone and assumptions surrounding our national fortune. Nowhere is this better seen than in the second generation of books dealing with America's financial crisis, particularly Joseph P. Quinlan's *The Last Economic Superpower*." *New York Journal of Books* The global economy, designed by Western powers with the United States as lead architect, is in the process of reconfiguration. The 2008 global financial crisis has terminated America's reign as sole economic superpower and opened up important new spheres of influence to developing nations. Does this signal the retreat of globalization as we know it? Has an economic "cold war" already begun? Will the West ever exert the kind of control and influence it enjoyed just a few short years ago? In *The Last Economic Superpower*, Joseph P. Quinlan, a Wall Street veteran and expert on global economic affairs, addresses these questions and many others. Presenting his vision with refreshing clarity and objectivity, Quinlan examines: How America went from being a major

creditor to the world's largest debtor nation in only two decades Five critical issues America must face in order to prevent permanent fragmentation of the global economy What the fading appeal of Europe and Japan means for the future of globalization What China, India, and others have that the West doesn't--and why this gives them unprecedented leverage Decisions made now will shape the course of history. The Last Economic Superpower outlines critical choices that must be made in order to recast, reinvent, and reenergize a new style of globalization. The Last Economic Superpower lays bare the issues and challenges that will decide whether the world builds a new, functional system that serves all or fragments into separate spheres of influence, which benefits no one.

The Research Writer, Spiral bound Version

In *The Nature of the Book*, a tour de force of cultural history, Adrian Johns constructs an entirely original and vivid picture of print culture and its many arenas—commercial, intellectual, political, and individual. "A compelling exposition of how authors, printers, booksellers and readers competed for power over the printed page. . . . The richness of Mr. Johns's book lies in the splendid detail he has collected to describe the world of books in the first two centuries after the printing press arrived in England."—Alberto Manguel, *Washington Times* "[A] mammoth and stimulating account of the place of print in the history of knowledge. . . . Johns has written a tremendously

learned primer."—D. Graham Burnett, *New Republic*
"A detailed, engrossing, and genuinely eye-opening account of the formative stages of the print culture. . . . This is scholarship at its best."—Merle Rubin, *Christian Science Monitor*
"The most lucid and persuasive account of the new kind of knowledge produced by print. . . . A work to rank alongside McLuhan."—John Sutherland, *The Independent*
"Entertainingly written. . . . The most comprehensive account available . . . well documented and engaging."—Ian Maclean, *Times Literary Supplement*

Pocket Style Manual

This is a compact but comprehensive guide to writing clearly and effectively in APA style. Demonstrates how to write objective scientific research papers using interesting prose Incorporates guidelines from the 6th edition of the APA publication manual Explores how to develop ideas, connect them to what others have written, and express them clearly Discusses the differences between written, oral, and poster presentations and offers instructions for applying APA style to each

The Social Organization of Sexuality

Western theology has long regarded 'Being' as a category pre-eminently applicable to God, the supreme Being who is also the source of all existence. This idea was challenged in the later philosophy of Martin Heidegger and identified with the position he called 'ontotheology'. Heidegger's critique was

repeated and radicalized in so-called postmodern thought, to the point that many theologians and philosophers of religion now want to talk instead of God as 'beyond Being' or 'without Being'. Against this background, God and Being attempts to look again at why the ideas of God and Being got associated in the first place and to investigate whether the critique of ontotheology really does require us to abandon this link. After exploring how this apparently abstract idea has informed Christian views of salvation and of the relationship between God and world, George Pattison examines how such categories as time, space, language, human relationships and embodiment affect our understanding of God and Being. Pattison concludes that whilst Heidegger's critique has considerable force, it remains legitimate to speak of God as Being under certain restricted conditions. The most important of these is that God is better conceived in terms of purely possible Being rather than (as in classic Christian theology) 'actual' Being. This leaves open possibilities of dialogue with, e.g., non-theistic religious traditions and with science that are foreclosed by traditional conceptions. Ultimately, however, all basic religious ideas must issue from and be seen to serve the requirements of embodied love.

The Nature of the Book

In brief yet hard-hitting chapters, the entire scope of disciple making is presented here in a way that will inspire and inform you to obey the Great Commission with great passion. The authors share practical insights on how best to reproduce confident

reproducers of Christ's message. --from back cover.

Cohabitation Nation

From the author of *The Outsiders*: “Immediate and gripping” tales of two boys whose lives diverge in dramatic ways after a shared childhood tragedy (*School Library Journal*). Terry and Mike were cousins who were as close as cousins could be—more like twin brothers, really. They thought they were invincible and that the happy times would last forever, until the day their fathers headed off for their annual deer-hunting trip. That was when everything started to change, and their paths went in very different directions. Years later, another fateful event will send one of them to prison—and the other to a bartending job in Oklahoma—while the prospect of an eventual reunion looms . . . From the award-winning author of *That Was Then, This Is Now* and *Rumble Fish*, “Some of *Tim’s Stories* is a compact set of vignettes” full of “sharp, concise observation” (*The New York Times*).

Empowering Leadership

The first major translation of the Christian Scriptures from the original languages to be undertaken since the King James Version (1611), the Revised Standard Version debuted in 1952 to simultaneous acclaim and condemnation. Mainline Protestants and Roman Catholics lauded the new translation, while many evangelicals villified it. The RSV dramatically shaped the course of English Bible translation work in the

latter half of the Twentieth Century, and it remains the Bible of choice for many people. This 50th Anniversary Edition features a clear new type setting that readers are certain to appreciate.

The SBL Handbook of Style

A biography of the life of the amateur scholar who wrote the first history of African Americans in the United States: A HISTORY OF THE NEGRO RACE IN AMERICA (1882).

The IRA

Democracy and Other Neoliberal Fantasies

Sometimes the voices that speak most clearly in the present are those that echo from the past. So it is in this Christian classic by the late pastor and evangelist A. W. Tozer. In *The Pursuit of God*, Tozer brings the mystics to bear on modern spirituality, grieving the hustle and bustle and calling for a slow, steady gaze upon God. With prophetic vigor and flowing prose, he urges us to replace low thoughts of God with lofty ones, to quiet our lives so we can know God's presence. He reminds us that life apart from God is really no life at all. Tozer's bestseller, this book has been called "one of the all-time most inspirational books" by a panel of Christian magazine writers. And with this study guide, ideal for group or individual use, reflection and discussion questions will help you

internalize the content and apply it to your life.

APA Style Simplified

For two decades, essayist John D'Agata has been exploring the contours of the essay through a series of innovative, informative, and expansive anthologies that have become foundational texts in the study of the genre. The breakthrough first volume, *The Next American Essay*, highlighted major work from 1974 to 2003, while the second, *The Lost Origins of the Essay*, showcased the essay's ancient and international forebears. Now, with *The Making of the American Essay*, D'Agata concludes his monumental tour of this inexhaustible form, with selections ranging from Anne Bradstreet's secular prayers to Washington Irving's satires, Emily Dickinson's love letters to Kenneth Goldsmith's catalogues, Gertrude Stein's portraits to James Baldwin's and Norman Mailer's meditations on boxing. Across the anthologies, D'Agata's introductions to each selection-intimate and brilliantly provocative throughout-serve as an extended treatise, collectively forming the backbone of the trilogy. He uncovers new stories in the American essay's past, and shows us that some of the most fiercely daring writers in the American literary canon have turned to the essay in order to produce our culture's most exhilarating art. *The Making of the American Essay* offers the essay at its most varied, unique, and imaginative best, proving that the impulse to make essays in America is as old and as original as the nation itself.

A Concise History of the Crusades

In this remaking of the myth of Orpheus, Rushdie tells the story of Vina Apsara, a pop star, and Ormus Cama, an extraordinary songwriter and musician, who captivate and change the world through their music and their romance. Beginning in Bombay in the fifties, moving to London in the sixties, and New York for the last quarter century, the novel pulsates with a half-century of music and celebrates the power of rock 'n' roll.

The Pursuit of God

From the snub-nosed monkeys of China to the mountain gorillas of central Africa, our closest nonhuman relatives are in critical danger worldwide. A recent report, for example, warns that nearly 20 percent of the world's primates may go extinct within the next ten or twenty years. In this book Guy Cowlshaw and Robin Dunbar integrate cutting-edge theoretical advances with practical management priorities to give scientists and policymakers the tools they need to help keep these species from disappearing forever. *Primate Conservation Biology* begins with detailed overviews of the diversity, life history, ecology, and behavior of primates and the ways these factors influence primate abundance and distribution. Cowlshaw and Dunbar then discuss the factors that put primates at the greatest risk of extinction, especially habitat disturbance and hunting. The remaining chapters present a comprehensive review of conservation strategies and management

practices, highlighting the key issues that must be addressed to protect primates for the future.

American Defense Policy

A guide to the technologies, methods, and materials that can help writers of research papers

The Ground Beneath Her Feet

When people think of the centuries-old struggle for home rule in Northern Ireland, they generally think of the Irish Republican Army. Now comes an exhaustive history of one of the most feared and misunderstood paramilitary groups of all time--by an authority on Irish affairs. 32 photos.
