The Hitchhiker's Guide to Python takes the journeyman Pythonista to true expertise. More than any other language, Python was created with the philosophy of simplicity and parsimony. Now 25 years old, Python has become the primary or secondary language (after SQL) for many business users. With popularity comes diversity—and possibly dilution. This guide, collaboratively written by over a hundred members of the Python community, describes best practices currently used by package and application developers. Unlike other books for this audience, The Hitchhiker's Guide is light on reusable code and heavier on design philosophy, directing the reader to excellent sources that already exist.

## The Complete Idiot's Guide to RVing

The authors, who have more than two decades of combined experience teaching an atoms-first course, have gone beyond reorganizing the topics. They emphasize the particulate nature of matter throughout the book in the text, art, and problems, while placing the chemistry in a biological, environmental, or geological context. The authors use a consistent problem-solving model and provide students with ample opportunities to practice.

A complete, illustrated A-to-Z resource for vintage trailer enthusiasts. A comprehensive guide to vintage trailers made by the hundred most popular manufacturers, from Airstream to Zipper, including brief histories of the manufacturers, and illustrations of the trailer models by year showing how to identify them. The *Illustrated Field Guide to Vintage Trailers* also features a general history of vintage trailers with an illustrated time line, an overview of the typical trailer body styles showing silhouette shapes, "spotting notes" about how to identify trailer models in the wild, a section on other rare and notable trailers, sidebars on styling and logos, and notes on reissues and modern "retro" models. A generous selection of full-color photos of vintage trailers is also included. Bob Thompson is the owner of Bobland in Portland, Oregon, which produces custom woodwork. Carl Jameson is a writer, director, and producer at Craftmaster Productions in Portland, Oregon, creating specialized sales and marketing videos for business. The pair worked together to restore a 1958 Cardinal canned ham trailer, and in the process became both expert and enthusiastic about the world of vintage trailers.

## **2015 International Valuation Handbook**

*Trading the Fixed Income, Inflation and Credit Markets* is a comprehensive guide to the most popular strategies that are used in the wholesale financial markets, answering the question: what is the optimal way to express a view on expected market movements? This relatively unique approach to relative value highlights the pricing links between the different products and how these relationships can be

used as the basis for a number of trading strategies. The book begins by looking at the main derivative products and their pricing interrelationships. It shows that within any asset class there are mathematical relationships that tie together four key building blocks: cash products, forwards/futures, swaps and options. The nature of these interrelationships means that there may be a variety of different ways in which a particular strategy can be expressed. It then moves on to relative value within a fixed income context and looks at strategies that build on the pricing relationships between products as well as those that focus on how to identify the optimal way to express a view on the movement of the yield curve. It concludes by taking the main themes of relative value and showing how they can be applied within other asset classes. Although the main focus is fixed income the book does cover multiple asset classes including credit and inflation. Written from a practitioner's perspective, the book illustrates how the products are used by including many worked examples and a number of screenshots to ensure that the content is as practical and applied as possible.

Old campers have an appeal that reaches back in time and can send your imagination soaring. Let's face it: they are cool. Who hasn't seen one parked on a boulevard with a "for sale" sign and pictured it bouncing along behind the family car, ready for adventure and fun? Unfortunately, campers are not quite homes, they are not quite cars, and they have their own unique systems and demands that make fixing and upgrading a challenge. Even if you have plenty of DIY experience, a camper speaks a foreign language. Consider Camper Rehab your Rosetta Stone for the language of Shasta, Dutchmen, or Airstream. This book is a top-to-bottom guide to getting a fifth-wheel, teardrop, or other camper trailer ready for the road and beyond. From basic troubleshooting to electrical and plumbing projects,

replacing interior surfaces, and clever (sometimes "retro") decorating ideas, this book uses detailed illustrations, color photography, and a wealth of step-by-step, how-to information to get help you get your travel trailer into shape for your next big--or little--adventure. And in case you haven't pulled the trigger on that trailer you're eying on Craigslist just yet, Camper Rehab also walks you through the process of evaluating a potential purchase, identifying which issues are fixable and which are dealbreakers, as well as how to spot hidden problems. Written by accomplished DIY author Chris Peterson, whose light and approachable tone is coupled with the hardworking DIY information you need, Camper Rehab is a must-have for any camper owner or dreamer.

### **The Rv Rating Book**

A Practical Guide to Full-Time RV Living Motorhome & RV Retirement Startup Exactly six years ago my spouse Shirley and I have both retired from our previous careers, leaving us with quite a lot of extra time in a mostly empty house throughout the day. That's when we decided we wanted to travel. The only problem was we did not know what the best way was to get from point A to point

B. Needless to say, we needed to find a way that was comfortable for the two of us, given our conditions; we did not want our sense of adventure to be limited by something as unimportant as physical pain, after all. That is when we spoke to our neighbors, old family friends who had just returned from an RV camping trip with another couple. The more we learned about traveling in an RV, the more my wife and I were convinced that was the solution to our conundrum. We had some savings, we had the time, and we had the ability to go wherever we wanted in the world with the safety aspect of carrying a piece of home with you. Thus we decided to start our new life in an RV on the road. We have been living the RV life for the last five years now, and I must admit that these five years are the best years of our life so far. I also must admit that not everything has been glorious and fun, yes, we have faced our fair share of problems and hiccups on various fronts, but looking back, they all were great learning experiences. However, RV living isn't just for retirees; it can be for anyone who wants to enjoy the freedom of living on the road although this doesn't mean that full-time RV living is for everyone. Whether you are retiring soon and want some adventure, have been retired for a while and want a change of scene, or simply want to change your way of life to something simpler, living full-time out of an RV can be your answer. In this book, we are going to show you what is involved in RV living, how you can get started and what you need to do to live an affordable full-time life on the road while enjoying the wonderful sights. Hopefully, this book will help you avoid the rookie mistakes we had made when we started out and make your transition smoother and more enjoyable. Here is a Quick Glimpse of What we Covered In this Guide. How to Decide if RV living is Right for You. Pros & Cons of Full-Time RV Living The cost to Full-Time RV Living Affordability of RV Living Life Style How to Prepare for Full-Time Life on the road 5 Step Transition Process How to Pick and Buy the Right RV for you Various Types of RV's and their estimated price Factors to Consider when Choosing a New or Used RV Used RV Buying Checklist How Everything Works in an RV Best way to Insure & Protect your Investment Highway System, Signs and Parking Learning to Drive an RV, Best Practices Tips and Tricks How & What to Pack for Full-Time RV Living Utility Sources Internet, Cell phones, Mail, Banking, State Residency, Etc. NEW YORK TIMES BESTSELLER • From the stars of the Netflix series *Get Organized with The Home Edit* (with a serious fan club that includes Reese Witherspoon, Gwyneth Paltrow, and Mindy Kaling), here is an accessible, room-by-room guide to establishing new order in your home. Believe this: every single space in your house has the potential to function efficiently and look great. The mishmash of summer and winter clothes in the closet? Yep. Even the dreaded junk drawer? Consider it done. And the best news: it's not hard to do—in fact, it's a lot of fun. From the home organizers who made their orderly eye candy the method that everyone swears by comes Joanna and Clea's signature approach to decluttering. *The Home Edit* walks you through paring down your belongings in every room, arranging them in a stunning and easy-to-find way (hello, labels!), and maintaining the system so you don't need another do-over in six months. When you're done, you'll not only know exactly where to find things, but you'll also love the way it looks. A masterclass and look book in one, *The Home Edit* is filled with bright photographs and detailed tips, from placing plastic dishware in a drawer where little hands can reach to categorizing pantry items by color (there's nothing like a little ROYGBIV to soothe the soul). Above all, it's like having your best friends at your side to help you turn the chaos into calm. PLEASE NOTE: The paperback includes a starter set of labels for your refrigerator; the ebook and audiobook include a link to download and print the labels from a computer (you will need 8-1/2 x 11-inch clear repositionable sticker project paper, such as Avery 4397). Vintage camper trailers are a unique symbol of midcentury America that resonates with many people. This book introduces many of those people, along with the trailers they've lovingly maintained or restored. It includes hundreds of photographs of everything from fancy and comfortable trailers designed for glamping (glamorous camping), to trailers handed down through families across generations, and even entrepreneurs who have transformed their trailers into vending booths. Paul Lacitinola enjoys everything about vintage camper trailers, including rescuing, restoring, and rallying. In 2011, he began publishing the first U.S.-based magazine for collectors, restorers, and admirers of American-made camper trailers, *Vintage Camper Trailers*, which now has thousands of subscribers in more than a dozen different countries. He lives in Elverta, California.

## **Alternative Assets and Cryptocurrencies**

Alternative assets such as fine art, wine, or diamonds have become popular investment vehicles in the aftermath of the global financial crisis. Correlation with classical financial markets is typically low, such that diversification benefits arise for portfolio allocation and risk management. Cryptocurrencies share many alternative asset features, but are hampered by high volatility, sluggish commercial acceptance, and regulatory uncertainties. This collection of papers addresses alternative assets and cryptocurrencies from economic, financial, statistical, and technical points of view. It gives an overview of their current state and explores their properties and prospects using innovative approaches and methodologies.

Two classic love stories in a keepsake edition that will heat up your winter! The Winter Soldier Everyone in Jacobsville, Texas, steered clear of taciturn Cy Parks-

everyone but the spirited Lisa Monroe, who electrified the formidable loner with her tantalizing kisses. Their fiery passion escalated when the soldier returned from the line of duty-and claimed Lisa as his bride, to shield her from a revenge-seeking desperado. Clearly Cy was getting mighty possessive of this enchanting woman who needed the type of safeguarding only he could provide. But who would protect the beguiling bride from him' Cattleman's Pride He was strong, seductive and set in his ways. She was shy, unassuming and achingly innocent. Yet when Jordan made it his personal crusade to help Libby hold on to her beloved homestead, everyone in Jacobsville knew it was just a matter of time before wedding bells chimed. But a cattleman's pride was a force to be reckoned with. Could Libby accomplish what no woman had before and tame this Long, Tall Texan's restless heart?

Smart RV Travel Guide For The Lower 48 States List of RV & National Parks, the Cost, the Amenities, What to See and Do in Each State Smart RV travel guide For the Continental 48 states is a three-year compilation of all the RV parks and National parks in each and every state in the continental US. I outlined all the amenities they offer, the actual cost to stay and so much more. We gathered this data from our last three trips across all 48 states. I also included what to see, where to visit and what they are famous for in each of the states. For each state, I created a detail travel plan that covers everything that is worth seeing along with where to stay while visiting that state. There are 48 chapters, each representing one individual state. Each state is divided into three categories. "Suggested RV trips" - this is where I outline what the main attractions are for each of the states including cities, next I name each and every RV parks, the amenities they offer and what the costs are. Finally, I discuss all the state parks in each state and what perks and goodies they offer along with actual costs. By profession, I was in instructional design, where I designed various commercial and industrial training modules and helped create mini-guides which are far from writing an RV travel guide. I am not qualified to write such guides, but after our 3rd around the country trips, my wife made a convincing argument that people like us could truly benefit from such guides which we didn't have when we first started traveling around our great country. It took me little over nine months to gather all the information and start writing. It is a no-fluff guide with no storytelling as I am good at writing fiction, so I didn't even try, I stayed with the facts and information that I know is helpful to everyone that is looking to take a trip around our good ole' USA. My wife and I were lucky enough to be able to retire at age 52. We both share one passion, and that is the beautiful wide open roads and to see this great vast country of ours. We were able to buy us gently used Class A Fleetwood Southwind for a very reasonable price. It is spacious, maybe a little too spacious for just two of us, but we love every bit of it. It drives beautifully, and the interior comfort is almost like a 5-star hotel. We both love living in it. We spend roughly five months out of the year on the road; we take a 2.5 month long trip around the lower half of the country during the spring, then another 2.5-3 month's long trip during late summer to early fall around the upper part of the country. Since we have been to each of the lower 48 states a dozen or so times and tried out various parks and amenities in every state. We have decided to share all our knowledge here with you. Enjoy the freedom of open roads.

Millions of people travel the countryside in RVs, and that shows no signs of slowing down. RVing leaves a smaller carbon footprint than traditional fly/hotel/drive vacations; plus, it's a lot more comfortable and convenient. Prospective RV buyers agree that RVing allows for more family togetherness, a less-expensive vacation, and a great way to avoid the illnesses travelers pick up in hotels and on cruise ships. If you've already got your RV, or if you'll be renting a rig for the trip, this book will show you how to choose the perfect trip for you or your family, and how to get there smoothly and easily. *Idiot's Guides: RV Vacations* covers:

- Basic tips for getting up to speed in a rented RV.
- Practical information for safety and convenience on the road, plus how-to information on booking space at campgrounds and getting hooked up once there.
- Info for getting started with boondocking, or non-campground camping.
- Choosing your destination and planning the perfect trip.
- Itineraries for regional driving trips, plus lists of the top campgrounds in various regions.
- Forty of the best RV vacations to the most popular attractions in the U.S., including national and state parks, beach destinations, Orlando, Branson, and other sites of wide interest for families and couples.

Each trip will include a map; adaptable 1-, 2-, and 3-week itineraries; rest and food stops; campground information; and a guide to the top things to do once you're there.

Complete RV Buying Guide A to Z Budget Friendly Guide to Buying Used Motorhome If you are reading this, I can safely assume that you are interested in purchasing an RV sometime in the near future. I am also certain that you would like to know who I am and what and why I am an expert in the field of RV. Fair enough! My name is Bruce Bowers, at the time of this writing I am 68, my wife Jill is 67, we both are retired and been living our dream RV life for last 5 years. But that is not why I wanted to write this book. I started my career as a banker years ago,

but in just two years I knew banking was not my cup of tea. I loved being outdoors, and somehow landed a job at an RV dealership in Austin, TX. Since then till I retired I have managed and operated multiple RV dealerships in TX, LA, and TN. I get asked these 8 questions often from people. What is the right RV for me? Is buying a used RV a good idea? Are used RV's reliable? Can buying a used RV be a money pit? What are the best and most reliable brands out there? How would I know if the used RV I am buying is mechanically safe and sound? How can I protect my investment? Where or who should I buy from? In this book, I answer these questions and cover a few more important topics that most first-time RV buyers I think should know about. I took great care not to make this book read like an owner's manual or a technical bulletin. But I wanted this book to explain few basic rules, tips and tricks of buying the right RV the very first time. If you are thinking about buying an RV in the near future, I think I can help you decide on the right one. Just remember RV is a significant investment and you should do a lot of homework before making a decision just as you do before buying a home. Showcasing hundreds of funky vehicles, awe-inspiring landscapes, and cleverly designed interiors in tiny spaces from around the world, Van Life is perfect for who anyone daydreams about living on the open road. More and more people-from millennials to baby boomers-are taking a break from conventional life for the freedom, tranquility, and adventure of being on the road and living in a converted vintage truck, camper, or van. One of these vandwellers, Foster Huntington, created the #vanlife hashtag as he chronicled his adventures living in a van while driving it across the country. He tapped into a community of like-minded individuals looking to explore nature at their own pace and live a debt-free lifestyle. Van Life showcases the best crowd-sourced photographs from Foster's tumblr account, van-life.net, many of which have never been posted. Organized into sections like Volkswagen vans, American vans, converted vans, school buses, and more, the hundreds of photos include shots of the unique vehicles, the beautiful locations they've been parked including stunning beaches, dramatic mountains and picturesque forests, fully designed interiors with kitchens and sleeping quarters, and more. Also included are interviews with solo travelers, couples, and families who are living this new American dream.

A complete & comprehensive RV buying guide designed in three easy-to-read sections. Section 1 includes a step-by-step process for determining the type of recreational vehicle required to satisfy the buyer's needs. It expands on how to choose a recreational vehicle for weekending, vacationing, snowbirding, or full-timing--whether it's a motor home, travel trailer, camper, or tent trailer. It details types of tow vehicles & matching criteria: weight consideration; how to compare brands & more. Section 2 will take the buyer through an inspection process to determine positive & negative features of the RV's design, workmanship & structural integrity. This section includes illustrations & photos in a special "Walk-Around" chapter to show the buyer the specific steps for a good evaluation. Section 3 will take the buyer through the buying process, which includes negotiating techniques to assist in avoiding pitfalls normally associated with financing & extended warranties.
