The greatest small engines in the world are manufactured by Briggs & Stratton. From the informal partnership Stephen F. Briggs and Harold M. Stratton formed in 1908, Briggs & Stratton has evolved into an industry leader whose name is synonymous with the lawn mower engines it pioneered. The Legend of Briggs & Stratton, 208 pages, is filled with 125 color and 145 black & white images chronicling Briggs & Stratton's fascinating history.

Vols. for 1919- include an Annual statistical issue (title varies).

Transport World

The formidable Mark IV tank was pitted against the German Army from 1917 until the end of World War I. This book reveals the important role the tank played in the historic battle of Cambrai in 1917 as well as the first ever tank-versus-tank actions against German A7Vs. In awe of British technology, the Germans actively captured, salvaged and repaired Mark IVs for deployment against the Allies. Using rare photographs and detailed artwork, David Fletcher explores the Mark IV's design and development, its variants and accessories, and brings to life its exciting deployment on the battlefields of World War I.
