A thrilling retelling by master storyteller Jean Houston of the legendary exploits of the founder of the Iroquois Confederacy, known as the Peacemaker. Under his leadership they created a peaceful democracy among five tribes of Native peoples in the northeastern woodlands. This story has inspired American leaders from Benjamin Franklin to the present-day occupants of the White House, and is shown by Houston to be a potent guide to personal transformation and to the visioning of a peaceful world. Jean draws from the experiential workshops she leads, with the help of Margaret (Peggy) Rubin, to guide readers through group or individual exercises that "bring the story home."

"This manual closes a circle which began almost thirty-five years ago (November, 1954) with the beginning of work on a doctoral dissertation defended at the Pontifical Biblical Institute in April, 1957 (published in Spanish in 1962). During three decades of teaching and writing the author has kept an active interest in poetics and stylistics and the resulting accumulated knowledge has been concentrated in the present manual. The primary purpose of the book is not to serve as a source of information about facts and authors but rather to initiate the reader into the stylistic analysis of poetry. To obtain information and to classify it the reader can turn to recent works (Watson), earlier works (Knig, Hempel), or reprinted works (Bullinger). Among the poetic techniques discussed are sound and sonority, rhythm, imagery, figures of speech, dialogue and monologue, development and composition"--Page 4 of cover.
