SEO: Search Engine Optimization Bible

Online video usage in the US is up considerably in 2011 from the same time last year as time spent viewing video on PC/Mac/laptops from home and work locations increased by 45% year-over-year, according to new data from The Nielsen Company. Although the number of unique online video viewers only increased by 3.1% from January 2010, level of activity was up as viewers streamed 28% more video and spent 45% more time watching. People read less and less and rely on video more and more in virtually every aspect of their lives. Video's the Edge will impart current best practices to illustrate how video can 'bring a brand's personality to life' through custom-tailored spokesperson and rectangular video 'snacks' which help put a human face on a brand. In essence, Video's the Edge covers how to strategically coordinate video production, delivery and optimization for the first time to truly revolutionize the art of engagement. This is a marketer's guide to the online video revolution. It is about media technology and how production and professional video delivery work together to provide the key to generating impressive RO. Video's the Edge addresses how video differs from using graphics, extensive copy, photos, or icons in ads and on Websites and the steps that are needed to move away from these static tools to dynamic video

executions, efficiently and effectively. The authors holistic, metrics-driven approach to video marketing has met phenomenal success for companies like Canon, Legalzoom, eHarmony, Napster, MAD MEN, Jazz @ Lincoln Center, HSBC and Experian, with media consulting for Procter and Gamble, McDonald's, Anheuser-Busch, Intel, Nike, Starbucks, British Airways, General Motors, Isuzu, American Airlines, Warner Bros., Philips, Kraft, Best Buy, Brooks Brothers, Philip Morris, JC Penney, Exxon-Mobil and AOL. Search Engine Optimization For Dummies

Research paper from the year 2012 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: 1.0, University of Applied Sciences Bremerhaven, language: English, abstract: Hardly any online advertising effort becomes as important for entrepreneurship accomplishments as Search Engine Marketing. That's surprising marginally, because Search Engines are the single point of contact for customer investigation and information. On that score SEM is one of the most important tools to generate specifically leads. By the side of all online marketing measures, for example keyword advertising, SEO or SEA, the international SEM with YouTube videos is first and foremost the fastest-growing and by far promising opportunity, to establish qualified leads. In addition country-specific advertising messages are completed with corresponding keywords and well-placed with YouTube videos in local Search Engines, to achieve qualified groups of customers, who are in search of new products or services. Marketing specialists analyze and advance the achieved results simultaneously and adjust their marketing strategies immediately. As a consequence there is a better cost planning, target groups are scaled more precisely and the cost-benefit ratio is a sight better for both B2B and B2C. The obvious questions are: what business motivations give evidence of a fruitful cooperation at the hands of international SEM and YouTube videos? Which contents and keywords convert YouTube videos into a guarantee for success and which are critically for a profitable SEM? And after all, which customer is searching where, for what and why? These and further questions will be examined and clarified over the course of the next following sites.

The total number of searches conducted across all search engines in 2011, will exceed 300 Billion and will cost companies competing for these page-one listings

in excess of 50 Billion Dollars. DNO the SEO Revolution is a how-to-guide for achieving Permanent page-one rankings for under \$100. This one extraordinarily simple idea will shatter traditional SEO concepts allowing every reader the opportunity to gain multiple Page One Rankings. I know because I have achieved multiple rankings for my own company and a select number of customers who participated in our trials. Achieving the top three listings on Page One of Google for under \$100 is an amazing accomplishment but for them to be permanently listed and not be under threat from competitors who are prepared to pay more for the ranked position is extraordinary. The use of SEO, PPC and SEM to achieve a Page One Google Ranking are expensive but more importantly they offer no permanency. Keyword auctions that encourage competitors to pay a higher price for the number one ranked position are insane and it is time to do things differently. Remember Einstein said, "The definition of insanity is doing the same thing over and over again and expecting a different result." Act now before your competitor does or face the consequences of their domination over you.

How to Search Engine Optimization

Too many webpage owners feel that once they submit their page to a search engine they are guaranteed success. That is generally not the case. Simply submitting your web page to a search engine is not always enough to get any hits. Most web pages require search engine optimization to become truly successful. Search engine optimization (SEO) is the art and science of making web pages attractive to the search engines. The goal of search engine optimization is to have your website ranked in the top ten internet search hits that appear on the first page. Why is it important to be on the first page? It is important because the average internet user doesn't click on any of the sites listed on the second or third page. Out of sight, out of mind. One of our clients reported a two hundred and ten percent increase on her e-commerce sight when we redesigned her webpage for optimal search engine optimization.
