The Four Loves

The 3rd Edition of Literacy & Learning in the Content Areas helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

Beyond Bullet Points

Examines human love, including affection, friendship, erotic love, and the love of God, and uses sources ranging from Jane Austen to St. Augustine to argue that none of the types of love can prosper without the love of God.

Reading Instruction That Works, Fourth Edition

In this new edition of the most comprehensive vocabulary text available, pre-service, novice, and experienced middle and high school teachers get invaluable tools to share with their students that will enable them to learn thousands of words independently. The new edition features an expanded author team; separate chapter for the major disciplines/subjects, including a separate chapter on Art, Music, Physical Education, and Career and Technical Education; a new, easily-accessible format presenting the strategies, activities, and assessments; chapter notes directing readers to the PDToolkit online resource, new Activity Selection Charts in each chapter; referencing to the Common Core Standards in each activity and strategy; updated research throughout; a new look at Academic Language; and a revised ESL chapter with a strong new multilingual focus.
